Foreword	xv
Preface	xvii
Acknowledgments	xxix
Introduction	1
CHAPTER 1 On Trading Strategies	5
Why This Book Was Written	7
Who Will Benefit from This Book?	8
The Goals of This Book	10
The Lay of the Land	10
CHAPTER 2 The Systematic Trading Edge	17
Discretionary Trading	18
Raising the Bar	19
Verification	22
Quantification	24
Risk and Reward	24
The Performance Profile	26
Objectivity	27
Consistency	29
Extensibility	32
The Benefits of the Historical Simulation	33
Positive Expectancy	34
The Likelihood of Future Profit	34
The Performance Profile	35
Proper Capitalization	35
	vii

A Measure of Real-Time Trading Performance	36
The Benefits of Optimization	37
The Benefits of the Walk-Forward Analysis	38
The Advantages of a Thorough Understanding	39
Confidence	40
Strategy Refinement	41
CHAPTER 3 The Trading Strategy Development Process	43
Two Philosophical Approaches to Strategy Development	44
The Scientific Approach	44
The Path of Empirical Development	45
An Overview of the Trading Strategy Design Process	47
Step 1: Formulate the Trading Strategy	49
Step 2: Translate the Rules into a Definitive Form	49
Step 3: Preliminary Testing	50
Step 4: Optimize the Trading Strategy	51
Step 5: The Walk-Forward Analysis	52
Step 6: Trade the System	53
Step 7: Evaluate Real-Time Performance	54
Step 8: Improving the System	55
CHAPTER 4 The Strategy Development Platform	57
The Scripting Language	58
Diagnostics	59
Reporting	62
Optimization	68
The Objective Function	68
Speed	68
Automation	69
Walk-Forward Analysis	69
Portfolio Analysis	70
In Conclusion	71
CHAPTER 5 The Elements of Strategy Design	73
The Three Principal Components of a Strategy	74
Entry and Exit	74
Risk Management	74
Position Sizing	75

<i>Contents</i>	ix
An Overview of a Typical Trading Strategy	75
A Trade Equals an Entry and an Exit	76
Entry Filters	78
The Management of Risk	79
Trade Risk	80
Strategy Risk	82
Portfolio Risk	84
The Management of Profit	85
The Trailing Stop	85
The Impact of Overnight Change on the Trailing Stop	87
Profit Targets	87
The Impact of Overnight Change on Target Orders	88
Position Sizing	89
Advanced Strategies	91
Summary	92
CHAPTER 6 The Historical Simulation	93
The Essential Reports	94
The Performance Summary	94
The Trade List	94
The Equity Curve	107
Performance by Period	108
The Importance of Accuracy	109
Software Limitations	109
Rounding Issues	109
Phantom Trades	111
Price Orders	112
Realistic Assumptions	113
Price and Trade Slippage	113
Opening Gap Slippage	115
Opening and Closing Range Slippage	116
Slippage Due to Size	117
The Significance of Slippage	117
Limit Moves	118
Major Events and Dates	118
Historical Data	120
Stock Prices	120
Cash Markets	120
Futures Markets	121

The Continuous Contract	124
The Perpetual Contract	124
Adjusted Continuous Contracts	125
The Size of the Test Window	126
Statistical Requirements	127
Sample Size and Statistical Error	127
How Many Trades?	129
Stability	129
Degrees of Freedom	130
Frequency of Trading	131
Types of Markets	132
The Bull Market	132
The Bear Market	134
The Cyclic Market	135
The Congested Market	137
Efficient Markets	137
The Life Cycle of a Trading Strategy	140
Window Size and Model Life	141
CHAPTER 7 Formulation and Specification	145
Formulate the Trading Strategy	145
Specification—Translate the Idea into a Testable Strategy	147
Make a Vague Idea Precise	150
CHAPTER 8 Preliminary Testing	157
Verification of Calculations and Trades	158
Calculations	159
Trading Rules	159
In Summary	164
Theoretical Expectations	164
Preliminary Profitability	166
The Multimarket and Multiperiod Test	169
Selecting the Basket	169
Determining the Length of the Test Period	171
Segmenting the Data	171
The Test	172
The Results of the Test	177

<i>Contents</i>	xi
CHAPTER 9 Search and Judgment	179
Search Methods	180
The Grid Search	181
The Prioritized Step Search	185
Hill Climbing Search Algorithms	188
Multipoint Hill Climbing Search	189
Advanced Search Methods	191
Simulated Annealing	193
Genetic Algorithms	195
Particle Swarm Optimization	197
General Problems with Search Methods	198
The Objective Function	201
A Review of a Variety of Evaluation Methods	203
Multiple Evaluation Types	208
CHAPTER 10 Optimization	211
Optimization Contra Overfitting	213
A Simple Optimization	214
The Optimization Framework	216
The Parameters	216
The Scan Range	218
The Historical Sample	220
The Objective Function	222
The Optimization Evaluation	222
A Multimarket and Multiperiod Optimization	223
The Evaluation of the Optimization	225
The Robust Trading Strategy	225
The Robust Optimization	227
The Statistically Significant Optimization Profile	227
The Distribution of the Optimization Profile	229
The Shape of the Optimization Profile	231
How Does the Strategy Respond to Optimization?	235
Does the Strategy Deserve Further Development?	236
CHAPTER 11 Walk-Forward Analysis	237
Is the Trading Strategy Robust?	238
Robustness and Walk-Forward Efficiency	238
The Cure for Overfitting	239

A More Reliable Measure of Risk and Return	241
Assessing the Impact of Market Changes	241
The Best Parameter Set for Trading	242
The Theory of Relevant Data	243
Peak Performance	243
Statistical Rigor	244
Shifting Markets	245
The Varieties of Market Conditions	245
The Walk-Forward	247
The Role of the Walk-Forward	247
Setting up a Walk-Forward	248
An Example of a Walk-Forward Test	250
The Walk-Forward Analysis	251
The Purpose of the Walk-Forward Analysis	252
An Example of a Walk-Forward Analysis	255
Is the Strategy Robust?	256
What Rate of Profit Should We Expect?	260
What Is the Risk?	261
Walk-Forward Analysis and the Portfolio	261
CHAPTER 12 The Evaluation of Performance	263
The Trading Strategy as an Investment	263
The Dimension of Risk	264
Compare the Strategy to the Alternatives	264
Maximum Drawdown and Trading Risk	265
Maximum Drawdown in Context	267
Maximum Drawdown and the Trader	268
Maximum Run-up and the Trader	269
Trading Capital and Risk	270
Risk Adjusted Return	272
Reward to Risk Ratio	273
Model Efficiency	273
Consistency	276
Patterns of Profit and Loss	277
CHAPTER 13 The Many Faces of Overfitting	281
What Is Overfitting?	282
The Abuse of Hindsight	284

<i>Contents</i>	xiii
The Case of the Overfit Forecasting Model	286
The Case of the Overfit Trading Model	289
The Symptoms of an Overfit Trading Model	290
The Causes of Overfitting	291
Degrees of Freedom	292
Measuring Degrees of Freedom	292
Degrees of Freedom, Sample Size and Startup Overhead	293
Trade Sample Size	295
Optimization Error 1—Overparameterization	296
Optimization Error 2—Overscanning	297
The Big Fish in a Small Pond Syndrome	298
The Walk-Forward Test	298
CHAPTER 14 Trading the Strategy	301
The Mental Aspects of Trading	302
Return on Investment	303
Poor Strategy	303
Market Contraction	303
Unseen Market Conditions	304
Superior Alternatives	305
Maximum Risk	305
Real-time and Evaluation Performance	308
Comparing the Evaluation and Trade Profile	310
Understanding the Test Profile	311
Performance Quirks	313
The Windfall Profit	315
The Losing Run	316
Flat Production	316
In Conclusion	317
Notes	319
Index	323
