Preface	ix
About the Author	xi
Acknowledgments	xix
Notation System and Abbreviations Using in This Book	xxi
PART ONE	
Technical Supplement—Supplements to Chapters 9 and 10 of <i>Cost of Capital: Applications and Examples, 4th ed.</i>	
CHAPTER 1	
Alternative Net Cash Flow Definitions—Supplement to Chapter 3	3
Introduction	3
Equity Cash Flow Method	3
Invested Capital Method	4
Capital Cash Flow Method	5
Adjusted Present Value Method	7
Residual Income Method	8
CHAPTER 2	
Examples of Computing OLS Beta, Sum Beta, and Full Information Beta Estimates—Supplement to Chapter 10	10
Introduction	10
Computing OLS and Sum Beta Estimates—An Example	11
Computing Full-Information Beta Estimate—An Example	15
CHAPTER 3	
Estimating Beta: Interpreting Regression Statistics—Supplement to Chapter 10	22
Introduction	22
Evaluating Beta Estimation Output	25
Evaluating Regression Output	26

CHAPTER 4		
Example of Computing Downside Beta Estimates—Supplement to Chapter 12		31
Introduction		31
Computing Downside Beta Estimates		31
CHAPTER 5		
Iterative Process Using CAPM to Calculate the Cost of Equity Component of the Weighted Average Cost of Capital When Capital Structure Is Constant—Supplement to Chapter 18		34
Introduction		35
Capital Asset Pricing Model and Beta		35
Solution: The Iterative Process		36
Iterative Process Using a Financial Spreadsheet Model		39
Summary		48
Additional Reading		48
CHAPTER 6		
Iterative Process Using CAPM to Calculate the Cost of Equity Component of the Weighted Average Cost of Capital When Capital Structure Is Changing—Supplement to Chapter 18		49
Introduction		49
Assumptions Inherent in Weighted Average Cost of Capital		50
Solution: Iterative Process with Changing Capital Structure		50
Iterative Process Using Financial Spreadsheet Model		52
Equity Value		60
Summary		62
Additional Reading		62
CHAPTER 7		
Cost of Capital and the Valuation of Worthless Stock—Supplement to Chapter 16		63
Introduction		64
Liquidating Value		64
Potential Value		66
Example		67
Possibility That Value of the Business Enterprise Exceeds the Face Value of Debt—Pricing Equity as a Call Option		67
Potential Future Value: Probability That Business Enterprise Exceeds Face Value of Debt		73
Additional Considerations		77
Summary		79

PART TWO**Technical Supplement—Specific Applications of *Cost of Capital*****CHAPTER 8****Cost of Capital of Private Investment Company Interests 83**

Introduction	83
The Private Investment Company	84
Relationships between Time to a Liquidity Event and Value	85
Lack of Control	89
Lack of Marketability or Illiquidity	93
Example Valuation of PIC Interest	99
Summary	105

CHAPTER 9**Cost of Capital of Real Property—Individual Assets 107**

Introduction	107
Typical Structure of a Real Estate Transaction	108
Real Property Competes with Other Asset Classes	109
Direct Capitalization Method	111
Discounted Cash Flow Method	125
Estimating the Property Discount Rate	126
Summary	130

Appendix 9A: Valuing Real Property 131**CHAPTER 10****Cost of Capital of Real Estate Entities 139**

Introduction	139
Definition of a Real Estate Entity	140
Measuring Net Cash Flow for Real Estate Entities	153
Valuation of Real Estate Entities	154
Summary	175
Additional Reading	176

Appendix 10A: Valuing Real Estate Entities 177**PART THREE****Learning Objectives, Questions, and Problems 185****PART FOUR****Answers and Solutions 227****Index 247**
