<b>Preface</b> .....	<b>ix</b>
About This Toolkit.....	ix
Who Should Use This Toolkit?.....	ix
What Is Included in This Toolkit?.....	ix
System Requirements.....	ix
How to Use This Toolkit.....	ix
Install the Fraud Toolkit Application.....	x
How This Book Is Structured.....	x
Script Code Conventions.....	xi
Flowcharts.....	xi
Modifications/Updates.....	xii
Contacting the Author.....	xii
Acknowledgments.....	xii
<b>Introduction</b> .....	<b>2</b>
Using Data Analysis to Detect Fraud.....	2
Fraud: Risks and Costs.....	2
Why Do People Commit Fraud?.....	2
Why Use Data Analysis Software?.....	3
Identifying Fraud.....	4
Proactive Fraud Investigation.....	5
Benefits of Data Analysis with CAATs.....	6
About Scripts.....	6
What Is a Script?.....	6
Benefits of Scripts.....	6
Preparing Scripts for Use.....	7
Copying Scripts.....	7
Copying Table Layouts.....	7
Working with Scripts.....	8
Launching the Fraud Toolkit Application.....	8
Running the Scripts.....	9
Filtering.....	10

Customizing Scripts.....	11
Customizing: An Example.....	12
Creating Your Own Fraud Application.....	13
Further Reading.....	14

## **Chapter 1: Start and Menu**..... **16**

Launching the Fraud Toolkit Tests.....	16
Starting the Fraud Toolkit Application.....	16
Placement of Start and Fraud Menu Scripts.....	17
How the Scripts Work.....	17
Start.....	17
Fraud Menu.....	18
Log Files.....	18
Exiting a Script.....	20
Working without the Fraud Menu.....	20

## **Chapter 2: Completeness and Integrity**..... **22**

Checking for Blanks and Data Type Mismatches.....	22
Running Completeness and Integrity.....	23
How the Scripts Work.....	24
Carriage Returns.....	24
Understanding the Verify Command.....	24
Understanding the Group Command.....	25
Deleting Temporary Variables, Fields, and Files.....	26
Variables for Complete.....	27
Review and Analysis.....	27
Case Study: General Ledger Accounts Unaccounted For.....	29

## **Chapter 3: Cross-Tabulation**..... **30**

Organizing Your Data to Find Trends.....	30
Running Cross-Tabulation.....	30
Benefits of Cross-Tabulation.....	32

## Contents

---

How the Scripts Work . . . . .	33	<b>Chapter 5: Gaps . . . . .</b>	<b>52</b>
Challenges of Cross-Tabulation . . . . .	34	Identifying Transactions Missing from a Sequence . . . . .	52
X-Axis Labels . . . . .	34	Running Gaps . . . . .	52
Workspaces . . . . .	35	How the Scripts Work . . . . .	53
Deleting Temporary Variables, Fields, and Files . . . . .	36	Deleting Temporary Variables, Fields, and Files . . . . .	54
Variables for Cross_Tabs . . . . .	36	Review and Analysis . . . . .	54
Review and Analysis . . . . .	36	Case Study: Free Calls . . . . .	55
Case Study: Not Enough Clients . . . . .	37		
Case Study: Calling Cards . . . . .	37		
<b>Chapter 4: Duplicates . . . . .</b>	<b>38</b>	<b>Chapter 6: Data Profile . . . . .</b>	<b>56</b>
Finding Higher-Risk Items . . . . .	38	Establishing Normal Values and Investigating Exceptions . . . . .	56
Payroll . . . . .	38	Running Data Profile . . . . .	56
Accounts Payable . . . . .	38	How the Scripts Work . . . . .	57
Running Duplicates . . . . .	38	Flow of Data in Data Profile . . . . .	59
How the Scripts Work . . . . .	40	Data Profile Test Parameters . . . . .	59
The Role of Subscripts . . . . .	40	Deleting Temporary Variables, Fields, and Files . . . . .	61
Case Study: Duplicate Payments . . . . .	42	Review and Analysis . . . . .	62
Dup_Dialog Script . . . . .	43	Statistics . . . . .	62
If Statements . . . . .	43	Stratify . . . . .	63
Dup_Multiple_Keys1 . . . . .	44	Round Amounts, Exact Multiples, and Frequent Values . . . . .	65
Macro Substitution . . . . .	44	Round Amounts: Multiples of 5, 10, 25, or 100 . . . . .	65
KeyChange . . . . .	45	Exact Multiples of . . . . .	66
Define Field . . . . .	46	Frequently Used Values . . . . .	66
LENGTH() and HEX() . . . . .	46	Profiling with Character Fields . . . . .	67
Deleting Temporary Variables, Fields, and Files . . . . .	46	Items with the Most Exact Multiples . . . . .	67
Review and Analysis . . . . .	47	Least/Most Used Items . . . . .	68
Checking for Duplicates . . . . .	47	Case Study: Receipt of Inventory . . . . .	69
Payroll Example . . . . .	48	Case Study: Exact Multiples . . . . .	71
Accounts Payable Example . . . . .	50	Filtering and Drilling Down . . . . .	71
		Filtering before Profiling . . . . .	71
		Filtering after Profiling . . . . .	72

**Chapter 7: Ratio Analysis . . . . . 74**  
 Pinpointing Suspect Transactions and Trends . . . . . 74  
 Running Ratio Analysis . . . . . 74  
 How the Scripts Work . . . . . 78  
 Max/Max2 and Max/Min Ratios . . . . . 78  
 Two Fields: Num\_field1 / Num\_field2 Ratio . . . . . 80  
     Deleting Temporary Variables, Fields, and Files . . . . . 80  
 Review and Analysis . . . . . 81  
 Case Study: Dormant but Not Forgotten . . . . . 84  
 Case Study: Doctored Bills . . . . . 85

**Chapter 8: Benford's Law . . . . . 88**  
 Identifying Anomalous Data . . . . . 88  
 Understanding Benford's Law . . . . . 88  
 Identifying Irregularities . . . . . 88  
 Running Benford Analysis . . . . . 89  
 Running Benford Custom Analysis . . . . . 90  
     Creating the Custom Distribution . . . . . 90  
     Division by Zero . . . . . 91  
     Testing against the Custom Distribution . . . . . 92  
 How the Benford Scripts Work . . . . . 93  
     Standard Benford Analysis . . . . . 93  
     Benford Custom Analysis . . . . . 95  
     Deleting Temporary Variables, Fields, and Files . . . . . 96  
 Review and Analysis . . . . . 96  
 Case Study: Signing Authority . . . . . 98  
 Further Reading . . . . . 98

**Chapter 9: Developing ACL Scripts . . . . . 100**  
 Introduction . . . . . 100  
 Data Analysis: Generic Approach . . . . . 100

ACL Commands . . . . . 102  
     DISPLAY Command . . . . . 102  
     SET Command . . . . . 102  
     DELETE Command . . . . . 103  
     OPEN Command . . . . . 103  
     Commands for Defining Relationships . . . . . 103  
     Basic ACL Commands . . . . . 103  
     IF Command . . . . . 104  
 Variables . . . . . 104  
     User-Defined Variables . . . . . 106  
     Using System and User-Defined Variables . . . . . 106  
 DEFINE Field/Expression . . . . . 106  
 Workspaces . . . . . 107  
     Sharing Workspaces . . . . . 109  
 Scripts . . . . . 109  
     What Is a Script? . . . . . 109  
     Creating Scripts . . . . . 109  
     Commenting Scripts . . . . . 113  
         COMMENT . . . . . 113  
         END . . . . . 113  
     Editing Scripts . . . . . 113  
     Running Scripts . . . . . 114  
 RUN ACL Script from DOS . . . . . 115  
 Saving a Script to a .BAT file . . . . . 115  
 Interactive Scripts . . . . . 117  
 ACCEPT Command . . . . . 117  
 Dialog Boxes . . . . . 118  
 Adding Selections to Drop-Down and Project  
     Item Lists . . . . . 119  
 Macro Substitution . . . . . 120  
 Editing Dialog Boxes . . . . . 120

## Contents

---

Subscripts .....	122
Special Uses for Subscripts .....	122
Repeating a Script .....	123
Error Trapping .....	123
Consolidation Exercise .....	124
Advanced ACL Scripting Techniques .....	125
GROUP Command .....	125
Simple GROUP .....	126
Conditional GROUP .....	126
Nested GROUP .....	128
LOOP and OFFSET() .....	132
Applications Menu .....	135
Building an Application Menu .....	137
Creating Submenus .....	137

<b>Chapter 10: Utility Scripts .....</b>	<b>138</b>
Auto_Execute .....	138
Extract_Values .....	139
Ending Balance Verification .....	140
Running_Total .....	142
Maximum and Minimum Values .....	143
<b>Appendix: ACL Installation Process .....</b>	<b>145</b>
<b>Glossary .....</b>	<b>149</b>
<b>Index .....</b>	<b>155</b>
