<i>Introduction</i>	1
About This Book	1
Where to Start	2
Read These Parts	2
Don't Read These Parts	2
How This Book Is Organized	3
Part I: Getting Ready to Upgrade	3
Part II: Making Your Computer Work Better	3
Part III: Teaching an Old Computer New Tricks	3
Part IV: Communications	4
Part V: Introducing Parts to Windows	4
Part VI: The Part of Tens	4
Icons Used in This Book	4
Where to Go from Here	5
<i>Part I: Getting Ready to Upgrade</i>	7
Chapter 1: Start Here First	9
Determining When to Upgrade	10
Determining When You Shouldn't Upgrade	11
Upgrade Do's and Don'ts	11
Do upgrade one thing at a time	12
Do make a restore point before every upgrade	12
Do watch out for static electricity	12
Do hang on to your old boxes, manuals, warranties, and receipts	13
Don't force parts together	13
Don't bend cards	13
Don't rush yourself	14
Don't open up monitors or power supplies	14
Do Your Prep Work	14
Turn on Windows Update	15
Making sure System Restore is working	17
Identifying your Windows version, CPU, and amount of memory	20
Identifying parts inside your computer	21
Chapter 2: Assembling Your Tools	23
The First Tools to Grab	23
Turning Household Items into Tools	24
Magnetized Screwdrivers and Dust Blowers	25
Monitoring Your Computer's Power Draw	25
Dealing with a Lost Manual	26

Part II: Making Your Computer Work Better 27**Chapter 3: Keyboards, Mice, Game Controllers, and Monitors 29**

Updating Your Keyboard.....	29
Buying a keyboard that's compatible with your computer.....	30
Deciding what features are worth your money	30
Making Way for a New Mouse.....	32
Buying a mouse that's compatible with your computer	33
Deciding what features are worth your money	33
Upgrading Game Controllers.....	34
Replacing a Monitor	35
Buying a monitor that's compatible with your PC	36
Deciding what features are worth your money	36
Installing a Keyboard	38
Installing or Replacing a Mouse.....	40
Installing or Replacing a Game Controller.....	42
Connecting a Monitor to a PC or Laptop.....	43
Connecting a TV to a PC or Laptop.....	45
Attaching a Second Monitor to a PC or Laptop.....	48
Adjusting Your Monitor's Settings	50

Chapter 4: Printers and Scanners 51

Updating Your Printer.....	51
Fixing Common Printer Problems	54
Updating Your Scanner.....	55
Installing or Replacing a Printer's Ink Cartridge.....	58
Installing a Printer	59
Keeping Words from Running off the Page	61
Installing a Scanner	63
Scanning with Windows 7 Software	65

Chapter 5: Adding More Memory 67

Deciphering Memory Advertisements and Packaging.....	67
Buying the Memory Your Computer Needs	69
Installing Memory in Your Computer or Laptop	70
Diagnosing Failing Memory	72

Chapter 6: Adding or Replacing a Hard Drive 73

Upgrading a Hard Drive	74
Buying a compatible drive.....	74
Deciding what features are worth your money	75
Choosing how to add more storage space	76
Installing a Portable Hard Drive	77
Backing Up Your Windows Drive with a System Image.....	79
Identifying Your PC's Drive Type	81
Upgrading or Replacing Your Windows Drive	83
Reinstalling Windows from a System Image	85
Adding a Second Internal Drive	88
Partitioning and Formatting a Second Internal Drive	90

Defragmenting a Hard Drive.....	93
Checking for Disk Errors.....	95
Extending a Partition to Fill a Drive	97
Setting an IDE Drive's Jumpers.....	99
Chapter 7: Adding a DVD Drive	101
Choosing a Compatible DVD Drive.....	101
Identifying Your Computer's CD/DVD Drive Type	103
Installing an External CD/DVD Drive.....	105
Installing an Internal CD/DVD Drive.....	106
Chapter 8: Fine-Tuning Your Computer's Sound	109
Choosing a Compatible Sound Card	109
Installing a Sound Card.....	111
Plugging the Right Sound Cable into the Right Jack	114
Installing a Sound Box.....	115
Connecting Your PC's Sound to Your Home Stereo.....	116
Routing Sound Through an HDMI Cable.....	118
Chapter 9: Beefing Up Your Computer's Video Card	119
Buying the Right Video Card.....	119
Finding a compatible video slot.....	120
Finding a compatible video port.....	121
Deciding what features are worth your money	124
Installing a Video Card.....	125
Chapter 10: Replacing the Power Supply or Laptop Battery	129
Choosing a Compatible Power Supply.....	129
Deciding How Much to Spend.....	130
Setting Up an Uninterruptible Power Supply.....	131
Replacing Your Desktop PC's Power Supply.....	132
Replacing the Battery on Your Netbook or Laptop	136
Part III: Teaching an Old Computer New Tricks	139
Chapter 11: Creating a Home Theater with Windows 7's Media Center	141
Buying a TV Tuner.....	141
Identifying the Cables and Connectors on Your Computer's Television Tuner and Your TV.....	143
Installing a USB TV Tuner.....	146
Finding Your PC's PCI-Express 1x and PCI Slots.....	148
Installing an Internal TV Tuner.....	149
Connecting Your TV Signal to Your Computer.....	151
Connecting Your Computer's High-Quality Sound to Your Home Theater.....	153
Chapter 12: Upgrading a Computer for Editing Movies	155
Transferring Movies and Photos from a Camera or Camcorder to a Computer.....	156
Upgrading a Computer for Video Editing.....	158

Chapter 13: Repurposing an Old Computer	161
Adding a Second Monitor to Your New Computer.....	162
Creating a Portable Hard Drive from Your Old Hard Drive.....	163
Removing the Old Hard Drive and Adding It to Your Main Computer	166
Turning Your Old Computer into a Backup Unit.....	167
Cleansing Your Old Computer's Personal Information Before Passing It On	168
 Part IV: Communications	 171
Chapter 14: Adding or Replacing a Modem	173
Choosing a Compatible Modem.....	174
Dialup or POTS (Plain Old Telephone Service).....	174
Cable modems	174
DSL (Digital Subscriber Line)	175
Installing an External Dialup Modem	176
Installing an Internal Dialup Modem	178
Helping Windows 7 Set Up a Dialup Modem	181
Installing a Broadband (Cable or DSL) Modem	183
Chapter 15: Linking Computers with a Network	185
Choosing the Right Networking Equipment	185
Buying the Right Parts for Your Network	187
Installing Wired or Wireless Network Adapters	188
Connecting Your Router to Your Wired Computers and Modem	190
Setting Up a Wireless Router	192
Setting Up Windows 7 Computers to Connect to a Wireless Network	193
Connecting to and Sharing Files with Older Computers on Your Network	196
Chapter 16: Filtering Out Evil with Firewalls	199
Turning On (or Off) Windows 7 Firewall	200
Allowing or Stopping a Program from Poking Through Windows 7 Firewall.....	203
Manually Changing Windows 7 Firewall Settings	204
 Part V: Introducing Parts to Windows	 207
Chapter 17: Hiring the Right Driver for Windows	209
Choosing a Compatible Driver	210
Discovering Whether You're Running a 32-Bit or 64-Bit Version of Windows.....	212
Automatically Installing a New Driver	213
Running a Driver's Installation Program	214
Installing Drivers That Refuse to Install	216
Finding a New Driver.....	219
Updating an Old Driver	222
Rolling Back to an Earlier Driver	224

Chapter 18: Installing or Upgrading to Windows 7	227
Understanding Windows 7's Hardware Requirements	227
Choosing between 32-Bit and 64-Bit Windows 7	228
Running Windows 7's Upgrade Advisor	229
Upgrading from Windows Vista to Windows 7	233
Installing Windows 7 over Windows XP or onto an Empty Hard Drive	237
Upgrading to a Better Version of Windows 7 on a Netbook	243
Chapter 19: Troubleshooting and Fixing Windows 7	247
Installing and Running Microsoft Security Essentials Antivirus Software	248
Running Older Programs Well in Windows 7	251
Installing Windows XP Mode to Run Incompatible Windows XP Programs	255
Freeing up Disk Space with Disk Cleanup	259
Making a Windows 7 System Repair Disc	261
Troubleshooting Problems and Boosting Your Computer's Performance	262
Chapter 20: Moving from the Old Computer to the New Computer	265
Choosing How to Transfer Your Files	265
Picking and Choosing the Files, Folders, and Accounts to Transfer	266
Collecting the Files from Your Old Windows XP Computer	268
Placing the Files and Settings on Your New Windows 7 Computer	272
Part VI: The Part of Tens	277
Chapter 21: Ten Ways to Find Help Online	279
Finding Help through Search Engines	279
Searching Google for specific information	279
Mastering the art of pinpoint Google searching	281
Searching within a specific Web site	282
Checking the Manufacturer's Support Web Site	282
Microsoft's Support site	283
Serial number and service tag Web sites	284
Manufacturer's Web sites in other countries	284
Community Support Web Sites	285
Tom's Hardware Guide	285
Wikipedia	285
Acronym Finder	285
NewEgg	286
Amazon	286
Chapter 22: Ten Cheap Fixes to Try First	287
Plug It In	287
Turn Off the Part, Wait 30 Seconds, and Turn It On	287
Install a New Driver	288
Google the Error Message	288
Find and Remove Malware	289

Avoid Viruses by Not Opening Unexpected Attachments	289
Run System Restore	290
Check for Overheating	290
Install a New Power Supply	291
Run Check Disk	291

Appendix: The Rathbone Reference of Fine Ports..... 293

USB (Universal Serial Bus)	294
FireWire (Also IEEE 1394 or Sony i.LINK)	295
E-SATA.....	296
HDMI.....	296
Standard VGA Video Port	297
Flat-Panel LCD Video Port (DVI)	297
Ethernet (RJ-45)	298
Telephone (RJ-11).....	298
Stereo Sound	299
Coaxial Cable.....	300
RCA (Composite)	300
Optical/Toslink	301
The Legacy Devices.....	301
PS/2 mouse and keyboard	301
Serial connectors	302
Parallel (printer) connectors	302

Index..... 303
