

Contents at a Glance

<i>Introduction</i>	1
<i>Book I: Cranking Up Windows 7</i>	9
Chapter 1: Windows 7 4 N00bs.....	11
Chapter 2: Windows 7 for the Experienced.....	29
Chapter 3: Which Version? Pick a 7, Any 7.....	39
Chapter 4: Upgrades, Clean Installs, Transfers.....	45
Chapter 5: Getting Essentials: The Rest of Windows 7.....	65
<i>Book II: Windows 7 Boot Camp</i>	75
Chapter 1: Running Windows from Start to Finish.....	77
Chapter 2: Controlling Users.....	115
Chapter 3: Maintaining Your System.....	133
Chapter 4: Getting the Basic Stuff Done.....	173
Chapter 5: Troubleshooting and Getting Help.....	205
<i>Book III: Customizing Windows 7</i>	225
Chapter 1: Personalizing Your Desktop.....	227
Chapter 2: Organizing Your Interface.....	247
Chapter 3: Searching Your Computer.....	269
Chapter 4: Beating and Cheating Windows 7 Games.....	287
<i>Book IV: Joining the Multimedia Mix</i>	301
Chapter 1: Jammin' with Windows Media Player.....	303
Chapter 2: iPod and iTunes in Windows 7.....	345
Chapter 3: Discovering Digital Cameras and Recorders.....	365
Chapter 4: Managing Pics with Windows Live Photo Gallery.....	375
Chapter 5: Lights! Action! Windows Live Movie Maker.....	401
Chapter 6: Setting Up Media Center.....	423

<i>Book V: Windows 7 and the Internet</i>	441
Chapter 1: Getting the Most from the Internet	443
Chapter 2: Finding Your Way Around Browsers.....	461
Chapter 3: Making Internet Explorer Your Own	491
Chapter 4: Using Firefox: The Advanced Course	511
Chapter 5: Searching on the Internet	527
Chapter 6: Sending Windows Mail Live.....	543
Chapter 7: Chatting with Windows Live Messenger.....	567
<i>Book VI: Securing Windows 7</i>	591
Chapter 1: Lock Down: Spies, Spams, Scams, and Slams.....	593
Chapter 2: Action Center Overview.....	623
Chapter 3: Windows Firewall.....	633
Chapter 4: Patching and Plugging.....	653
Chapter 5: Fighting Viruses and Other Scum	671
<i>Book VII: Networking with Windows 7</i>	695
Chapter 1: Attaching to a Network	697
Chapter 2: Setting Up Your Own Network.....	719
Chapter 3: Building Your Network.....	735
Chapter 4: Putting the Why in Wi-Fi	753
<i>Book VIII: Using Other Hardware</i>	771
Chapter 1: Finding and Installing the Hardware You Need	773
Chapter 2: Using Device Stage.....	799
Chapter 3: Printing (Almost) Effortlessly	811
<i>Index</i>	825

Table of Contents

<i>Introduction</i>	1
About This Book	2
Conventions	3
What You Don't Have to Read.....	4
Foolish Assumptions.....	4
Organization.....	5
Icons	6
Where to Go from Here.....	7
<i>Book 1: Cranking Up Windows 7</i>	9
Chapter 1: Windows 7 4 N00bs	11
Hardware and Software	12
Why Do PCs Have to Run Windows?.....	13
A Terminology Survival Kit	14
Buying a Windows 7 Computer.....	17
Inside the big box.....	19
Screening.....	22
Managing disks and drives	23
Making PC connections.....	24
Futzing with video, sound, and multitudinous media.....	27
Netbooks.....	28
Chapter 2: Windows 7 for the Experienced.	29
What's New for Vista Victims.....	29
Better performance	30
Improved interface	30
Search that (finally!) works.....	31
Security improvements.....	32
Mo' media and more.....	32
What you lose.....	32
What's New for the XP Crowd.....	33
Looking through the Aero Glass	33
Checking out improved video effects.....	34
Interacting with gadgets	35
Sizing up other improvements.....	36
Do You Need Windows 7?.....	37

Chapter 3: Which Version? Pick a 7, Any 7	39
Pick a 7 — Any 7	39
Buying the right version the first time	41
Narrowing the choices	42
Choosing 32-Bit versus 64-Bit.....	43
 Chapter 4: Upgrades, Clean Installs, Transfers	 45
Can Your Computer Handle Windows 7?	45
Upgrading a Vista computer.....	46
Upgrading a Windows XP computer.....	47
Running the Windows 7 Upgrade Advisor.....	48
Performing a Clean Install	50
Using Easy Transfer.....	56
Knowing what will transfer	57
Making the transfer.....	57
Activating the Product.....	60
How Windows activates	60
Windows Activation Technologies	63
What If the Wheels Fall Off?	64
 Chapter 5: Getting Essentials: The Best of Windows 7	 65
Understanding the Move to Downloadable Programs.....	66
Inventorying the Essentials	66
Distinguishing Essentials from the Other Live Components	71
Installing Essentially.....	72
 Book II: Windows 7 Boot Camp	 75
 Chapter 1: Running Windows from Start to Finish	 77
A Few Quick Steps to Make the Desktop Your Own.....	77
Changing the background.....	79
Getting gadgets	81
Cleaning up useless icons and programs	83
Mousing with Your Mouse.....	83
What’s up, Dock?.....	84
Changing the mouse.....	85
Starting with the Start Button.....	86
Touching on the Taskbar	89
Working with Files and Folders	91
Creating files and folders	92
Modifying files and folders	93
Bringing back previous versions	94

Showing filename extensions	96
Sharing folders	98
Recycling.....	103
Getting Around.....	104
Using Windows Explorer.....	105
Navigating	105
Viewing.....	106
Arranging Libraries	108
Creating Shortcuts.....	110
Sleep: Perchance to Dream	111
Chapter 2: Controlling Users	115
Logging On.....	116
Choosing Account Types.....	118
What's a standard account?	118
What's an administrator account?.....	118
Choosing between standard or administrator accounts.....	119
Controlling User Account Control.....	121
Adding Users	124
Enabling the Guest Account.....	125
Changing Accounts.....	126
Changing other users' settings.....	126
Changing your own settings.....	129
Creating a password reset disk.....	130
Switching Users	130
Chapter 3: Maintaining Your System	133
Coping with Start-Up Problems	133
Creating a system repair disc.....	134
Using the system repair disc.....	136
Working with Backups	138
Restoring a file with shadow copies (previous versions)	139
Maintaining previous versions on different drives	142
Creating data backups.....	144
Managing and restoring data backups.....	148
Getting back the image backup (don't give up the ghost)	150
Maintaining Drives.....	152
Running an error check.....	153
Defragmenting a drive.....	154
Using System Restore and Restore Points	155
Creating a restore point.....	156
Rolling back to a restore point.....	157
Scheduling the Task Scheduler.....	158
Starting with your parameters	159
Scheduling a task	160

Zipping and Compressing..... 162
 Compressing with NTFS..... 164
 Zipping the easy way with Compressed (zipped) Folders 165
 Using the Windows 7 Resource Monitor and Reliability Monitor 166
 Controlling the Control Panel 167
 Removing and changing programs 170
 Removing Windows patches 172

Chapter 4: Getting the Basic Stuff Done. 173

Burning CDs and DVDs 173
 Understanding -R and -RW 175
 What to burn 176
 Mastered or Live File System?..... 177
 Burning with Windows 7 178
 Improving Your Experience Index..... 186
 Interpreting the numbers..... 188
 Turning the numbers into real improvement 189
 Getting Word Processing — Free 191
 Running Notepad 191
 Writing with WordPad..... 193
 Taming the Character Map..... 196
 Calculating — Free 197
 Painting..... 198
 Sticking Sticky Notes 200
 Using Sneaky Key Commands 200
 Conjuring up the Task Manager..... 201
 Switching coolly..... 202

Chapter 5: Troubleshooting and Getting Help. 205

Troubleshooting in the Action Center 206
 Tracking Your System’s Stability..... 207
 Tackling Windows Help and Support..... 208
 The problem(s) with Windows Help 208
 Using different kinds of help 210
 Staying online 210
 Choosing the index versus search..... 211
 How to Really Get Help 211
 Snapping and Recording Your Problems 213
 Connecting to Remote Assistance..... 216
 Understanding the interaction..... 216
 Making the connection..... 217
 Limiting an invitation 221
 Troubleshooting Remote Assistance 222
 Getting Help on the Web..... 222

Book III: Customizing Windows 7 225

Chapter 1: Personalizing Your Desktop227

Recognizing Desktop Levels.....	227
Setting Color Schemes in Windows 7.....	229
Picking a Background.....	232
Controlling Icons	234
Changing Mouse Pointers.....	236
Selecting Screen Savers	237
Changing the screen saver	238
Setting up a Super Boss Key.....	240
Using Desktop Themes	242
Seeing Your Desktop Clearly.....	243
Setting the screen resolution	244
Activating and adjusting ClearType	245
Showing larger fonts.....	245
Using magnification	246

Chapter 2: Organizing Your Interface 247

Tricking Out the Taskbar.....	247
Anatomy of the taskbar	248
Jumping	249
Changing the toolbar.....	250
Making your own little toolbars.....	251
Working with the taskbar	254
Controlling the notification area.....	254
Customizing the Start Menu.....	256
Genesis of the Start menu.....	256
Pinning to the Start menu	258
Reclaiming most recently used programs.....	262
Changing the All Programs menu	264
Making minor tweaks to the Start menu.....	265

Chapter 3: Searching Your Computer 269

Searching Basics	270
Engaging your brain before the search.....	270
Stepping through a basic search	271
What Windows can (and can't) find	273
Adding Boolean operators to a search	274
Breaking out the wildcard characters.....	275
Searching from the Start menu	275
Indexing for Fun and Profit.....	277
Setting index file type options.....	279
Adding locations to the index	281

Using Advanced Search Settings	282
Finding Files That Got Lost	285
First, don't panic	285
Second, get determined	286

Chapter 4: Beating and Cheating Windows 7 Games 287

Get Yer Games Goin'	288
Solitaire	290
Standard scoring	291
Vegas scoring	292
FreeCell	292
Spider Solitaire	294
Minesweeper	295
The Internet Games	297
The Other Games	298

Book IV: Joining the Multimedia Mix..... 301

Chapter 1: Jammin' with Windows Media Player 303

What You Need to Know about C.R.A.P.	304
Adjusting WMP Privacy Settings	305
Setting options when you install WMP	306
Tweaking options after installation	309
Playing with Now Playing	310
Playback buttons	313
Playing a CD	314
Buying Music and Videos Online	316
Copying from a CD (Also Known As Ripping)	318
Organizing Your Media Library	323
Leafing through the library	323
Finding the tracks you want	324
Rating songs	325
Sorting songs	325
Searching	326
Managing Playlists	326
Creating a new playlist	327
Adding a track to a playlist	329
Renaming and deleting playlists	329
Managing the contents of playlists	330
Deleting tracks from the library	330
Burning CDs and DVDs	331
Burning an audio CD	332
Burning data CDs and DVDs with Media Player	336

Syncing with a Portable Player or Mobile Phone	337
Moving tracks to the player.....	338
Moving tracks from the player to your PC	339
Deleting tracks from your player	340
Sharing Your Windows Media Player Media.....	341
Customizing WMP.....	343

Chapter 2: iPod and iTunes in Windows 7..... 345

What You Can't Do	346
iPod the Apple Way	348
Installing the iTunes program	348
Setting up iTunes	351
Moving music to your iPod.....	356
Controlling syncing with playlists	359
Copying Songs to Your PC.....	360
Taking a Look at the iPod Ecosystem	362

Chapter 3: Discovering Digital Cameras and Recorders 365

Buying a Camera or Camcorder: The Bottom Line	366
Moving Images to Your Computer	368
Sharing Your Pictures on the Web.....	373

Chapter 4: Managing Pics with Windows Live Photo Gallery. 375

Getting the Gallery Going	376
Leafing through the Gallery.....	378
Adding Photos to the Photo Gallery	382
Importing photos	382
Copying photos to the Pictures folder.....	385
Adding photos from a different folder	386
Scanning photos.....	387
Tagging Pictures	389
Skipping through tags	389
Tagging a picture	390
Tagging en masse.....	391
Rearranging the tag list	391
Finding a tagged picture	392
Touching Up Pictures	393
Stitching a Panoramic Photo.....	396
Getting Your Photos into Flickr	397

Chapter 5: Lights! Action! Windows Live Movie Maker..... 401

Installing Windows Live Movie Maker	402
Meet Your Maker	404
Gathering Clips	406

Assembling a Movie 407
 Creating a project 407
 Playing a clip or a movie 409
 Making transitions and adding effects 410
 Trimming a clip 412
 Typing titles 413
 Mixing in the sound 414
 Publishing a Movie 416
 Finding the right publication method 416
 Publishing directly to the Web 416
 Using Windows DVD Maker 418
 Making a DVD 419
 Ripping, burning, and converting movies 422

Chapter 6: Setting Up Media Center 423

Determining Whether You Need Media Center 424
 Organizing the Normandy Invasion 427
 Gathering the tools for an easier setup 427
 Getting Windows in gear 429
 Gathering folders for libraries 432
 Setting Up Media Center 433
 Beyond the Basics 435
 Playing recorded TV shows 436
 Burning DVDs 438

Book V: Windows 7 and the Internet 441

Chapter 1: Getting the Most from the Internet. 443

What Is the Internet? 444
 Getting Inside the Internet 445
 What Is the World Wide Web? 448
 Who Pays for All This Stuff? 450
 Connecting with Broadband 451
 The last mile 452
 Uses and excuses for broadband 454
 Setting Up an Internet Connection 455
 Finding Internet Reference Tools 456
 Speakeasy speed test 457
 DNSStuff 457
 3d Traceroute 458
 Down for everyone or just me? 458
 The Wayback Machine 459

Chapter 2: Finding Your Way Around Browsers	461
Exploring Internet Explorer Alternatives: Firefox and Chrome	461
Ready, Set, Browse!	464
Configuring your browser	468
Taking a walk around the Internet Explorer window	472
Pick a tab, any tab	474
Kicking your browsing up a notch	476
InPrivate Browsing: Porn mode	478
Thwarting Phishers	479
Saving and Printing Web Pages	483
Saving Web pages	483
Printing Web pages	485
Playing Favorites	486
Adding Favorites or Bookmarks of your own	488
Organizing your Favorites or Bookmarks	489
Chapter 3: Making Internet Explorer Your Own	491
Getting the Most from Internet Explorer	492
Making Internet Explorer Run Faster	494
Turning off graphics	494
Turning off animations and sounds	495
Increasing your storage space	496
Putting the Pedal to the Metal: Working with Accelerators	497
Hardening Internet Explorer 8	498
Dealing with Cookies	502
Deleting cookies	503
InPrivate Filtering	503
Working with RSS Feeds	507
Chapter 4: Using Firefox: The Advanced Course	511
Installing Firefox	512
Recapping Firefox Tips	514
Speeding Up Firefox	515
Bookmarking with the Fox	517
Creating Smart Folders	519
Working with RSS Feeds — the Real Way	520
Adding Firefox’s Best Add-Ons	523
Using Smart Keywords in Firefox	525
Chapter 5: Searching on the Internet	527
Understanding What a Search Engine Can Do for You	528
Searching for text	528
Searching for images	532
Searching for everything else: Blogs, news, and more	534
Finding What You’re Looking For	534
Using the other Google engines	534
Searching wisely	536

Using Advanced Search.....	537
Pulling out Google parlor tricks.....	539
Posting on Newsgroups	540

Chapter 6: Sending Windows Mail Live..... 543

Counting the Microsoft E-Mail Programs	544
Outlook.....	544
Hotmail.....	545
Windows Live Mail.....	546
Choosing an E-Mail Program	546
Getting Started with Windows Live Mail	549
Conversing with E-Mail	553
Setting up mail accounts.....	554
Retrieving messages and attachments.....	556
Creating a message.....	560
Adding a signature.....	561
Attaching files.....	562
Sending a message.....	564
Making Windows Live Mail wait to send and receive	564

Chapter 7: Chatting with Windows Live Messenger..... 567

Exploring the Alternatives.....	568
Making Windows Live Messenger Work.....	570
Choosing one or more Windows Live IDs.....	570
Signing up for an ID — or two	571
Installing Windows Live Messenger	573
Starting Windows Live Messenger the first time	575
Working with Contacts	579
Adding contacts.....	579
Making contact.....	581
Tweaking Settings in Windows Live Messenger	583
Revealing your Webcam	584
Making Messenger forget your password.....	585
Stopping Windows Live Messenger from starting automatically.....	586
Using the fancier features.....	587

Book VI: Securing Windows 7..... 591

Chapter 1: Lock Down: Spies, Spams, Scams, and Slams 593

Understanding the Hazards — and the Hoaxes.....	594
Zombies and botnets.....	596
Phishing.....	598
Oday exploits	602
Staying Informed.....	603
Relying on reliable sources	603
Ditching the hoaxes	604

Am I Infected?.....	606
Evaluating telltale signs	606
What to do next.....	608
Shunning scareware	609
Getting Protected	611
Protecting against malware.....	612
Using your credit card safely online	613
Defending your privacy.....	615
Keeping cookies at bay	616
Reducing spam.....	620
Chapter 2: Action Center Overview	623
Entering the Action Center.....	624
Working with the Action Center	625
Watching Security Settings.....	625
Checking Maintenance Settings	628
Rooting out Rootkits	629
Chapter 3: Windows Firewall	633
Comparing Firewalls.....	633
Understanding Windows 7 Firewall's Basic Features	635
Speaking Your Firewall's Language	637
Peeking into Your Firewall	638
Using Public and Private Networks	639
Making Inbound Exceptions	640
Allowing designated programs to bypass the firewall.....	641
Opening specific ports	645
Coping with the Windows 7 Outbound Firewall.....	648
Chapter 4: Patching and Plugging	653
Patching Woes	654
Choosing an Update Level.....	656
Selectively Patching: A Panacea for Those Woes.....	662
Getting What You Need from a Security Bulletin	666
Decoding a security bulletin.....	667
Getting patches through a security bulletin	667
Checking and Uninstalling Updates	668
Chapter 5: Fighting Viruses and Other Scum	671
Making Sense of Malware	672
Understanding Antivirus Software	673
Identifying the challenges for antivirus software	675
Understanding false positives	676
Caring for your antivirus software	676
Downloading and Installing AVG Free.....	678

Dealing with Spyware.....	685
Where's Defender?.....	686
Blocking spies with Spybot-S&D	687
Blocking Bad Autostarting Programs.....	690

Book VII: Networking with Windows 7..... 695

Chapter 1: Attaching to a Network697

Choosing Between Home, Work, and Public.....	698
Understanding HomeGroups	700
Hooking Up to a Wireless Network.....	703
Hooking Up to a Wired Network.....	709
Caring for Your HomeGroup	712
Changing your network type.....	712
Changing the HomeGroup password	713
Adding or blocking folders in the HomeGroup.....	715

Chapter 2: Setting Up Your Own Network719

Understanding Networks.....	720
What a network can do for you.....	720
How a network networks	721
Organizing Networks.....	722
Understanding servers and serfs.....	723
Introducing client/server networks.....	724
Introducing peer-to-peer networks.....	725
Comparing the p-pros and c-cons.....	728
Cutting through the Terminology.....	729
Making Computers Talk.....	730
Understanding Ethernet.....	731
Adding wireless.....	733

Chapter 3: Building Your Network735

Planning Your Network.....	736
Using a wired network.....	736
Blocking out the major parts.....	737
Using Internet Connection Sharing	740
Installing (or Reinstalling) Your Network.....	742
More Troubleshooting.....	747
Networking on the road	747
Getting your computer to see another computer	748

Chapter 4: Putting the Why in Wi-Fi753

Choosing a Protocol.....	754
Installing a Wireless System.....	756
Wireless adapters and access points	757
Location, location, location.....	758

Setting Up a Secure Wireless Network.....	759
Connecting to a WPA2 Protected Network	764
Calming Two Fighting Mother Hens	767

***Book VIII: Using Other Hardware* 771**

Chapter 1: Finding and Installing the Hardware You Need 773

Knowing What Windows 7 Wants.....	774
Upgrading the Basic Stuff	775
Choosing a new monitor	776
Changing resolutions and multiple monitors.....	782
Picking a video adapter.....	784
Upgrading keyboards	785
Choosing a mouse — or alternatives	787
Getting more out of USB.....	789
Understanding flash memory and USB key drives	790
Installing New Hardware.....	792
Having the store do it.....	792
Doing it yourself.....	793
Checking a driver’s version.....	794
Knowing what to do if anything goes wrong.....	795
Restarting with the last known good configuration	796
Installing USB hardware.....	797

Chapter 2: Using Device Stage 799

Getting a Grip on Device Stage	800
Taking Device Stage for a Spin.....	803
Establishing a Bluetooth Connection.....	805

Chapter 3: Printing (Almost) Effortlessly 811

Installing a Printer	812
Attaching a local printer	812
Connecting a network printer	814
Using the Print Queue.....	817
Displaying a print queue.....	818
Pausing and resuming a print queue.....	819
Pausing, restarting, and resuming a document	819
Canceling a document.....	820
Troubleshooting Printing	821
Catching a Runaway Printer.....	823

***Index* 825**
