 Hole trend report, 69, 142–143
 Inventory, 26
 Management report, 118, 141,
 142
 Manager, 27–28
 Size calculation, 167–168
Bulk rate pricing, 36
- Capacity
 Constraint duration, 151
 Downstream, 66–67
 Excess, 5
 Idle, 40
 Productive, 40
 Protective, 40
 Sprint, 27
Capacity-buffer
 interrelationship, 153
Capital budgeting, 87–91, 92
Capital request form, 89–90
Case studies
 Constraint buffer
 size, 167–168
 Constraint location, 163–165
 Constraint
 management, 165–166
 Materials release
 date, 168–169
 Pricing, 174–175
 Production
 outsourcing, 171–173
 Throughput analysis, 169–171
- Chart of accounts, 110–111
Constraint
 Buffer, 25–29
 Controls, 115–117
 Duration, 151
 Engineering, 17
 Identification, 85
 Location, 15–18, 163–165
 Management, 18–21, 165–166
 Marketplace, 81–82
 Materials, 7
 Nature of, 5–7
 Overview, 1–13
 Paradigm, 6
 Policy, 6, 21–25
 Raw material, 78–80
 Schedule attainment, 132–134
 Staffing, 73–73
 Utilization, 132
 Work center, 17–18
Controls
 Buffer, 117–119
 Constrained resource, 115–117
 Production
 scheduling, 119–120
Cost accounting
 Activity-based, 54–55
 Allocation, 42
 Direct, 55–56
 Scrap, 48–50
 System comparison, 57
 Traditional, 39–41
Cost reduction analysis, 24
Cost reporting, 156–157
Cost-plus contracting, 113–114
Customer revenue budget, 96–97
- Definitions, 1–2, 7–8
Delivery policy, 23–24
Direct costing, 55–56
Direct labor, 52–53, 101–103,
 107–108
Downtime avoidance, 19
Drum definition, 1–2
Drum-buffer-rope system, 2
Dynamic buffering, 28
- Economic production run
 size, 144
Efficiency variance, 51
Engineering constraint, 17
Equipment utilization, 150
Expediter tracking, 16
- Financial analysis
 Constraint staffing, 73–74
- Downstream capacity, 66–67
Low price, high
 volume, 62–64
Low price for export
 market, 64
Marketplace constraint, 81–82
Plant closing, 82–84
Product addition, 74–76
Product cancellation, 76–77
Product priority, 77–78
Quality workstation
 addition, 71–73
Outsourced production,
 64–66
Raw material
 constraint, 78–80
Upstream product
 processing, 67–68
Sprint capacity, 69–71
First-in, first-out inventory, 31
Forms
 Capital request, 89–90
- Generally accepted accounting
 principles
 Comparison to
 throughput, 106–108
 Reconciliation to
 throughput, 111–113
