<b>About the Contributors</b>	<b>xxiii</b>
<b>Introduction: A Roadmap of the New World of Structured Credit</b>	<b>1</b>
How Structured Credit Completes Markets	2
Enabling Technology	3
Improved Liquidity, Transparency, and Customizability	3
Growth of Structured Credit Markets	4
Asset Classes	4
Products	4
Participants	7
Core Uses of Structured Credit	8
Nonrecourse Leverage	8
Diversification	8
Customization of Risk Profiles	9
Separating Legal from Beneficial Ownership	9
Separating Funding from Risk Transfer	9
Isolating and Hedging Risk	10
Representative Examples of Structured Credit Solutions	10
Who Should Read This Book?	11
How This Book Is Organized	11

## **PART ONE**

---

### **Index and Single-Name Products**

<b>CHAPTER 1</b>	
<b>A Primer on Credit Default Swaps</b>	<b>17</b>
<i>Arvind Rajan</i>	
The Market for Credit Default Swaps	17
Transaction Terminology and Mechanics	22

Prerequisites for Credit Derivatives Transactions	22
What Happens in Case of a Credit Event?	23
Unwinding Default Swap Transactions	25
The DV01 of a Credit Default Swap	25
The Default-Cash Basis	26
Some Uses of Default Swaps	26
Buying a Note versus Selling Default Protection	26
Freeing Up or Using Bank Credit Lines	27
Filling a Maturity Gap	28
Expressing Curve or Forward-Rate Views	28
Barbell-Bullet Trade	29
Taking Advantage of Tight Repo Levels without Financing	29
Case Study: Relative Value—Cashing In on the Curve	
Steepness in Telecoms	30
How to Blend CDs and Cash in Long-Maturity-Curve Trades	30
Implementing Credit Curve Flatteners—Two Basic Approaches	33
Appendix: Equivalence of a Bond Spread and Default Swap Premium	35
Specialness of the Underlying	36
Effect of Accrued Default Swap Premium	36
Accrued Interest on the Underlying Risky Security	37
Accrued Interest on the Underlying Risk-Free Security	37
<b>CHAPTER 2</b>	
<b>Credit Default Swaptions</b>	<b>39</b>
<i>Arvind Rajan and Terry Benzschawel</i>	
Payer Options	40
Example—When to Buy a Payer	41
Example—When to Sell a Payer	42
Receiver Options	42
Example—When to Buy a Receiver	43
Effect of DV01 on Credit Swaption Payoffs	43
Example—When to Sell a Receiver	44
Credit Swaption Payoffs in Default	46
Credit Swaption Implied Volatility	47
Conclusion	47

Case Study: Are Tight Spreads Giving You Butterflies?	49
Introduction	49
Float Like a Butterfly, Sting Like a Bee	50
Butterfly versus Payer	50
Variations	54
Details of Butterfly Construction	54
Conclusion	54

**CHAPTER 3****Constant Maturity Credit Default Swaps 57***Olivier Renault and Ratul Roy*

Basics of CMCDs	57
Participation Rate	58
Behavior of CMCDs	59
Impact of Spread Level	60
Impact of Spread Volatility	64
Capped CMCDs	66
Hedging CMCDs	68
Trading Strategies with CMCDs	69
Selling CMCDs Protection	69
Buying CMCDs Protection	70
Combination Trades and Index CMCDs	70
Conclusion	72
Case Study: Taking Curve Views with CMCDs	72
Features of CMCDs	73
Trade Ideas	73
Appendix: Computing the Participation Rate	76

**CHAPTER 4****Credit Derivatives Indexes 79***Jure Skarabot and Gaurav Bansal*

Introduction	79
Family of Credit Derivatives Indexes	80
Structure of the CDX/iTraxx Index Family	81
Administration of Indexes	83
Basket of Credit Default Swaps	83
Trading Example—The Index	84
Up-Front and Running Payments	84
Trading Example—Premium Payments	85
What Happens in Case of a Credit Event?	86
Trading Example—Credit Event	87

Settlement Process after Credit Event	87
Physical Settlement (Indexes and Tranche Products)	88
Cash Settlement (Tranche Product Only)	88
Recent Defaults in CDX Indexes	88
Index versus Intrinsic	90
Investment Strategies with Credit Derivatives Indexes	91
Investors	92
Index-Related Structured Credit Products	92
Issues and Concerns	93
Conclusion	93
Case Study: DJ CDX HY and DJ CDX EM—Conversion of Price Level into a Spread Level	94
Case Study: Using iTraxx to Replicate Bond Portfolios	94
Motivation	94
Typical Portfolio Risks	95
Replicating Interest Rate Risks	96
Using iTraxx to Replicate Broad Credit Market Risk	96
Adjusting for Single-Name Risk through Default Swaps	99
Performance	100
Conclusion	104
Appendix: Description of the Roll Process	106
Risky PV01 of a CDS Contract	106
Calculation of Intrinsic Spread of the Index	107
Risky PV01 of an Index	108
Mark-to-Market Estimation of an Index Position	108

**CHAPTER 5****The Added Dimensions of Credit—A Guide to Relative Value Trading** **111***Matt King and Michael Sandigursky*

Overview of Curve Trades	111
Learning Curves	112
Drivers of Curve Steepness	113
Putting on a Curve Trade	115
Cross-Currency Trades	116
Cross-Currency Opportunities in Bonds	117
Cross-Currency Trades in CDSs	117
Basis Trades	118
Back to Basis	118
Drivers of Basis	122
Why CDSs and Bonds Are Two Sides of the Same Coin	122
Trading the Basis	126

A New Spread Measure: C-Spread	129
Debt-Equity Trades	129
Meet the Models	129
The Debt-Equity Cycle	130
A Practical Hurdle or Two	131
Debt-Equity Trading in Practice—Arbitrage or Mirage?	132
Deciding What to Trade	133
A Recovery Trade	134
iTraxx Credit Indexes	134
Truly Global	135
You've Got to Roll with It	136
iTraxx Intrinsic	137
What Happens When a Name Defaults?	139
Equiweighted or Not	139
Second-Generation Products: iTraxx Tranches	139
Credit Options	140
It's a Knockout	140
Effect of Convexity on Credit Option Payoffs	141
Delta-Exchange	143
Why Sell an Option (Riskier Strategy) Rather Than Buy One?	143
Option Strategies	144

## PART TWO

### Portfolio Credit Derivatives

#### CHAPTER 6

##### Single-Tranche CDOs

149

*Jure Skarabot, Ratul Roy, and Ji-Hoon Ryu*

Overview of Single-Tranche CDOs	149
Advantages of Single-Tranche CDOs	150
Key Features of Single-Tranche CDO Transaction	150
Description of the Product and Basic Structure	151
Main Decision Steps for Investors	153
Key Issues in Modeling and Valuation	155
Single-Tranche CDO Risk Measures and Hedging	158
Substitution of Credits	164
Single-Tranche CDO Market	166
Investment Strategies	167

Case Study: Dispersion Trades and Tranches	180
Traditional Bull-Bear Trade	180
Not Just Another Bull-Bear Tranche Trade	181
Who's Afraid of Blowups?	181
Buy Protection on 10-Year 3 to 7 Percent CDX IG Tranche, Sell Protection on 5-Year 10 to 15 Percent CDX IG Tranche	183
Effect of Blowups in CDX IG on the Dispersion Trade	184
Trade Sensitivity Analysis	184
How to Choose the Most Efficient Tranches	187
Conclusions	190
Case Study: Attractions of Hedged Mezzanines	190
Motivation	191
The Trade	191
Comparing Delta-Hedged Equity and Mezzanines	192
Time-Decay Profile	194
Conclusion	195

**CHAPTER 7****Trading Credit Tranches: Taking Default Correlation  
out of the Black Box 197***Ratul Roy*

The Credit Tranche Market	197
Importance of Default Correlation in Tranches	199
Problems with Traditional Correlation Measure	199
Skew in Default Correlation	201
Further Flaws in Tranche Correlation	201
Correlation Skew Is Like a Volatility Surface	201
Skew Is Market's Risk Preference	204
Investor Risk Appetite May Scale Across Markets	207
Greeks: Managing Correlation and Delta Risk	209
In Summary: Why Skew Is a Better Model	213
Trading Opportunities for Investors	214
Tranche Correlation Can Still Provide Insight	214
Pricing Off-Market Tranches	217
Conclusion and Future Agenda	219
Case Study: Curve Trades in Tranche Markets	220
Curve Trades, Tranche Markets, and Technicals	220
Trade Recommendation	221
Market Drivers for the Tranche Curve Trades	221
Base Correlation Analysis and Market Technicals	223

Technicals Driving the Flattening of Tranche Curves	224
Analysis of Investment Strategy	225
<b>CHAPTER 8</b>	
<b>Understanding CDO-Squareds</b>	<b>229</b>
<i>Ratul Roy and Matt King</i>	
CDOs versus CDO <sup>2</sup>	230
Value of CDO <sup>2</sup> s Derives Broadly from Inner CDOs	232
CDO <sup>2</sup> versus Inner CDO	234
Like Mezzanine, but with Tails	235
CDO <sup>2</sup> versus Master CDO	236
Economic Value versus Rating Quality	238
Uses of CDO <sup>2</sup> : Long, Short, and Correlation!	239
Structures: Good, Bad, and Ugly	239
Inner CDO Tranche Seniority and Thinness	240
Overlap of Credits	242
Nonuniformity of Portfolios	243
Fungible and Tradable Subordination	244
How Managers Can Add Value	246
Not Just Credit Selection	246
Manage to the Structure	248
Conclusion	249
Case Study: Term Sheet	249
<b>CHAPTER 9</b>	
<b>CPPI: Leveraging and Deleveraging Credit</b>	<b>253</b>
<i>Olivier Renault</i>	
Product Mechanics	253
Managed CPPIs	256
When Is CPPI Suitable?	257
Choice of Trading Strategies	257
Case Study: Performance Comparison of Strategies	258
Baseline: Unlevered Strategies	258
Simulations	258
Results	259
Performance Comparison in CPPI Setup	263
Other Strategies	264
Appendix: Our Methodology	265
Our Estimations and Simulations	265

**PART THREE****Collateralized Debt Obligations****CHAPTER 10****Collateralized Loan Obligations****269**

*Glen McDermott, William E. Deitrick, Alexei Kroujiline,  
and Robert Mandery*

Leveraged Loan Market Overview	270
Strong Primary Market Growth	270
Broadening Investor Base	272
Increasing Secondary Market Liquidity	273
Continuing Challenges to Loan Market Liquidity	275
Key Loan Characteristics	276
Loan Structures	281
Revolving Credit Facilities	281
Amortizing Term Loans	281
Institutional Term Loans	282
Pro Rata Loans	282
Overview	282
Key Characteristics	283
Investment Opportunities	284
Middle-Market Loans	285
Overview	285
Key Characteristics	285
Investment Opportunities	288
European Leveraged Loans	289
Overview	289
European Mezzanine Bank Loans	290
Key Characteristics	292
Investment Opportunities	292
Collateralized Loan Obligations	293
Efficient Access to Loan Market Investment Opportunities—Introducing CLOs	293
Basic CLO Structure	293
CLO Asset Manager	296
CLO Market Today	297
Key Drivers of CLO Outperformance	298
Conclusion	303
Middle-Market CLO Handbook	303
Middle-Market Size and Definition	304
Growing Investor Demand	305

Dominance of Institutional Term-Loan Debt	305
Second-Lien Loans Emerge	306
Investment Considerations for Middle-Market Investors	307
Legal Considerations	312
Middle-Market CLOs	312
CLO Investment Considerations	320
Conclusion	324
Appendix A: Middle-Market Loan Characteristics	325
Floating-Rate Coupon	325
Maturity	325
Callability	326
Covenants	326
Structure of a Middle-Market Loan	326
Appendix B: The Basic CLO Structure	327
Case Study: CDO Combination Securities—Tailoring	
Risk/Return Profiles	329
Introduction	329
Equally Rated CDO Combination Securities Are Not Equal	330
Value in Baa3-Rated CLO Combination Securities	332
Conclusion	334
<b>CHAPTER 11</b>	
<b>ABS CDOs</b>	<b>335</b>
<i>Ratul Roy and Glen McDermott</i>	
Overview of the Structured Finance Market	335
Basic Structure	335
Roles of Multiple Parties in a Securitization	336
ABS Market Fundamentals	336
Major Characteristics of Structured Finance Securities	344
Relative Value	344
Structural Protection	346
Collateral Stability	346
Challenges	348
CDOs of Structured Finance Securities	350
Investor Motivation	350
A Customized Investment	350
Relative Value	351
Major Considerations in CDO Investing	351
Leveraging Stability—Performance of SF CDOs	354

CDOs of SFSs Take Many Forms	354
Conclusion	358
Case Study: Relative Value in High-Grade Structured	
Finance CDOs	358
Transaction Overview	359
High-Grade SF Securities: A Strong Track Record	361
Cash Flow Analysis	363
Conclusion	364
Case Study: Untangling Mezzanine and High-Grade	
Structured Finance CDOs	364
Collateral Composition	365
Collateral Risk	366
Expected Loss	366
Correlation Views	368
Other Differences	368
Conclusion	369
Appendix: Rating Transition Matrices of Common	
Structured Finance Collateral	369
<b>CHAPTER 12</b>	
<b>CDO Equity</b>	<b>371</b>
<i>Glen McDermott and Alexei Kroujiline</i>	
Cash Flow CDO Income Notes	373
Return Analysis	377
Defaults	378
Recoveries	380
Interest Rate Risk	382
Collateral Manager	384
Collateral Manager Review	384
Asset Selection	385
CDO Investment Guidelines	386
CDO Manager Types	388
Investment and Trading Philosophy	389
Asset Characteristics	391
Collateral Mix	391
Time Stamp or Cohort	392
Diversification	393
Structure	394
Trigger Levels	394
Senior Costs, Swaps, and Caps	395
Manager Fees and Equity Ownership	396

Credit-Improved Sales—Treatment of Premium	396
Conclusion	397
Case Study: Diversifying Credit Risk Using a CDO Equity Fund	397
Introduction	397
Modeling Assumptions and Analytical Techniques	398
Results	399
Conclusion	400
<b>CHAPTER 13</b>	
<b>Commercial Real Estate CDOs</b>	<b>403</b>
<i>Darrell Wheeler and Ratul Roy</i>	
CRE CDOs by the Numbers	403
Slow Start, but Growth Now Strong	403
Relative Value: Spread Pickup Often Gives CRE CDOs an Edge	405
CRE CDO Performance Has Been Strong	406
Collateral Mix: Diverse and Evolving	407
Building Blocks of a CRE CDO	409
B-Notes and Rake Bonds	411
Second Lien Loans	412
Mezzanine Loans	412
Preferred Equity	413
Whole Loans	413
CMBS First Loss Positions or B-Pieces	413
CRE CDO Managers and Sponsors	415
Who's Who	415
What to Look for in a CRE CDO Manager	415
CRE CDO Investors: A Diverse Group	416
Key Events in the CRE CDO Market	417
A Market Is Born	417
The Rise of CRE CDOs as a Source of Financing	418
The Push for Flexibility	420
The Current State of the CRE CDO Market	421
Investor Analysis of CRE CDOs	422
CRE CDO Analysis for Traditional CDO Investors	423
CRE CDO Analysis for Traditional Real Estate Investors	423
Additional Suggested Collateral Analysis	428
Analysis of CMBS Certificates	428

Analysis of Uncertificated Securities	429
Appendix: List of CRE CDOs	432
Glossary	437
Term Sheet	439
