PART I Overview of Financial Derivatives	1
1 Derivative Instruments: Forwards, Futures, Options, Swaps, and Structured Products	3
<i>G. D. Koppenhaver</i>	
Introduction	3
A Generalist's Approach to Derivative Contracts	6
<i>Forward Contracts</i>	7
<i>Futures Contracts</i>	9
<i>Swap Contracts</i>	11
<i>Option Contracts</i>	13
Structured Products and an Application to Derivative Contracts	16
Conclusion	19
Endnotes	19
References	20
About the Author	20
2 The Derivatives Marketplace: Exchanges and the Over-the-Counter Market	21
<i>Sharon Brown-Hruska</i>	
Introduction	21
Standardization versus Customized Products: Differences in Structure and Approach	22
Competition and Consolidation: Impetus for Change	25
Moving from Bilateral to Multilateral Risk Management	29
<i>Collateral in Exchange and OTC Markets</i>	29
<i>Netting and Novation in Exchange and OTC Markets</i>	31
Transparency and Information in the Exchange and OTC Marketplaces	36
Conclusion	39
Endnotes	40

References	41
About the Author	42
3 Speculation and Hedging	43
<i>Greg Kuserk</i>	
Hedging Transactions	44
Speculation	48
From Hedging to Speculation	50
Interaction between Hedgers and Speculators	52
Conclusion	54
Endnotes	54
References	54
About the Author	55
4 The Social Functions of Financial Derivatives	57
<i>Christopher L. Culp</i>	
Hedging and Risk Transfer	58
Price Discovery	58
<i>Price Discovery, Commoditization, and Market Structure</i>	59
Intertemporal Resource Allocation	60
<i>Forward Contracts as Synthetic Storage</i>	60
<i>Commodity Interest Rates</i>	60
Asset Finance	61
<i>Commodities Lending</i>	62
<i>Project Finance</i>	63
<i>Trade Finance</i>	64
<i>Financial Asset Inventory Management</i>	65
Synthetic Asset Allocation	65
<i>Derivatives and Public Policy</i>	66
Endnotes	67
Further Reading	68
References	69
About the Author	71
PART II Types of Financial Derivatives	73
5 Agricultural and Metallurgical Derivatives: Pricing	77
<i>Joan C. Junkus</i>	
Introduction	77
Commodities	77
Seasonality in Spot and Futures Prices	78
Futures Pricing	79
<i>Theory of Storage</i>	80
<i>Theory of Normal Backwardation</i>	84

CONTENTS

ix

Conclusion	85
References	86
Suggested Further Reading	86
About the Author	87

**6 Agricultural and Metallurgical Derivatives:
Speculation and Hedging 89**

Joan C. Junkus

Introduction	89
Commodities	89
Derivatives	90
Commodity Investment Strategies	90
<i>Commodity Indexes</i>	90
<i>Diversification and Inflation</i>	91
<i>Passive Investment Strategies</i>	91
<i>Active Strategies</i>	94
<i>Measuring Investment Performance</i>	94
Hedging	95
<i>Commodity Marketing</i>	95
<i>Risk Management</i>	97
Spreads	99
Conclusion	100

Suggested Further Reading	101
About the Author	101

7 Equity Derivatives 103

Jeffrey H. Harris and L. Nick Swartz

Introduction	103
Stock Options	104
<i>Call Options</i>	105
<i>Put Options</i>	106
<i>Stock Options on an Index</i>	106
<i>Employee Stock Options</i>	107
<i>Convertible Bonds</i>	107
<i>Warrants</i>	108
Equity Futures	108
<i>Single-Stock Futures</i>	108
<i>Futures on Stock Indexes</i>	109
Equity Swaps	110
Future of Equity Derivatives	111
References	112
Further Reading	112
About the Authors	113

8 Foreign Exchange Derivatives	115
<i>Robert W. Kolb</i>	
Basic Pricing Principles	115
<i>Purchasing Power Parity Theorem</i>	115
<i>Interest Rate Parity Theorem</i>	116
Foreign Exchange Forward and Futures Contracts	117
Foreign Exchange Options	118
FX Option Pricing	119
Plain Vanilla Foreign Exchange Swaps	119
Flavored Currency Swaps	121
Conclusion	122
Endnotes	123
References	123
About the Author	123
9 Energy Derivatives	125
<i>Craig Pirrong</i>	
Introduction	125
Products: An Overview	125
History	126
Petroleum Derivatives: Details	127
Natural Gas Derivatives: Details	128
Electricity Derivatives: Details	129
Pricing	129
Clearing	131
Recent Developments	132
