## **Introduction** 1

## **PART ONE** An OD practitioner's guide to OD 7

---

### **01** **What is OD? A brief history** 9

The goals, characteristics and definition of Organization Development 9  
 A brief history of OD 12  
 Critical founders who shaped the OD field 14  
 How the field got its name 16  
 Values that have informed OD practice 19  
 The role of the OD practitioner 21  
 Summary 23

### **02** **A theory overview** 25

What are our practice building blocks? 25  
 The relationships between theory and research 26  
 Five core theoretical bases that shape OD practices 28  
 Methodological/practical implications of the theoretical perspectives 41  
 Summary 46

### **03** **The OD cycle and the entry and contracting phase** 47

Overview of the OD consultancy cycle – six key components 48  
 Phase one: Entry – initial contact 51  
 Phase two: Contracting 57  
 Summary 62

### **04** **The diagnostic phase** 63

What is diagnosis in OD? What are the wider aims for the diagnostic process? 64

- Summary of the tasks and skills required by the diagnostic process 66
- A political consideration in managing the diagnostic phase 67
- An outline of the different kinds of data you may need 70
- Data collection methods and how to ensure that the data collection process achieves your aims 73
- Data analysis – how to join different data together 75
- Data feedback and action planning 77
- Summary 80
  
- 05 The intervention phase 81**
  - Definition of intervention and the key criteria of OD intervention 82
  - Summary of the tasks and skills required in intervention 83
  - Cross-dimensional design of intervention – review of the three ‘cubes of intervention’ frameworks 83
  - Levels and types of interventions 89
  - Summary of cross-dimensional checklist based on concepts from the three cubes, levels and types of intervention 93
  - Building an intervention strategy – construction of criteria for effective intervention design 95
  - Summary 104
  
- 06 The evaluation phase 106**
  - What is evaluation and what are metrics? 107
  - Summary of the tasks and skills required for evaluation 107
  - OD perspectives on evaluation – evaluation in the OD cycle of work 109
  - How to build the culture of evaluation as an integrated part of our OD work 110
  - What does one measure and how? 116
  - The practicalities of estimating return on investment 124
  - Postscript: The value an internal OD department can offer an organization 129
  - Summary 134
  
- 07 The Organization Development practitioner 136**
  - The roles and tasks of OD practitioners 136
  - The concept of ‘self as instrument’ 138
  - The competence profile of the OD practitioner 143

The development journey that OD practitioners should engage in 147

The practice trademarks of OD 151

Summary 159

## **08 Power and politics and Organization Development 160**

What do we mean by power and politics? Why are they relevant for OD practitioners? 162

Two faces of power – the work of McClelland 164

How power dynamics work within the organization – four theorists 165

The application of the use of power in three key OD activities 170

Using personal power more effectively to achieve greater impact 175

Summary 180

## **09 The future of OD 182**

A review of literature on OD's future 183

A proactive strategy to build a future for OD 188

Final questions for you, as you form part of OD's future 193

## **PART TWO HR in relation to OD: Practice examples 195**

---

## **10 HR in relation to OD 197**

Why is it important that HR 'gets' OD? 198

HR's own change journey 201

The expanding HR agenda 204

Which of these activities require an OD frame? 207

How can HR and OD work together? 208

Conclusion 210

## **11 Organizational design 212**

What is organizational design? 213

Challenges for the business 214

The changing field of ODS 216

The Star Model 217

An HR/OD approach to designing organizations 224

**12 Culture change** 234

Defining culture 235

Challenges of culture for the business and HR 237

About culture change 238

HR's role in developing cultures 243

HR's role in integrating cultures 246

HR's role in changing cultures 252

Conclusion and culture change checklist 255

**13 Managing transformational change** 258

A turbulent backdrop 258

Defining transformational change 259

What we know about profound change 260

The people aspects of change 265

What is required of HR in managing change? 266

HR leading from the front 273

Conclusion: HR's role in building change capability 280

**14 Developing effective leadership** 281

Defining leadership 282

Challenges facing leaders 283

Challenges facing HR/OD 283

Growing tomorrow's leaders 284

Leadership implications of the new terrain 286

Conclusion: crafting a leadership development strategy 300

**Postscript** 303

People and organization 303

Create great places to work 304

Consciously develop a change-able culture 304

Encourage learning and experimentation 305

Stimulate people to perform brilliantly 305

Manage change 305

Build healthy and ethical organizations 306

Build effective leadership 306

Act now for a better future 307

Be the change you want to see 307
