Preface vii

Acknowledgments xi

Part I: Podcasting: Where It Came From and Where It's Going 25

Quick Start: Getting Started with Podcasting 1

- The Podcasting Process2
- Before You Start2
- Finding and Subscribing to Your First Podcast3
- Recording Your First Podcast4
- Editing and Encoding Your Podcast10
- Putting Your Podcast Online.....15
- Summary23

Chapter 1: Stars Being Born Every Day 27

- What Is Podcasting?27
- Why Podcasting Is Different30
- A Podcast for Every Listener.....31
- Summary35

Chapter 2: Podcasting's Meteoric Trajectory 37

- Digital Audio Grows Out37
 - It came from planet RSS39
 - The last yard, via USB.....40
 - What podcasting is not.....41
- Transition State: From Curiosity to Phenomenon42
- Today, Tomorrow, and Beyond44
- Summary45

Chapter 3: Exploring the World of Podcasting 47

- The Basics of Listening47
- Choosing Your Podcatcher49
- Downloading and Installing a Windows Podcatcher.....50
- Downloading and Installing a Macintosh Podcatcher57
- Subscribing to Your First Podcast in Juice58
- Subscribing to Your First Podcast in iTunes62

Portable and CD Playback	63
Where to Find Podcasts	63
Searching Podcasts	64
Summary	65

Part II: Podcasting Production **67**

Chapter 4: Defining Your Podcast. **69**

It's All About Your Passion — No, It's Not	70
Making your choices.....	70
Why, why, why?	72
Is there anybody out there?.....	75
Addressing your audience.....	79
Formats: The shape of your podcast	80
Growing a Long, Long Tail	83
Summary	88

Chapter 5: Audio Production Tools **89**

Using Basic Production Tools	89
Microphones	90
Pickup patterns.....	90
Dynamic versus condenser mics	91
Other types of microphones	94
Mixing Desks	99
Monitoring (headphones and speakers)	100
Signal processors	103
Equalization (EQ) units	104
Compressor	104
Effects units	104
Audio interfaces	104
Soundcards.....	104
External audio interfaces.....	105
Recording devices.....	106
Audio-editing software	108
Additional tools	109
Cables.....	109
Pop screens.....	111
Mic stands, clips, suspension mounts	111
Using Telephone Tools	111
Skype	112
Gizmo	113
Understanding the Recording Environment	113
Sound treatment.....	114
Studio layouts.....	115
Single operator	115
Talent + engineer	116

Equipping a Studio on Any Budget	116
Cheapskate (\$0)	116
Novice (<\$250)	117
Enthusiast (~\$600)	117
Professional (\$1,000 +)	117
Summary	119
Chapter 6: Basic Audio Production	121
Setting Up Your Equipment	122
Setting your levels	122
Dynamic range	122
Using meters to monitor levels	123
Setting levels.....	124
Setting up a gain structure: A step-by-step example	125
Understanding digital audio	127
Bit depth and sampling rates.....	130
Choosing your digitization settings.....	130
Microphone Technique.....	131
Handheld mics	132
Clip-on mics.....	132
Studio mics	133
Recording.....	133
Sound check.....	134
The countdown	134
Intros and outros	135
Doing “drop-ins” and “pick-ups”	135
Editing	137
Editing for convenience	137
Editing for flow	137
Editing for content	138
Editing for quality	138
Editing how-to’s	138
Archiving Your Masters	139
Summary	140
Chapter 7: Advanced Audio Production.	141
What Signal Processing Is.....	141
EQ (Equalization).....	142
How to use EQ.....	142
Finding the right frequencies	143
Using a graphic equalizer	145
Using a parametric equalizer.....	146
EQ: A step-by-step example	147
Advanced EQ techniques	149
Clearing up noise	151
Pops	152
Dealing with sibilants	153

Contents

Compression	153
Why use compression?	153
How compression works	154
Setting a threshold	155
Setting a ratio	157
Setting attack and release times.....	158
Compression: A step-by-step example	158
Stacking compression	159
Multi-band compression.....	160
Other Audio Processing Tricks	162
Normalization	162
Gating to remove background noise	163
Noise Reduction	164
When to Do Signal Processing	165
Multi-track Audio Production	165
Things to consider	166
Multi-track templates	167
Using Podcast-specific Software	167
Podcast Station	167
Castblaster	169
WebPod Studio.....	170
Summary	171
Chapter 8: Video Production Tools	173
Choosing the Appropriate Equipment	174
Cameras	174
Video formats	174
What to look for in a camera	175
Tripods	176
Lights	176
Video mixers	178
Monitoring	179
Video interfaces/capture cards	179
Video-editing software	180
Accessories	180
Thinking about Your Video Environment	181
Power	182
Ventilation	182
Light.....	182
Shooting Video Outdoors.....	182
Summary	183

Chapter 9: Basic Video Production Techniques	185
Light	186
Color	186
Using lights	186
Three-point lighting	187
Using reflectors (bounce boards).....	189
Shooting outdoors	190
Camera Techniques	191
Shot composition	191
Use a tripod	192
Focus	193
White balancing and exposure	193
White balancing: A step-by-step example	193
White-balancing tricks	194
Exposure	194
Easy on the pans, tilts, and zooming.....	195
Recording.....	195
Intros and Outros	195
B-roll	196
Room tone	196
Digitizing	197
How video works	197
Digital video	198
FireWire	200
FireWire settings.....	201
Transferring files via FireWire using iMovie: A step-by-step example	201
Video capture cards	203
Video capture card settings	203
Digitizing via a capture card using SwiftCap: A step-by-step example	203
Editing	207
Keep edits short and sharp	207
Cutaways	208
Archiving	209
Summary	210
Chapter 10: Advanced Video Production Techniques	211
Understanding Lens Filters.....	211
Diffusion	212
Color correction	212
Polarization	213
Display Technology Differences	213
Interlaced versus progressive displays.....	213
Color spaces	214

Contents

Video Signal Processing	215
Using de-interlacing filters	215
Where to find de-interlacing filters	216
Color correction	218
Color correcting	219
Color correction in iMovie	220
Color correction in Sorenson Squeeze	221
Color correction in Vegas	221
Cropping and Resizing	222
Aspect ratios	223
Cropping	223
Resizing	224
Inserting Virtual Backgrounds Using Chroma Key	225
Adding Titles	226
Summary	228

Part III: Encoding **229**

Chapter 11: Encoding: An Overview **231**

Why Encoding Is Necessary	231
Bandwidth	232
Throughput	234
Quality equivalents	235
Codecs Overview	236
How codecs work	237
How perceptual codecs work	237
How audio codecs work	238
How video codecs work	239
Codec side effects	241
Audio Codecs	242
Music-optimized codecs	242
Speech-optimized codecs	243
Video Codecs	243
File Formats	244
Summary	244

Chapter 12: Encoding Tools **247**

MP3 Encoding Tools	248
Other Encoding Formats	248
Making Format Choices	250
Encoding Via Your Editing Platform	252
Audio	252
Video	252
Multi-format encoding	253
Summary	255

Chapter 13: Basic Encoding Techniques	257
Audio Encoding	258
Mono versus stereo	258
Speech versus music	258
Bit rates, sample rates, and quality equivalents	259
Video Encoding	259
Screen resolution	260
Frame rate	260
Bit rate	261
Audio bit rate	262
Step-by-Step Encoding Examples	263
Encoding MP3 audio using iTunes	263
Setting MP3 encoding defaults	263
Importing and Encoding	264
Exporting MP3 audio from Audacity	264
Encoding H.264 video using QuickTime Pro	265
Using the iPod preset	265
Encoding using custom H.264 settings	266
Using Windows Media Encoder	270
Using the encoding wizard	271
Using the properties window	275
Exporting video from Sony Vegas	280
Encoding multiple versions using Sorenson Squeeze	286
Summary	289
Chapter 14: Advanced Encoding and Authoring Techniques	291
Advanced Encoding Techniques	291
Using video filters	292
De-interlacing	292
Inverse telecine	292
Noise reduction	293
Two-pass encoding	294
Constant versus variable bit rate encoding	294
Adding a Logo to an MP3 Podcast	295
Enhanced Podcasts	296
Enhanced QuickTime podcasts	297
Creating the chapters text file	298
Creating the enhanced podcast using Chapter Tool	299
Creating an enhanced QuickTime podcast by hand	300
Enhanced podcast authoring tools	302
Enhanced Windows Media podcasts	302
Using Windows Media File Editor	304
Summary	308

Part IV: Distribution—Making Your Podcast Available to Your Audience

309

Chapter 15: Distribution: An Overview 311

- How Podcast Distribution Works311
- RSS: Podcasting’s Secret Sauce314
- How RSS Works314
- Podcast Aggregators and Podcatchers316
- Podcast Media File Distributors317
- Summary318

Chapter 16: RSS (Really Simple Syndication) 319

- RSS = Really Simple Syndication319
- The short history of RSS320
- How RSS works320
- The contents of an RSS file321
 - Optional RSS tags323
 - Apple RSS tags323
- Creating RSS Feeds.....325
 - Text and XML editors327
 - Dedicated RSS feed authoring tools329
 - Generating an RSS feed with FeedForAll330
- Handy RSS Tools340
 - Feed validators340
 - Feedburner342
- Summary343

Chapter 17: Finding a Home for Your Podcast 345

- What Are the Options?.....345
 - Managing your own Web site346
 - Using a managed hosting service347
 - Using a dedicated podcast hosting service348
 - What solution is best for you?349
- Registering Your Domain349
- Is It a Blog or . . . ?350
- Retaining Ownership351
- Dedicated Podcast Hosting Services352
 - PodOMatic352
 - Liberated Syndication (Libsyn)353
 - Radio Userland354
 - Blogging services with podcasting support356
- Using Feed Icons to Publicize Your Feed356
- Providing Playback Capability on Your Site358
 - Linking to a pop-up player358
 - Authoring metafeiles359

Using an embedded player	360
Embedding the QuickTime player	361
Embedding the Flash player	361
Embedding RealPlayer	362
Embedding Windows Media Player	364
Summary	365
Chapter 18: Distributing Your Media File	367
Understanding Distribution	367
Using Your Web Server	368
Using a Podcast Hosting Service	369
Using a Content Distribution Network	371
The CDN marketplace	371
CDN pricing	371
Using Peer-to-Peer Distribution	373
How P2P works	374
Is P2P for you?	375
Summary	375
Part V: The Business of Podcasting	377
Chapter 19: The Basics of Podcasting Business	379
Understanding Costs Before Profits	379
The realities of hosting	382
Picking your plan	386
Knowing the Rest of the Essentials	389
Advertising costs money, too	390
One more thing to count	391
Summary	392
Chapter 20: The Subscription Business	393
If They Subscribe, You Must Serve Them	394
Does this mean my podcast is closed to the public?	395
Unauthorized copies: The sky's the limit	396
Controlling Access to Your Podcast	397
Secure Pages	398
Password-controlled podcasting	401
Commercial/hosted-service option	402
Subscriptions Ins and Outs	404
Free-to-Fee, the Conversion Path	405
Summary	406
Chapter 21: Making Advertising Work	407
What Is Advertising in Podcasting?	408
CPM versus CPA: Choosing Your Basic Unit	409
Counting Ears	411

Contents

Finding Your Allies in Ad Sales	416
Ad sales networks	417
Content networks	418
The Short Guide to Ad Sales Kits	419
Summary	422
Chapter 22: Alternative Business Models	423
Growing Your Podcasting Business	424
Knowing Your Audience	425
The Alternative Business Models	428
Sponsorship	429
Direct and retail sales	431
Reselling	434
Donations	434
Utility model	437
Community model	437
Being an infomediary	438
Vertical podcasting	438
Summary	439
Chapter 23: Rights and Responsibilities: Licensing Music and Managing Your Liabilities	441
Copyright Is Built In	442
Making Fair Use Feasible and Machine Readable	443
Configuring Your Creative Commons License	444
Licensing Music if You Must	447
Choosing music licenses	449
Understanding mechanical rights and label fees	451
How much did that music cost?	452
Saving on Tunes	452
Staying Out of Lawsuits: Know Your Defamation Law	454
The truth is your ally	455
Know the rules of attribution, and keep good notes	456
Summary	457
Chapter 24: Corporate and Institutional Podcasting	459
Podcasting as a Customer Relationship Channel	460
Corporate Podcasting and Training	462
Secure pages	463
Password-controlled podcasting	463
Supporting your corporate podcast deployment	465
PDAs	466
Phones	468
Knowing the Regulatory Issues	469
Educational Podcasting: How Much Is a Lecture Worth?	470
Summary	472

Chapter 25: Promoting Your Podcast	473
Promotion as Process	473
Cultivating Your Community	475
Knowing the Value of a Subscriber	476
Where to promote your podcast	483
Submitting your podcast to iTunes	487
Summary	490
Part VI: Case Studies	493
<hr/>	
Chapter 26: Podcasting from Home: The Dawn and Drew Show	495
How It Started	495
Programming and Production	497
Encoding and Distribution	498
Turning a Hobby into a Network	499
Future Plans	499
Summary	500
Chapter 27: Channel 9: Humanizing the World’s Largest Software Company	501
Channel 9: At the Birth of Video Podcasting	502
Helping “Fly the Plane”	503
Podcast Production at Channel 9	504
Channel 9 Distribution	505
Getting Results	506
The Future of Podcasting at Microsoft	506
Summary	507
Chapter 28: A Museum’s Experience: The Ontario Science Centre	509
How It Started	510
Programming and Production	511
Encoding and Distribution	512
Gauging Success	514
Summary	514
Appendix A: Podcasting Resources	517
Index	527
