1 Introduction	1
<i>Pauline Barrieu and Luca Albertini</i>	
PART I NON-LIFE SECURITISATION	7
2 Non-life Insurance Securitisation: Market Overview, Background and Evolution	9
<i>Jonathan Spry</i>	
2.1 Market overview	9
2.2 Market dynamics	14
2.3 The question of basis risk remains	16
2.4 ILS and the credit crunch	18
3 Cedants' Perspectives on Non-life Securitization	19
3A Insurance-linked securities as part of advanced risk intermediation	21
<i>Insa Adena, Katharina Hartwig and Georg Rindermann</i>	
3A.1 Motivation for Allianz to take part in ILS activities	21
3A.2 Objectives of insurance companies	23
3A.3 Case study: Blue Fin Ltd	24
References	28
3B Reinsurance vs Securitisation	29
<i>Guillaume Gorge</i>	
3B.1 Keeping risk vs transferring it	29
3B.2 Reinsurance vs securitisation	30
3B.3 Application to main P&C risks	31
3B.4 Case studies: AURA RE and SPARC	32
3B.5 Limits and success factors to securitisation	33
References	34
3C Securitisation as a diversification from traditional retrocession	35
<i>Jean-Luc Besson</i>	

4	Choice of Triggers	37
	<i>Dominik Hagedorn, Christian Heigl, Andreas Müller and Gerold Seidler</i>	
4.1	General aspects	37
4.2	Indemnity triggers	38
4.2.1	Scope of coverage	39
4.2.2	Payout timing	39
4.2.3	Loss verification	40
4.2.4	Transparency	40
4.3	Non-indemnity triggers	41
4.3.1	Parametric triggers (pure and index)	41
4.3.2	Industry loss triggers	43
4.3.3	Modelled loss triggers	45
4.4	Choosing the optimal trigger	45
4.4.1	Comparison of trigger types	46
4.4.2	Choice of trigger and alternative solutions	47
5	Basis Risk from the Cedant's Perspective	49
	<i>David Ross and Jillian Williams</i>	
5.1	Introduction	49
5.2	Investor vs sponsor risk	50
5.3	Trigger types	50
5.4	Catastrophe models	52
5.4.1	Key components of catastrophe models	52
5.4.2	Uncertainty	54
5.5	Sources of basis risk	55
5.5.1	Source 1: Catastrophe model error/shortcomings	55
5.5.2	Source 2: Discrepancy between the modelled index loss and the modelled company loss	56
5.5.3	Source 3: Dynamic basis risk	56
5.6	Defining basis risk	56
5.7	Quantifying basis risk	58
5.7.1	Measures for pro rata hedges	58
5.7.2	Measures for digital hedges	59
5.7.3	Measuring positive basis risk	59
5.8	Minimising basis risk	60
5.8.1	Over-hedging	60
5.8.2	Choice of index	62
5.8.3	Reset clauses	62
5.8.4	Cat model input	63
5.9	Conclusion	63
	Acknowledgements	63

7.4 Summary		99
8 Legal Issues		101
<i>Malcolm Wattman, Matthew Feig, James Langston, and James Frazier</i>		
8.1 The note offering – federal securities law implications		101
8.1.1 The distribution of the notes		101
8.1.2 Application of the anti-fraud provisions of the federal securities laws		102
8.1.3 Securities offering reform		103
8.1.4 Provision of information		103
8.1.5 The Investment Company Act of 1940		104
8.2 The note offering – the offering circular		104
8.2.1 Important terms		104
8.2.2 ERISA considerations		106

8.2.3	Other considerations regarding the proceeds and payment of interest	109
8.2.4	The risk analysis	110
8.2.5	Opinions	110
8.3	Types of transactions	110
8.3.1	Parametric, index and modeled loss transactions	111
8.3.2	Indemnity transactions	111
8.4	Conclusion	115
9	The Investor Perspective (Non-Life)	117
	<i>Luca Albertini</i>	
9.1	The creation of a sustainable and liquid market	117
9.1.1	Creation of common terminology	118
9.1.2	Risk analysis	119
9.1.3	Correlation with other investments in the portfolio	119
9.1.4	Relative value	121
9.1.5	Valuation and liquidity	121
9.2	Key transaction features from the investor perspective	122
9.2.1	Assessment of the underlying risks being securitised	122
9.2.2	Risk assessment of the instrument	124
9.2.3	Pricing and risk-return profile	125
9.3	Market evolution: the investor perspective	127
9.3.1	Collateral arrangements	127
9.3.2	Data transparency	128
9.3.3	Exposure monitoring	129
9.3.4	Modelling rigour	129
10	ILS Portfolio Monitoring Systems	131
	<i>Tibor Winkler and John Stroughair</i>	
10.1	Introduction	131
10.1.1	Completing the circle	131
10.1.2	'Square peg in a round hole?'	132
10.2	Miu – An ILS platform in a convergent space	133
10.2.1	Overview	133
10.2.2	Nuts and bolts – how the platform works	133
10.2.3	Step by step – entering a contract	134
10.2.4	Portfolio analysis	134
10.3	RMS library of cat bond characterisations	137
10.3.1	Motivation and objectives	137
10.3.2	How is it done? A bird's eye view	137
10.3.3	Apples to apples – a leap for the market	138
10.4	Conclusion	138
11	The Evolution and Future of Reinsurance Sidecars	141
	<i>Douglas J. Lambert and Kenneth R. Pierce</i>	
11.1	A brief history of the brief history of sidecars	142
11.2	Sidecar structures	143
11.2.1	Basic structure	143
11.2.2	Market-facing sidecar	144

	Contents	ix
11.2.3 Non-market-facing sidecar		145
11.2.4 Capitalising sidecars		146
11.2.5 How sidecars and catastrophe bonds are different		147
11.3 The appeal of sidecars		148
11.3.1 From a cedant/sponsor perspective		148
11.3.2 From an investor perspective		149
11.4 Structuring considerations		149
11.5 The outlook for sidecars		150
11.6 Conclusion		151
12 Case Study: A Cat Bond Transaction by SCOR (Atlas)		153
<i>Emmanuel Duroiseau</i>		
12.1 Introduction: SCOR's recent history		153
12.2 Atlas III and IV: Background		153
12.3 Atlas: Main characteristics		155
12.4 Basis Risk		158
12.4.1 Reset		158
12.4.2 Gross up		158
12.4.3 Overlap		158
12.4.4 Synthetic covers		159
12.5 Total Return Swap		160
12.6 Conclusion		160
Appendix A		161
A.1 Definition of events		161
A.2 Extension events		162
13 Case Study: Swiss Re's New Natural Catastrophe Protection Program (Vega)		163
<i>Jay Green and Jean-Louis Mornier</i>		
13.1 A positive evolution of Swiss Re's ILS strategy		163
13.2 Swiss Re accesses multi-event natural catastrophe coverage		164
13.3 The first ILS to use a cash reserve account as credit enhancement		164
13.4 Innovation leads to more efficient protection		165
PART II LIFE SECURITISATION		167
14 General Features of Life Insurance-Linked Securitisation		169
<i>Norman Peard</i>		
14.1 Life insurer corporate and business structures, risks and products		170
14.1.1 Mutual life offices		170
14.1.2 Proprietary life offices		171
14.1.3 Other forms of life office		173
14.1.4 Principal risks associated with life insurance business		173
14.1.5 Principal product types and associated risks		176
14.2 Actors and their roles		177
14.2.1 Sponsor		177
14.2.2 Investors		179
