<i>Introduction</i>	1
About This Book	2
Conventions Used in This Book.....	2
What You're Not to Read.....	3
Foolish Assumptions.....	3
How This Book Is Organized	4
Part I: Introducing Financial Accounting and Standards	4
Part II: Preparing and Using Financial Statements.....	4
Part III: Homing in on Current and Noncurrent Assets	4
Part IV: Analyzing Debt and Equity.....	5
Part V: Accounting for Advanced Intermediate Issues	5
Part VI: The Part of Tens.....	5
Icons Used in This Book	6
Where to Go from Here.....	6
<i>Part I: Introducing Financial Accounting and Standards</i>	7
Chapter 1: Seeing the Big Picture of Financial Accounting	9
Financial Accounting: Seeing Where It All Began	10
Preparing financial statements	11
Developing financial standards.....	12
Providing results for the users of the financial statements	13
Identifying reporting challenges	14
Getting to Know Key Financial Accounting Players	14
Identifying standard-setting organizations.....	15
Recognizing generally accepted accounting principles.....	17
Explaining Codification	17
Introducing international accounting standards.....	18
Considering Ethical Responsibilities	18
Following the accountant's code of conduct	19
Having integrity.....	19
Maintaining objectivity	20
Achieving independence.....	21
Taking due care.....	21

Chapter 2: Walking Through the Conceptual Framework of Financial Accounting	23
Who Needs a Conceptual Framework?	24
Knowing the Objective	25
Respecting Statement Characteristics	26
Primary	27
Secondary	28
Identifying the Elements of Financial Statements	28
Balance sheet balancing act	29
Income statement elements	31
Statement of cash flows elements	33
Making Assumptions	35
Going-concern principle	35
Economic entity	36
Monetary unit	37
Periodicity	37
Sticking to Your Principles	38
Historic cost	38
Revenue recognition	38
Matching	39
Full disclosure	39
Accepting Financial Accounting Constraints	40
Playing it safe	40
Understanding cost-benefits	40
Following industry practices	41
Chapter 3: Invaluable Valuation	43
Introducing Valuation	43
Explaining Fair Value	44
Techniques for measuring fair value	46
Figuring out highest and best use	46
Participating in the marketplace	47
Modeling Valuation	48
Marketing multiples	48
Discounting cash flows	49
Adjusting replacement cost	49
Joining Forces: The FASB and the IASB	50
Chapter 4: Reviewing the Accounting System	51
The Language of Accounting	51
The accounting equation	52
Familiarizing yourself with accounts	52
Defining debits and credits	54
Looking at financial statement types	54
What's mine is mine: Ownership	55

Analyzing Accounting Cycle Steps	56
The transaction methodology	56
Dear diary: Using accounting journals	57
Posting to ledgers	58
Preparing the Trial Balance	59
Adjusting entries	60
Closing out the books	60
Reversing Entries	61
Working with Worksheets	62

Part II: Preparing and Using Financial Statements 65

Chapter 5: Posting Income Statement Profit and Loss 67

Making a Statement	68
What the information tells you	68
And what it doesn't tell you	68
Everything in Its Right Place: Formatting the Income Statement	69
Battling the elements	70
Recognizing the single-step format	70
Stepping up to the multiple-step format	71
Managing the Misfits: Examining Irregular Items	73
Noting discontinued operations	73
Extraordinary items	74
Understanding unusual gains and losses	75
Factoring in changes in principle	76
Calculating changes in accounting estimates	77
Watching Out for Special Income Statement Items	77
Calculating the allocation for income taxes	78
Reporting earnings per share	78
Figuring retained earnings	79
Studying comprehensive income	80
Arriving at the Final Product	81

**Chapter 6: Reporting Assets and Claims:
Keeping Your Balance (Sheet) 83**

Classifying the Balance Sheet	84
Counting Your Assets	85
Current	85
Noncurrent	86
Reporting Debt and Other Liabilities	86
Current	87
Noncurrent	88

Reporting Equity.....	88
Single owner	89
Partnership	90
Corporation	91
Studying Advanced Balance Sheet Issues	93
Keeping track of contingencies.....	93
Walking through accounting policies.....	94
Keeping it legal.....	94
Valuing accounts fairly.....	95
Balance Sheet Disclosure Issues.....	96
Seeing Sections of the Balance Sheet.....	97

Chapter 7: Follow the Money! Studying Cash Flow 101

Understanding the Purpose of the Statement of Cash Flows	102
Formatting the Cash Flow Sections	103
Figuring cash operation results	103
Showing cash investing transactions.....	104
Accounting for financing activities.....	105
Recognizing Methods for Preparing the Statement of Cash Flows	106
Using the direct method	107
Starting indirectly with net income.....	109
Using the Statement of Cash Flows	110
Figuring financial liquidity.....	110
Analyzing financial flexibility.....	111
Showing free cash flow.....	112
A Sample Statement of Cash Flows	113

Chapter 8: Time Is Money: Looking at the Time Value of Money . . . 115

Taking an Interest in Interest.....	115
Applying Earning Concepts.....	116
Simple interest	117
Compound interest.....	117
Calculating Single Sums	118
Future value of a single sum.....	119
Future value of a single sum.....	120
Calculating Annuities	120
Annui-whaties?	121
Future value of an annuity.....	121
Present value of an annuity.....	122
More Complex Annuities	124
What happens to an annuity deferred?.....	124
Long-term bond valuation	125

**Part III: Homing in on Current
and Noncurrent Assets 127**

Chapter 9: Assessing Cash and Receivables 129

Keep Your Eye on the Money: Managing Cash	130
Recognizing different cash accounts.....	130
Walking through cash equivalents	131
Controlling cash.....	132
Recording and Valuing Accounts Receivable	133
The origin of accounts receivable	133
Discounting customer balances.....	134
Estimating uncollectible accounts.....	135
Recognizing Notes Receivable.....	137
Issuing at face value	138
Issuing at other than face value.....	138
Valuing notes on the balance sheet.....	142
Disposing of Receivables.....	143

Chapter 10: Inventory Cost Flow Assumptions 145

Looking into Inventory Management	146
Controlling inventory	146
Recognizing different inventoried goods.....	147
Walking through inventory costs	149
Discovering Inventory Carrying Valuation Methods	150
Specific identification.....	151
Weighted average	151
First in, first out (FIFO).....	152
Last in, first out	154
Handling Special LIFO Issues	155
The pros and cons of LIFO.....	155
LIFO reserves.....	156
LIFO Liquidation.....	156
Using Lower of Cost or Market	157
The difference between cost and market value.....	157
Different application methods	158
Estimating Inventory	159
Using the gross profit method	159
Evaluating the gross profit method.....	160
Retailing inventory	160
Getting up to speed with the retail inventory method	161
Watching for falling — and rising — prices!.....	162
Using perpetual and periodic inventory methods.....	164
Disposing of obsolete inventory	165

Chapter 11: Buying and Selling Property, Plant, and Equipment (PP&E)	167
Defining Types of Property, Plant, and Equipment	168
Land	168
Buildings	169
Equipment	169
Self-constructed assets	170
Valuing PP&E	172
Deferring a payment	173
Issuing stock	174
Buying in bulk: Lumping purchases	175
Exchanging assets	175
Assigning Costs to PP&E	177
Capitalizing costs	178
Recording repairs and maintenance expenses	178
Improving and replacing PP&E	179
Reinstalling equipment	180
Selling and Other Dispositions of Plant Assets	180
Recording sales	181
Dealing with involuntary conversions	181
Chapter 12: Recognizing Depreciation, Impairments, and Depletion	183
Understanding How Depreciation Affects All Financial Statements	184
Distinguishing Costs and Expenses: What's the Difference?	184
Choosing Among Depreciation Methods	186
Walking the straight-line method	187
Accelerating by using the declining-balance method	187
Using the units-of-production method	188
Calculating sum-of-the-years' digits	188
Understanding special depreciation issues	189
Impairing Assets	190
Recognizing impairments	191
Walking through the recovery test	192
Measuring impairments	192
Restoring impairment loss	193
Explaining Depletion	194
Understanding which assets can be depleted	194
Figuring your base for depletion	194
Using salvage value and recoverable units	195
Chapter 13: Keeping Track of Other Noncurrent Assets	197
Can't Touch This: Investigating Intangible Assets	198
Identifying types of intangibles	198
Accounting for goodwill	201

Valuing Intangibles 202
 Writing off intangibles with amortization 202
 Impairing intangible assets 204
 Handling the Costs of Research and Development (R&D) 205
 Identifying R&D 205
 Valuing R&D 206

Part IV: Analyzing Debt and Equity 207

Chapter 14: Tracking Current Liabilities and Contingencies 209

Getting Up to Speed with Current Liabilities 210
 Understanding accounts payable (A/P) 210
 Getting down to business with notes payable (N/P) 212
 Accounting for the current portion of long-term debt 213
 Paying dividends 213
 Returning advances and deposits 213
 Earning revenue 214
 Paying sales and income tax 215
 Taking care of employees 217
 Planning for Future Events 219
 Understanding Contingencies 220
 Gain contingencies 220
 Loss contingencies 220

Chapter 15: Planning for Long-Term Obligations 227

Managing Long-Term Debt 228
 The many faces of notes payable 228
 Treasury bonds defined 232
 The dark side of debt-free 233
 Accounting for Bonds, James Bonds 234
 Valuing bonds payable 235
 Issuing at par value 236
 Accounting for discounted bonds 237
 Recording bonds issued at a premium 238

**Chapter 16: Letting Owners Know Where They Stand:
 The Equity Section 241**

Recording Stockholder Interest 242
 Distinguishing Between Different Types of Ownership 243
 Common stock 243
 Preferred stock 243
 Paid-in capital 245
 Retained earnings 246

Spotting Reductions to Stockholders' Equity	247
Paying dividends	247
Buying treasury stock	251
Computing Earnings per Share	253
Simple capital structure	253
Complex capital structure	254

***Part V: Accounting for Advanced Intermediate Issues* 257**

Chapter 17: Accounting for Income Taxes 259

Reviewing Income Tax Reporting	260
Identifying financial income versus taxable income	260
Understanding temporary differences	263
Reviewing permanent differences	265
Explaining tax deferrals	267
Taking Advantage of Net Operating Losses	267
Identifying loss carrybacks	268
Understanding loss carryforwards	269
Checking Out Interperiod Tax Allocation	270
The asset-liability method	271
Looking at interperiod tax allocation using the asset-liability method	272
Warming Up for Financial Statement Preparation	273
Reporting on the income statement	273
Showing the effect on the balance sheet	274
The Big Reveal: Income Tax Disclosure	275

Chapter 18: Accounting for Leases 277

Reviewing Lease Basics	277
Identifying leasing advantages	279
Understanding the nature of leases	280
Accounting for the Lessee	282
Reviewing operating leases	282
Walking through capital leases	283
Understanding financial statement presentation	285
Accounting for the Lessor	289
Identifying classification of leases	289
Understanding operating leases	289
Talking about direct-financing leases	290
Reviewing sales-type leases	292
Understanding financial statement presentation	292
Working Through Advanced Leasing Topics	293
Figuring out residual value	293
Accounting for sales-type leases	293

Chapter 19: Fessing Up: Correcting Errors and Reporting Changes in Methods	295
Change Is Good (Even for Accounting Methods)	296
Reporting Changes in Accounting Principles	297
Reporting changes currently	298
Understanding retrospective-effect accounting changes	298
Using prospective effect for accounting changes	299
Changes in Estimates	300
Reviewing estimates	301
Handling changes prospectively	303
Understanding Changes in Reporting Entities	305
Mea Culpa: Analyzing Errors	306
Reviewing types of errors	307
Righting the wrong	308
Take two: Statement restatement	309
Walking through correction of errors	309
Chapter 20: Is That You, Revenue? Revenue Recognition Concepts.	313
Reviewing Guidelines for Recognition	313
Point-of-Sale/Delivery Revenue	315
Reporting sales discounts	315
Returning sales	316
Understanding buyback agreements	317
Loading and channel stuffing	318
Contracting Methods	319
Percentage-of-completion method	320
Completed-contract method	321
Delaying Revenue Recognition	322
Handling the installment method	323
Recording the cost-recovery method	324
Reviewing Franchise Sales Transactions	325
The Full Monty: Revenue Disclosure	326
Part VI: The Part of Tens	327
Chapter 21: Ten Common Notes to the Financial Statements	329
Showing the Basis for Presentation	330
Advising on Significant Accounting Policies	331
Depreciating Assets	331
Valuing Inventory	332
Disclosing Subsequent Events	332
Explaining Intangibles	333
Consolidating Financial Statements	334

Spelling out Employee Benefits	334
Revealing Contingencies.....	335
Reporting Debt.....	335
Chapter 22: Ten Ratios for Financial Statement Analysis.	337
Current Ratio.....	338
The Electric Ratio Acid Test	338
Asset Turnover	339
Inventory Turnover	339
Accounts Receivable Turnover	340
Return on Assets (ROA).....	340
Return on Equity (ROE).....	341
Profit Margin on Sales.....	341
Debt to Equity	342
Book Value Per Share.....	342
Index	343
