

## Index

### A

Andheri-Kurla Complex, construction activity, 128, 130  
Annual total returns (mixed assets), 16e, 18e  
Apartment properties, 5–6  
Asia, GDP history/forecast, 32e  
Asia Pacific Region, invested stock (decline), 49  
Asia Pacific Visitor Arrivals, 37e  
Asset allocation, 10  
Asset classes, return-to-risk ratio, 16  
Asset risk, measurement, 18  
Average yearly rupee exchange rate, U.S. dollar (contrast), 108e

### B

Bahia (second tier city), 193–194  
Bandra-Kurla Complex, construction activity, 128, 130  
Bangalore, 131–134  
Brigade Road (commercial market), 132  
challenges, 131–132  
characteristics, 131  
commercial property yields, 133  
company involvement, 109  
hardware/peripherals manufacturing firms, clusters, 126  
office market, 132–133  
stabilization, 132  
Outer Ring Road, 132  
popularity, increase, 133  
primary market, 131–134  
prime residential projects, construction, 133–134

real estate investment, 113  
residential market, 133–134  
retail market, 133  
Richmond Road (commercial market), 132  
Suburban Business Districts (SBDs), 113  
Beijing (primary market), 28–29  
characteristics, 68  
leasing market, strength (rebound), 68–69  
manufacturing plants, concentration, 64  
office submarkets, 69e  
Olympic Games  
host, 50  
hotel investment/construction, increase, 71–72  
Belo Horizonte (second-tier city), 176  
home sales velocity, 199–200  
total office employment, 203  
Bid-auction-listing system, implementation, 71  
Bird Flue scare, 45  
Bohai (primary real estate market), 29  
growth drivers, 31  
Brazil, 153  
account deficit, 158  
administration, policy responsibility, 161  
airports, problems, 192–193  
banking activity, improvement, 174–175  
Belo Horizonte (second-tier city), 176  
Bem-te-vi, oil site, 159  
BOVESPA index, 176
