Preface	xv
Acknowledgements	xix
1 Introduction: Risk is People's Business	1
1.1 The Essence of Capitalism	1
1.2 The Move to Models; when Risk Ceased to be Managed	3
1.3 The Decade of Risk Management	6
1.4 Risk Intelligence Precedes Risk Management	9
1.5 Risk Management and the Human Dimension of Capitalism	10
1.5.1 Risk scales and balances	10
1.5.2 A risk culture is corporate DNA	11
PART 1 DISTRIBUTING RISK EXPOSURE AND SENSITIVITY ACROSS THE ENTERPRISE	13
2 Identifying Risk Factors	17
2.1 Specific Risk Factors	17
2.1.1 The search for risk factors	18
2.1.2 Root-risk factors	20
2.1.3 Identifying valuation risk	24
2.1.4 Identifying liquidity risk	26

2.2	Systematic Risk Factors	27
2.2.1	Portfolios of external risks	28
2.2.2	Systematic risk and factors correlation	29
3	Working with Risk Factors	33
3.1	Approaching Risk Through Sensitivity and Scenarios	34
3.2	Root-Risk Factors and Conduits of Sensitivity	35
3.3	Back-Testing and Maintaining the Factors	37
4	Working with Scenarios	41
4.1	Scenario Definition	43
4.2	High-Severity and Worst Case Scenarios	43
4.3	Aggregating Firm-wide Risk Sensitivity	45
4.4	Aggregating Scenarios	47
5	From Aggregated Risks to Distributed Risks	51
5.1	The Traditional Approach to Risk Management has Led to the Modelling of Exposure by Business Lines	51
5.2	Distributing Risk by Risk Factors Leads to Creation of a Culture	53
5.3	Distributed Risk Implies Data Analysis	54
6	Creating an Adaptive Information Workflow	57
6.1	Getting the System to Evolve	59
6.2	Moving on to the Next Step	61
PART 2 EMPOWERING BUSINESS AND RISK UNITS WITH RISK MANAGEMENT CAPABILITIES		65
7	Allocating Risk Management Capabilities	67
7.1	Business Managers are Risk Managers	68
7.2	The Role of Executive Risk Committees	71
7.3	The Role of Audit and Control Units	73
8	Mitigation Strategies and Hedging Tactics	75
8.1	Front-line Business Units	75
8.2	Operational Units	77
8.3	Management	78
8.4	Risk Committees and Audit Controls	80

9 Risk Independence or Indifference to Risk?	83
9.1 Role of the Shareholders and Nonexecutive Directors	83
9.2 Responsibility and Accountability	84
9.3 Control and Report Hierarchy	85
10 Risk-Weighted Performance	89
10.1 Principles of Risk-weighted Measurements	90
10.1.1 Mark to time-weighted volatility	91
10.1.2 Business resilience and countercyclical approaches	93
PART 3 CREATING AN INFORMATION WORKFLOW FOR CONTINUOUS FEEDBACK AND PREVENTIVE DECISION MAKING	95
11 From Risk Appetite to Risk Policies	99
11.1 Risk: The New Bond	99
11.2 Dynamic Two-way Information Workflow	100
11.3 Preventive Rules for a Pre-Emptive Course of Action	101
11.4 The Dynamic Assessments of Risk Factor Sensitivities	102
11.4.1 Risk factor appropriateness tests	103
11.5 Sensitivity Rules and Stress Tests	104
11.5.1 Triggers	105
11.5.2 Dynamic, swappable mitigation tactics	106
12 Bottom-Up Activity Feedback	109
12.1 Keeping a Finger on the Pulse	109
12.1.1 Continuous efficiency monitoring	110
12.1.2 Test and result certification	110
12.2 Aggregating Scenarios: The Actual Risk Appetite of the Firm	111
12.3 Towards a Risk Information Bus for IT Purposes	112
13 Enterprise-Wide Aggregation	115
13.1 Cross-asset Sensitivity Aggregation	115
13.2 Cross-division Aggregation Potential Pitfalls	117

13.2.1	Cross-market effects and correlations	118
13.2.2	Of correlation and liquidity	118
13.2.3	Model and valuation risks	119
13.2.4	Technology risks	122
14	Top-Down Decisions and Feedback	123
14.1	Risk Dashboards	123
14.2	Pre-emptive Decision Frameworks	124
14.3	An Interactive and Adaptive Workflow	126
14.4	Hierarchy, Decisions, Overruling	127
15	Deriving a Firm's Actual Observed Risk Appetite	131
15.1	Modelling Worst Case Scenarios	132
15.1.1	Aggregating figures	133
15.1.2	Aggregating qualitative assessments	134
15.2	Risk Policies Reconciliation	135
15.2.1	Quantitative: risk factors, sensitivity, scenarios	136
15.2.2	Qualitative: implied assumptions, distributions, correlations, market evolutions, back-testing	138
15.2.3	Solvency and liquidity management	139
15.2.4	Systematic risks	141
15.2.5	Regulatory risks	144
PART 4	ALIGNING FUNDING STRATEGIES AND LIQUIDITY MANAGEMENT TACTICS WITH CORPORATE RISK POLICIES	147
16	Liquidity, the Ultimate Operational Risk	149
16.1	Maintaining the Internal Balance	149
16.2	Internal Sources of Liquidity Risks	150
16.3	External Sources of Liquidity Risk	152
17	Analysing and Measuring Liquidity Risks	155
17.1	Valuation-driven Liquidity Risks	155
17.2	Market Depth	156
17.3	Over-the-counter Markets	157

18	Funding Risk	159
18.1	Asset Liability Risks	159
18.2	Systematic Sources of Liquidity Risks	160
18.3	Concentration Risks	161
18.3.1	Dynamic concentrations	163
18.3.2	Concentration risk measurements	165
18.3.3	Counterparty interdependence	166
18.3.4	Regulatory-driven liquidity risk	167
19	Managing and Mitigating Liquidity Risks	169
19.1	Laying Down the Foundations of a Corporate Strategy	170
19.1.1	Chosen risk factors and appetite for risk	170
19.2	Monitoring Concentrations	172
19.3	Working with Risk Concentrations	172
19.3.1	Reconciliations or risk concentrations and risk policies	173
19.3.2	Managing concentrations	174
19.4	ALM Analyses and Liquidity Management	175
19.4.1	Margin and business risk analysis	176
19.4.2	Sensitivity of duration gaps	178
19.4.3	Convexity gaps	179
19.5	Valuation Risks	181
19.5.1	Market depth	182
19.5.2	Counterparty-related liquidity risks	183
19.5.3	Corporate governance	184
19.6	Regulatory Risk	184
19.7	Of Liquidity Risk and Correlation	186
19.8	Funding Strategy is a Risk Profile	190
PART 5	EXTERNAL COMMUNICATIONS, DISCLOSURE POLICIES AND TRANSPARENCY	193
20	External Communications	197
20.1	Risk, the New Media	198
20.2	Disclosure Policies	199
20.2.1	Communications directed at regulators and industry representatives	199

20.2.2	Communications directed at shareholders and funding partners	207
20.2.3	Communications directed at the public	210
20.2.4	Public relations and disclosure policies	212
21	Enhancing Transparency	215
21.1	Prices and Valuations Transparency	215
21.2	Transparency of Internal Processes and Procedures	218
21.3	Transparency of Corporate Governance Rules and External Communications	221
22	Information Exchange for Risk Intelligence	223
22.1	Proposal for a Global Credit and Collateral Exposure Surveillance Scheme	223
22.2	Proposal for a Taxonomy of Path-dependent Derivatives and Retail Structured Products	225
22.3	Risk Intelligence Ratings	227
22.3.1	Valuation risk ratings	228
22.3.2	Risk-based pricing frequency	228
PART 6	THE REGULATORY UPHEAVAL OF THE 2010s	231
23	The Great Unwind	233
23.1	Regulatory Reshuffle	233
23.1.1	How risks have evolved	234
23.1.2	From risk regulation to regulatory risks	237
24	Propositions for a Regulatory Upheaval	243
24.1	Propositions Relating to Idiosyncratic Risks	244
24.1.1	Risk concentration benchmarks	245
24.1.2	Departure from the generalized assumption of normality	246
24.1.3	Benchmarks of risk exposure and liquidity concentrations	247
24.2	Propositions Relating to Systematic Risks	250
24.2.1	Required Disclosure of Term Structures of Assets and Liabilities in Foreign Currencies	251

24.2.2	Dynamic capital adequacy requirements	251
24.2.3	Preserving diversity	254
24.3	Propositions Relating to Systemic Risks	255
24.3.1	Establish controls for cross-industry transactions and exposure netting	256
24.3.2	Simulations involving multiple sectors and regulators	257
	Index	259
