- Foreign exchange ratios, 22–23
- Freight audit recovery ratio, 240–241
- Fringe benefits to wages and salaries expense, 18–19
- Funded capital ratio, 116–117
  
- Glossary, 351–356
- Goodwill to assets ratio, 26–27
- Gross profit index, 40–41
- Gross profit percentage, 39–40

## Human resources measurements

- Average time to hire, 210–211
- Employee turnover, 209–210
- Intern hiring percentage, 212–213
- Late personnel requisitions ratio, 211–212
- Ratio of support staff to total staff, 213–214

Inbound telemarketing retention ratio, 289–290

Incoming components correct quantity percentage, 234–235

Indirect expense index, 276–277

Insider stock by-sell ratio, 147–149

Intangibility index, 200–201

Internal audit savings to cost percentage, 175–177

## Inventory

Accuracy, 227–228

To sales ratio, 81–82

To working capital ratio, 85

Turnover, 82–84

Interest expense to debt ratio, 21–22

Intern hiring percentage, 212–213

Internal audit efficiency, 177–178

Investment analysis, 320–323

Investment income percentage, 41–42

Investment turnover, 29–30

Issued shares to authorized shares, 119–121

Labor routing accuracy, 193–194

Late personnel requisitions ratio, 211–212

Leverage analysis, 307–309

Liquidity index, 86–87

## Liquidity measurements

Accounts payable days, 87–88

Accounts payable turnover, 88–89

Accounts receivable collection period, 75–76

Accounts receivable investment, 78–80

Accounts receivable turnover, 73–75

Altman's Z-score bankruptcy prediction formula, 104–106

Cash ratio, 91–92

Current liability ratio, 97–98

Current ratio, 89–90

Days delinquent sales outstanding, 76–77

Days of working capital, 94–95

Days sales in receivables index, 77–78

Defensive interval ratio, 96–97

Ending receivable balance, 80–81

Inventory to sales ratio, 81–82

Inventory to working capital ratio, 85

Inventory turnover, 82–84

Liquidity index, 86–87

Noncurrent assets to noncurrent liabilities ratio, 101–103

Required current liabilities to total current liabilities ratio, 98–99

Risky asset conversion ratio, 100

Quick ratio, 90–91

Sales to current assets ratio, 92–93

Short-term debt to long-debt ratio, 103–104

Working capital productivity, 93–94

Working capital to debt ratio, 99–100

## Logistics measurements

Average time to ship, 244–245

Distribution turnover, 230–231

Economic order quantity, 217–218

Economic production run size, 219–220

Electronic data interchange supplier percentage, 229–230

Finished goods inventory turns, 223–224

Freight audit recovery ratio, 240–241

Incoming components correct quantity percentage, 234–235

Inventory accuracy, 227–228

Number of orders to place in a period, 218–219

Obsolete inventory percentage, 224–225

- On-time delivery percentage, 245–246
- On-time parts delivery percentage, 232–233
- Order fill rate, 242–243
- Percentage of actual payments varying from purchase order price, 236–237
- Percentage of certified suppliers, 228–229
- Percentage of inventory > XX days old, 225
- Percentage of products damaged in transit, 246–247
- Percentage of purchase orders issued below minimum dollar level, 237–238
- Percentage of receipts authorized by purchase orders, 239–240
- Percentage of returnable inventory, 226–227
- Percentage of sales through distributors, 247–248
- Picking accuracy for assembled products, 242
- Production schedule accuracy, 216–217
- Proportion of corporate credit card usage, 238–239
- Purchased component defect rate, 233–234
- Raw material content, 221–222
- Raw material inventory turns, 220–221
- Maintenance expense to fixed assets ratio, 275–276
- Manufacturing critical path time, 258–259
- Manufacturing effectiveness, 262–263
- Manufacturing efficiency, 259–260
- Margin of safety, 31–32
- Market performance measures
  - Capitalization rate, 158–159
  - Cost of capital, 154–156
  - Enterprise value/earnings ratio, 151–152
  - Insider stock buy-sell ratio, 147–149
  - Market value added, 149–151
  - Price/earnings ratio, 157–158
  - Sales to stock price ratio, 156–157
  - Stock options to common shares ratio, 152–154
- Market share, 281–282
- Market value added, 149–151
- Marketing measurements, *see* Sales measurements
- Mean time between failures, 268–269
- Net income percentage, 45–46
- Net promoter score, 284–285
- Net worth, 123–125
- Noncurrent assets to noncurrent liabilities ratio, 101–103
- Number of orders to place in a period, 218–219
- Obsolete inventory percentage, 224–225
- On-time delivery percentage, 245–246
