

# Index

## A

Activity-based costing

Implementation of, 131–133

Overview of, 119–127, 169

Problems with, 127–131

Uses of, 135–137

Activity-based management, 137–138

Attainable standard, 60

Average costing method, 74–77, 168

## B

Bill of activities, 134–135

Bonus calculations, 108

Budgeting

Using standard costs, 50–51, 61–62

By-product pricing, 112–115, 169

## C

Capacity

Constraint, 79

Utilization, 170

Capital budgeting, 88–90, 102–103, 170–171

Case studies

Activity-based costing, 139–143

Direct costing, 47–49

Target costing, 165–166

Collective bargaining, 59

Commission calculations, 35–36

**Controls**

- Job costing, 12–15
- Target costing, 161–162

**Cost**

- Control, 39–41
  - Pools, 121–123
  - Reduction, 172
  - Smoothing, 51–52
- Cost accountant, role of, 138–139, 154–156
- Cost-plus contracts, 108–109

**D**

**Definitions**

- Direct costing, 30–33
- Throughput costing, 78–79

**Direct costing**

- Definition of, 30–33, 168
- Impact on reported results, 41–45
- Problems with, 37–39
- Uses of, 33–37, 39–41, 45–47

**F**

- Financial closing, 51
- FIFO method
- Overview, 71–74, 168
  - Process costing data flow, 23–27

**H**

- Historical standard, 59

**I**

- Insurance reimbursement, 109
- Inventory accuracy, 58
- Inventory costing
- With standard costs, 62–65
- Inventory valuation
- Impact of all costing methods on, 173
  - Impact of direct costing on, 45–47

Using joint costing  
Using throughput costing, 102

## J

### Job costing

Advantages of, 2–4  
Controls, 12–15  
Data flow, 5–12  
Disadvantages of, 2–4  
Nature of, 1–2, 167

### Joint costing

Allocation methods, 110–112  
Nature of, 106–109, 169  
Pricing, 112–115

Journal entry, standard cost, 66

Just-in-time systems, 71

## K

Kaizen costing, 150–151

## L

Learning curve, 57  
LIFO method, 68–71, 168

## M

Make-or-buy decisions, 35

## O

Outsourcing, 90–93, 173

## P

Pricing decisions, 51, 60–61, 104, 173–174

### Process costing

Advantages, 27–29  
Data flow, 18–27  
Disadvantages, 27–29  
Nature of, 16–18, 168

Product

- Costing, 103
- Design, 174–175
- Mix, 175

Production scheduling, 58, 103–104

**S**

Scrap costing, 175

Standard costing

- For budgeting, 61–62
- For inventory valuation, 62–65
- For pricing, 60–61
- Formulation of, 55–60
- Problems, 52–55
- Process costing data flow, 21–23
- Purpose of, 50–52, 168

Substitute materials, 57

**T**

Target costing

- Control points, 161–162
- Data flow, 157–160
- Description of, 144–152, 169–170
- Impact on profits, 156–157
- Implementation of, 162–164
- Problems with, 152–154
- Uses for, 161

Theoretical standard, 59

Throughput costing

- Compared to traditional accounting, 95–99
- For capital budgeting decisions, 88–90
- For outsourcing decisions, 90–93
- For purchasing decisions, 86–88
- For unprofitable products, 93–95
- Overview of, 79–86, 168–169
- Problems with, 99–100
- Reporting of, 101

Transfer pricing, 109

**V**

Variance analysis, 51

**W**

Weighted average method

Process costing data flow, 18–21
