CHAPTER 1	Introduction to Opportunity Discovery, Valuation, and Dealmaking	1
	Introduction: <i>Technology D-V-D</i>	1
	Taxonomy of Technology Licensing	5
	High Significance, High Ambiguity Contexts	7
	Licensing D-V-D and Innovation	12
	Going Forward	23
	Notes	23
CHAPTER 2	Risk and Reward	27
	Uncertainty	27
	<i>Phronesis</i> (Judgment)	31
	Technology Uncertainty	32
	More on Risk	35
	Value and Price	45
	Two Final Points on Buying and Selling	48
	Notes	49
APPROACH I	OPPORTUNITY DISCOVERY	51
CHAPTER 3	Identifying and Prioritizing Technology Opportunities	53
	Seller “Opportunity Space”	53
	The Technology Box	63
	Buy-Side Expressions of Value: The Wheelbarrow	69
	Overview of Valuation Methods	71
	The Six Valuation Methods	77
	Conclusion	81
	Notes	82
		iii

iv	Contents
APPROACH II VALUATION	85
CHAPTER 4 Method 1: Use of Industry Standards for Valuation	87
The Concept and Limitations of “Industry Standards”	87
Sources of Industry Standard Data and Information	97
Survey Results as a Source of Industry Standards Data and Information	98
Proposed or Established Norms	105
Shopped Term Sheets and Price Lists	107
News Sources of License Agreement Information	109
Journals, Proprietary Databases, Reports, and Consultants	118
Published License Agreements as a Source of Industry Standards	119
Court Cases/Judgments as a Source of Industry Standards	123
Patent Pools	126
Lifetime and Organizational Learning	127
Average Error	127
Concluding Observations and Cautionary Notes	129
Appendix 4A: Outline of Agreement between DuPont and University of Houston	131
Notes	134
CHAPTER 5 Method 2: The Rating/Ranking Method, and Tool	139
Ubiquity of Rating/Ranking	141
Overview of How Rating/Ranking Can Be Used in Valuation Groups and Grouping as a Fundamental Knowledge Forming Process	148
Using Rating/Ranking to Value Technology: Factor Assessment	155
Developing Criteria for Using Rating/Ranking for Valuation of Technologies	162
Illustrations of Applying the Rating/Ranking Method	168
Issues in Interpreting Value from a Rating/Ranking Result	171
Using Rating/Ranking to Value Technology: Classified Value	174
Uses of Rating/Ranking with Approaches and as a General Tool	176
Perspectives on Rating/Ranking as an Approach with Licensing	182
Knowledge, Uncertainty, and Humility	185
Conclusion	189
Appendix 5A: Factors in Pricing License	190
Notes	196
CHAPTER 6 Method 3: Rules of Thumb to Determine Valuation	201
Foundations of Rules of Thumb	203
Cost Savings Example of the 25 Percent Rule	205

	Perspectives on the 25 Percent Rule	208
	Use of the 25 Percent Rule for Apportioning New Profits	209
	Examples of Applying the 25 Percent Rule to New Profits	
	Licensing	211
	A Universal Rule of Thumb Chart	222
	Other Percent Rule Values	224
	Some Misuses/Misapplications of the 25 Percent Rule	225
	Other Valuation Rules of Thumb Used (or Have Been Proposed)	226
	Summary Points on the Use of the 25 Percent Rule	229
	Conclusion	231
	Notes	232
CHAPTER 7	Method 4: Discounted Cash Flow Method to Determine Valuation	235
	Overview of the DCF Method	236
	Basic Financial Concepts	247
	Quantification, Classification of Risk	265
	An Example Cash Flow Projection from a License	277
	Additional Considerations for Calculating DCF	289
	Segment and Scenario Analysis	293
	Cash Flow Projections	299
	Other Issues to Be Considered with the DCF Method	318
	Conclusion	330
	Sources of Information to Develop Business Projections	331
	Notes	331
CHAPTER 8	Method 5: Advanced Valuation Methods	337
	Modified Discounted Cash Flow Method	338
	Monte Carlo Method	345
	Real Option Methods	414
	Conclusion	447
	Online Resources	448
	Appendix 8A: Example Crystal Ball Report for Exhibit 8.18	449
	Appendix 8B: Crystal Ball Report Corresponding to the Results Presented in Exhibit 8.XX for a Double-Humped Cost Distribution Assumption	456
	Notes	464
CHAPTER 9	Method 6: Valuation by Auctions	469
	Introduction to Auctions	470
	When Auctions are Feasible	471
	Auction Examples	474
	Auctions as Distinct from Other Types of Dealmaking	479
	Auction Strategies for Buyers	489
	Auction Caution	490
	Conclusion	491

vi	Contents
Appendix 9A: Bidder's Agreement	491
Notes	492
APPROACH III DEALMAKING	495
CHAPTER 10 Approach: Deal Structure	497
Return to the Box and Wheelbarrow	498
Cash <i>When</i> Pricing Structures	502
Cash <i>As</i> Pricing Structures	507
Cash <i>If</i> Pricing Structures	517
Cash <i>Maybe</i> : Options	521
Consideration Forms Beyond Simple Cash	522
Special Form of Cash <i>If</i> : Equity	525
Balancing Simplicity with Comprehensiveness	537
Conclusion	537
Notes	538
CHAPTER 11 People, Process, and Lessons Learned	541
Introduction	541
Deal Team	546
Deal Targets	552
Negotiating Plan	556
Plan B	560
Concluding Advice from Technology Dealmakers	565
Notes	566
CHAPTER 12 In Conclusion	569
Approach of Opportunity Discovery as a Quest	569
Approach of Valuation: A Review of the Six Valuation Methods	572
Approach of Dealmaking	583
Closing Thoughts	592
Website Resources	594
Notes	594
<i>Appendix: List of Abbreviations and Trademarks</i>	597
<i>Bibliography</i>	599
<i>Index</i>	603
