Foreword	xiii
About the Author	xv
Acknowledgements	xvii
Introduction	xix
PART I INVESTORS AND RISK	1
1 Basic Principles	3
1.1 Investors	3
1.2 Inflation	3
1.3 Choices for Investors in Terms of Investments	5
2 Measures of Risk	7
2.1 Volatility or Standard Deviation	7
2.2 Beta as a Measure of Risk	11
2.3 Value-at-Risk (VaR)	13
2.4 Investor Behaviour Towards Risk	14
PART II ASSET CLASSES AND THEIR DEGREE OF RISK	17
3 Asset Classes and Associated Risks	19
3.1 Money Market Investments	19
3.1.1 Definition	19
3.1.2 Risks associated with money market investments	20
3.2 Bonds	22
3.2.1 Definition	22
3.2.2 Risks associated with bonds	26
3.3 Stocks	33
3.3.1 Definition	33
3.3.2 Risks associated with stocks	36

3.4	Real Estate	45
3.4.1	Definition	45
3.4.2	Risks associated with real estate	46
3.5	Commodities and Metals	48
3.5.1	Definition	48
3.5.2	Risks associated with commodities and metals	51
3.6	Private Equity	54
3.6.1	Definition	54
3.6.2	Risks associated with private equity	54
3.7	Other Asset Classes	56
4	Particular Forms of Investment within Asset Classes	59
4.1	Hedge Funds	59
4.1.1	Definition	59
4.1.2	Risks associated with hedge funds	60
4.2	Structured Products	63
4.2.1	Definition	63
4.2.2	Risks associated with structured products	64
4.3	Options	65
4.3.1	Definition	65
4.3.2	Risks associated with options	66
5	Classification of Asset Classes According to their Degree of Risk	71
5.1	Selected Criteria for Classification of Asset Classes	71
5.2	Classification of the Different Asset Classes	75
PART III THE MARKET		77
6	Market Efficiency	79
6.1	Weak Form Market Efficiency	79
6.2	Semi-strong Form Market Efficiency	80
6.3	Strong Form Market Efficiency	80
6.4	Conclusion on Market Efficiency	81
7	Fundamental Analysis	83
7.1	Discounted Cash Flow	83
7.2	Relative Measures	85
7.2.1	Price to Earnings Ratio (P/E)	85
7.2.2	Price to Book	85
7.3	Strategic Analysis	86
7.3.1	The business model	86
7.3.2	External analysis	88
7.3.3	Internal analysis	95
7.3.4	The SWOT table (Strengths, Weaknesses, Opportunities and Threats)	97
7.4	Criticism of Fundamental Analysis	98

8	Technical Analysis	101
8.1	The Three Fundamental Principles of Technical Analysis	101
8.1.1	Prices reflect all available information	101
8.1.2	Prices move in trends	102
8.1.3	History repeats	104
8.1.4	Criticism of technical analysis	105
8.2	Conclusion on Technical Analysis	106
9	Investment Approach Based on “Psychological Principles”	109
PART IV VALUATION OF FINANCIAL ASSETS		111
10	Valuation of Money Market Investments	113
11	Valuation of Bonds	115
12	Valuation of Stocks	117
13	Valuation of Options	119
14	Valuation of Real Estate	121
15	Valuation of Commodities and Metals	123
16	Conclusion on Valuation	125
PART V THREE PRACTICAL APPROACHES TO SECURITY SELECTION: BUFFETT, GRAHAM AND LYNCH		127
17	Warren Buffett’s Value Investing Approach	129
18	Benjamin Graham’s Approach	133
18.1	The Defensive Investor	133
18.2	The Enterprising Investor	134
18.3	Security Analysis	135
18.3.1	Bond selection	135
18.3.2	Stock selection	135
18.4	The Margin of Safety Concept	136
19	Peter Lynch’s Approach	137
19.1	Stock Categories	138
19.1.1	Slow growers	138
19.1.2	The stalwarts	138
19.1.3	The fast growers	139
19.1.4	Cyclicals	139
19.1.5	Turnarounds	140
19.1.6	The asset plays	140
19.2	The Perfect Company According to Lynch	140

19.3 Earnings and Earnings Growth	143
19.4 Selection Criteria	144
19.4.1 The sales percentage	144
19.4.2 The P/E ratio	145
19.4.3 Liquid assets	145
19.4.4 Debt	145
19.4.5 Dividends	146
19.4.6 Hidden assets	146
19.4.7 Cash flow	146
19.4.8 Inventories	146
19.4.9 Growth rate	146
19.4.10 Gross profits	146
19.5 Conclusion on Peter Lynch's Approach	147
PART VI BEHAVIOURAL FINANCE	149
20 Investors in Behavioural Finance	151
21 Heuristics and Cognitive Biases	153
21.1 Information Selection	153
21.1.1 Availability heuristic	153
21.1.2 Herding	153
21.1.3 Ambiguity aversion	154
21.1.4 Wishful thinking	154
21.2 Information Processing	154
21.2.1 Representation bias	154
21.2.2 Confirmation bias	154
21.2.3 Narrative fallacy	155
21.2.4 Gambler's fallacy	155
21.2.5 Anchoring	155
21.2.6 Framing	155
21.2.7 Probability matching	155
21.2.8 Wearing blinkers	156
21.2.9 Overconfidence bias	156
21.2.10 Illusion of control	157
21.3 The Use of Assets	157
21.3.1 Mental accounting	157
21.3.2 Disposition effect	158
21.3.3 House money effect	158
21.3.4 Endowment effect	158
21.3.5 Home bias	158
21.3.6 No go's	158
21.3.7 Sunk costs	158
21.3.8 Lack of control	159
21.3.9 Pride and regret	159

22 Investment Approach Based on Behavioural Finance	161
22.1 Momentum Strategy	161
23 Criticism of Behavioural Finance	165
PART VII FORECASTING MARKET MOVEMENTS	167
24 Investment Approach Based on Probabilities	169
25 Random Walk Theory	171
26 Market Timing	173
27 Macroeconomic Investment Approach	177
27.1 State Interventions	179
27.1.1 Tax and fiscal policy	180
27.1.2 Monetary policy	181
27.1.3 The appropriate policy	181
27.2 The Major Macroeconomic Forces	182
27.2.1 Inflation	182
27.2.2 Economic growth	185
27.2.3 Recession	192
27.2.4 Productivity and technological change	195
27.2.5 Regulations and taxes	197
27.3 Sectorial Analysis	197
27.4 Peter Navarro's Approach	198
27.4.1 Trends and stock picking	199
27.4.2 Sector rotation	200
27.5 Criticism of the Macroeconomic Approach	202
PART VIII MODELLING MARKET MOVEMENTS	203
28 Suggested Investment Approach	207
29 The Forces	209
29.1 The Macroeconomic Force	209
29.2 The Fundamental Force	209
29.3 The Technical Force	209
29.4 The Behavioural Force	210
29.5 The Luck Force	210
30 The Forces' Strength	211
31 The Beauty of the Approach	213
PART IX PORTFOLIO CONSTRUCTION AND MANAGEMENT	215

32	Modern Portfolio Theory According to Markowitz	217
32.1	David Swensen's Approach	219
33	The Capital Asset Pricing Model (CAPM)	221
34	The Minimum Variance Portfolio	223
35	Value-at-Risk (VaR)	227
36	Discretionary Mandates	229
37	The Dollar-cost Averaging Approach	231
38	Our Portfolio Construction Method	233
38.1	Basic Principles of Portfolio Construction	233
38.1.1	10 rules for protecting your capital	234
38.1.2	The 12 rules of risk management	235
38.2	The Portfolio Construction Process	238
38.2.1	The investor's life objectives	238
38.2.2	The investor's life cycle and investment time horizon	238
38.2.3	Choosing a reference currency	238
38.2.4	Evaluating the risk profile	238
38.2.5	Estimating a return target	239
38.2.6	The investor's tax rate	240
38.2.7	Determining the proportion of risky assets	240
38.2.8	Evaluating the expected degree of liquidity (share of illiquid assets)	240
38.2.9	Portfolio construction and management	240
38.3	A Practical Example of Portfolio Construction	249
PART X	ATTRACTIVENESS OF THE DIFFERENT ASSET CLASSES	253
39	Asset Classes	255
39.1	Money Market Investments	255
39.2	Bonds	255
39.3	Stocks	256
39.4	Real Estate	257
39.5	Commodities and Precious and Industrial Metals	258
40	The Four Forces of the Investment Model	259
40.1	The Macroeconomic Force	259
40.1.1	The Macroeconomic Force and money market investments	259
40.1.2	The Macroeconomic Force and bonds	259
40.1.3	The Macroeconomic Force and stocks	260
40.1.4	The Macroeconomic Force and real estate	261
40.1.5	The Macroeconomic Force and commodities, precious and industrial metals	262
40.2	The Fundamental Force	262

40.2.1	The Fundamental Force and money market investments	262
40.2.2	The Fundamental Force and bonds	263
40.2.3	The Fundamental Force and stocks	263
40.2.4	The Fundamental Force and real estate	269
40.2.5	The Fundamental Force and commodities, precious and industrial metals	269
40.3	The Technical Force	269
40.3.1	The Technical Force and money market investments	269
40.3.2	The Technical Force and bonds	270
40.3.3	The Technical Force and stocks	270
40.3.4	The Technical Force and real estate	270
40.3.5	The Technical Force and commodities, precious and industrial metals	271
40.4	The Behavioural Force	271
40.4.1	The Behavioural Force and money market investments	271
40.4.2	The Behavioural Force and bonds	271
40.4.3	The Behavioural Force and stocks	271
40.4.4	The Behavioural Force and real estate	272
40.4.5	The Behavioural Force and commodities, precious and industrial metals	272
41	Table Summarising the Different Forces	273
42	A Final Example: Analysis of the Subprime Crisis	277
	Conclusion	281
	Bibliography	283
	Index	285
