Preface	xi
Professional Trading	xii
The Role of Mathematics	xiv
The Structure of this Book	xvi
Acknowledgments	xix
CHAPTER 1 History	1
Summary	6
CHAPTER 2 Introduction to Options	7
Options	9
Specifications for an Option Contract	9
Uses of Options	11
Market Structure	14
Summary	20
CHAPTER 3 Arbitrage Bounds for Option Prices	21
American Options Compared to European Options	25
Absolute Maximum and Minimum Values	25
Summary	39
CHAPTER 4 Pricing Models	41
General Modeling Principles	42
Choice of Dependent Variables	45
	vii

The Binomial Model	48
The Black-Scholes-Merton (BSM) Model	55
Summary	61
CHAPTER 5 The Solution of the Black-Scholes-Merton (BSM) Equation	63
<hr/>	
Delta	67
Gamma	72
Theta	76
Vega	80
Summary	88
CHAPTER 6 Option Strategies	89
<hr/>	
Forecasting and Strategy Selection	89
The Strategies	93
Summary	116
CHAPTER 7 Volatility Estimation	117
<hr/>	
Defining and Measuring Volatility	119
Forecasting Volatility	129
Volatility in Context	132
Summary	136
CHAPTER 8 Implied Volatility	137
<hr/>	
The Implied Volatility Curve	138
Parameterizing and Measuring the Implied Volatility Curve	142
The Implied Volatility Curve as a Function of Expiration	145
Implied Volatility Dynamics	146
Summary	151

<i>Contents</i>	ix
CHAPTER 9 General Principles of Trading and Hedging	153
Edge	154
Hedging	156
Trade Sizing and Leverage	158
Scalability and Breadth	163
Summary	164
CHAPTER 10 Market Making Techniques	165
Market Structure	166
Market Making	169
Trading Based on Order-Book Information	181
Summary	189
CHAPTER 11 Volatility Trading	191
Hedging	192
Hedging in Practice	193
The P/L Distribution of Hedged Option Positions	203
Summary	213
CHAPTER 12 Expiration Trading	215
Pinning	215
Pin Risk	219
Forward Risk	221
Exercising the Wrong Options	221
Irrelevance of the Greeks	223
Expiring at a Short Strike	224
Summary	225
CHAPTER 13 Risk Management	227
Example of Position Repair	228
Inventory	232
Delta	234

x

CONTENTS

Gamma	234
Vega	238
Correlation	240
Rho	242
Stock Risk: Dividends and Buy-in Risk	242
The Early Exercise of Options	243
Summary	248
Conclusion	249
APPENDIX A Distributions	253
Example	253
Moments and the “Shape” of Distributions	254
APPENDIX B Correlation	263
Glossary	271
Index	285
