

Index

Note: Page numbers appearing in bold refer to figures and page numbers appearing in italic refer to tables.

- Acceleration
 - level, 36–38, **251**, **276**
 - sensor, 6, 7, **65**, 78, **79**, 82, 93, 102, 113, 123, **124**, 150, 173
 - signal, 15, **16**, 92, 123, **266**, **278**
 - value, 115
- Accelerometer, 131–132, 227, **259**, **266**
- Air-borne noise, 43
- Allowable number of cycles, 104, 284
- ANPSD, 90, 113, 115–116, 119, **120**, 182–183, **246**, **268**, 287
- Arbitrary general loading, 205
- Axle-sensitive, 36

- Ballast-less, 36, 43, 45
- Beam theory, 26, **191**, 192, **193**, 194
- Bending stiffness
 - cable, 190, **191**, **193**, 194
 - determination, 26, 146, 150, 197
 - oscillation, 150
 - related, 150, 197, 286
- Booted sleepers, 41, **42**
- BRIMOS[®], 8, 47, 48, 78, 89–90, **91**, 92, 94, 112, 113, 122, 159, 168, **259**, 287
- BRIMOS[®] Recorder, 18, 29, 31, **33**, 34, 78, 90, 160, 285

- Cable
 - boundary condition, 35, 40, 66, 85, 93, 114, 173, 176, 188, 192, 193
 - vibration, 28, 152, 153
- Cable-stayed bridges, 15, 20, 29, 90, 94, 152, 248, 258, 272, 275, 279
- Cable theory, 25, 191, 192, 194
- Calibration truck crossings, 100
- Coarse mesh, 101, 102
- Component transfer functions, 217, 219
- Convolution integral, 207, 209
- Crack growth approach, 108
- Crack-initiation, 108
- Cross-sectional behaviour, 98, 253

- Damage accumulation, 104, 106, 255
- Damage detection, 89, 129, 134, 149, 154, 155, 157, 174, 217, 222, 254
- Damage matrix, 104, 105, 107
- Damage per year effect, 105
- Damping
 - coefficients, 11, 185, 286
 - value, 7, 11, 18, 19, 24, **68**, 153, 161, 213, **251**
- Differential equation, 174, 178, 179, 180, 181, 188, 201, 204, 205, 212, 223

- Dirichlet's conditions, 201, 202
 Discrete Fourier transformation, *see*
 Fourier discrete transformation
 Ductility, 108
 Duhamel integral, 178, 207, 209
 Dynamic impact, 36, 37, 39
- Effective cable force, *see* Cable force
 Eigenfrequency, 9, 10, 11, 15, 18, 26, 28,
 50, **58**, 80, 81, 82, 111, 112, 135, 146,
 147, 150, 153, 160, 168, 169, 183, 185,
 190, 197, 198, 257, 274, 286
 Eigenvalue, 135, 180, 213, 214, 286
 Excitation
 ambient, 78, 113, 130, 149, 173, 183, 223
 forced, 178
 parametric, 27, 28
- Fast Fourier transformation, *see* Fourier
 fast transformation
 Fatigue life assessment, 97
 Fatigue Relevance FR, 107, 284, 287
 Floating track slab, 43, 46, **48**, 49
 Fourier
 coefficients, 182, 199
 discrete transformation, 118, 182, 203,
 205, 287
 fast transformation, 48, 182, 203, 287
 integrals, 199, 201, 202, 208
 inverse transformation, 203, 212
 series, 182, 199, 200, 201, **202**
 transformation, 181, 199, 203
 transformed function, 203
 Free-vibration response, 207, 209
 Frequency domain, 100, 129, 169, 181,
 183, 208, 209, 211, 223, 226, 268,
 285, 286
- Global behaviour, 61, 98, 253, 280
 Ground-borne noise, 39, 40, 46
- High Cycle Fatigue, 104, 108
 Hot spot areas, 102
- IMAC, 26, 151, 156, 158, 190, 197
 Image function, 204
 Image space, 204
 Impedance, 41, 211, 284
 Impulse, 178, 206, 207, 209, 283, 286
 Inherent force, *see* Cable force
 Insertion loss, 40, **46**, 47, **48**
- Inverse Fourier transformation, *see*
 Fourier inverse transformation
 Inverse transformation, 204, 205
- Laplace transform, 213, 214, 219, 287
 Laplace transformation, 204, 205, 212
 Local systems, 51, 98, 253
 Lognormal Distribution, 107
- Mass-spring system (MSS), 43, **44**, 46, **47**,
 48, 92, 94, 287
 Material memory, 98
 MDOF, 176, 179, 180, 181, 208, 209, 213,
 214, 219, 287
 Meshing procedure, 102
 Mode shape, 7, 8, 9, 10, 18, 26, 30, 47, 78,
 81, 82, 86, 90, 112, 113, 115, 118, 120,
 121, 129, 130, 132, 133, 135, 136, 140,
 141, 144, 145, 146, 149, 153, 159, 164,
 165, 166, 167, 168, 174, 176, 178, 180,
 181, 182, 183, **184**, 185, 190, 209, 223,
 227, 232, **251**, **261**, **262**, **269**, **270**, **271**,
 278, 283, 286
 Modified Miner Rule, 104
- Natural frequency, *see* Eigenfrequency
 Noise and vibration, 39, 40, 43, 44, 47
 Nominal stress, 101, 102, 103
 Normal Distribution, 107
 Notch class, 103, 104
- Partial damage, 104, 283
 Periodic functions, 199, 201
 Permanent way, 36
 Principal stress range, 103
 Probability of failure, 107
- Rail pad, 42, **43**
 Railway, 3, 7, 12, 21, 31, 35, 36, 39, 40, 44,
 46, 58, **60**, 90, 92, 112, 130
 Rainflow algorithm, 98
 Rainflow matrix, **100**, 104, 105
 Randomly induced traffic loading, 97
 Redundancy, 108, 159, 227
 Refinement, 102
 Remaining operational lifetime, 21, 97
 Residual stress, 101, 103, 104
- Scruton number, 285
 SDOF, 176, 178, 179, 180, 181, 207, 208,
 212, 213, 214, **215**, **217**, **218**, 287

- Sensor
 - instrumentation, 252, 265, 279
- Serviceability limit states, 107, 158
- Sleepers, 36, 37, **38**, 39, 41, **42**, **44**, 45, 46, 284, 286, 287
- Stay cables, *see* Cables
- Stress life approach, 101, 104, 108
- Structural response, 112, 150, 167, 174, 176, 208, 214, 217, 221
- Structural stress, 7, 12, 13, 15, 16, 17, 34, 35, 57, 93, 101, 108, 114, 123, 126, 174, 176, 178, 185, 250, 263
- Structure's overall capacity, 98, 253
- Sub-ballast mats, 41, **42**, 46

- Tendon
 - external, 16, 30, 35, 149, 192, 197
 - force, 15, 151, 197
 - internal, 57
- Tensile force, *see* Cable force

- Time domain, 13, 100, 129, 149, 170, 181, 188, 203, **206**, 209, 210, 215, **216**, 223, 226, 267, 268, 286
- Time history response, 206
- Total damage, 104
- Track, 35, 36, 37, **38**, 39, 41, **42**, **43**, **44**, **45**, **46**, **48**, 49, 272, 275
- Transfer functions, 173, 174, 199, 205, 208, 209, 210, 211, 212, 214, 215, **217**, **218**, 219, 221, 284

- Under sleeper pads, 41, **42**, 45, 46

- Vibration analysis, 53, 81, 205, 235

- Weibull Distribution, 107
- Weld toe, 101, 102, 103
- Wöhler Curves, 255

- Z-transformation, 199, 204, 205
