

CONTENTS

Introduction ix

A handbook that you can dip into according to your needs, or that you can work through in a more systematic way to improve your organization's performance.

SECTION I Establish strategic priorities 1

By understanding from the outset the sort of knowledge that makes a difference to your organization's performance you can focus limited resources of time and attention on the things that will have the biggest impact in terms of generating value.

CHAPTER 1 | Identifying valuable knowledge 5

CHAPTER 2 | Making a comprehensive assessment of knowledge flows 19

Section II Enable operational effectiveness 35

By connecting well established knowledge-sharing practices with core business activities you can avoid "reinventing the wheel" and do more with less.

CHAPTER 3 | Taking knowledge initiatives to the front line of the organization 39

CHAPTER 4 | Integrating knowledge practices into projects 53

CHAPTER 5 | Working collaboratively in partnerships 65

Section III Stimulate innovation 81

By retaining and developing expertise and understanding how to combine knowledge-based methods and approaches more effectively, you generate more innovation.

CHAPTER 6 | Building knowledge enabled innovation capability 85

CHAPTER 7 | Retaining and developing expertise 101

Section IV Increase learning capacity 117

By creating mechanisms to join up the learning that is happening around the organization, you create the conditions for greater operational effectiveness and stimulate new thinking and innovation.

CHAPTER 8 | Joining up individual and organizational learning 123

CHAPTER 9 | Extracting knowledge value using document management systems 133

CHAPTER 10 | Sustaining effective communities of practice 151

CHAPTER 11 | Learning from external collaborations 163

Section V Become more agile 175

By creating the conditions that help people adapt their knowledge and understanding to the constant turbulence in the outside world, the organization can become more responsive to new challenges.

CHAPTER 12 | Making more knowledgeable decisions 181

CHAPTER 13 | Using social media for knowledge sharing 199

CHAPTER 14 | Transforming relationships and structures in organizations 217

Section VI Make change stick 233

By developing key knowledge-sharing behaviours and using effective communication approaches you show people why a knowledge approach matters and what they need to do themselves to contribute.

CHAPTER 15 | Developing knowledge-sharing behaviours and effective knowledge activists 237

CHAPTER 16 | Moving from hard sell to compelling buy 253

CHAPTER 17 | Improving the quality of conversations 279

CHAPTER 18 | Taking account of national culture in designing knowledge initiatives 293
