Preface xi

Contributors xiii

Biographies xvii

Acknowledgments xxvii

Abbreviations xxix

1. Challenges of Combat Modeling and Distributed Simulation 1

Andreas Tolk

Part I Foundations

2. Applicable Codes of Ethics 25

Andreas Tolk

3. The NATO Code of Best Practice for Command and Control Assessment 33

Andreas Tolk

4. Terms and Application Domains 55

Andreas Tolk

5. Scenario Elements 79

Andreas Tolk

Part II Combat Modeling

6. Modeling the Environment	95
<i>Andreas Tolk</i>	
7. Modeling Movement	113
<i>Andreas Tolk</i>	
8. Modeling Sensing	127
<i>Andreas Tolk</i>	
9. Modeling Effects	145
<i>Andreas Tolk</i>	
10. Modeling Communications, Command, and Control	171
<i>Andreas Tolk</i>	
Part III Distributed Simulation	
11. Challenges of Distributed Simulation	187
<i>Andreas Tolk</i>	
12. Standards for Distributed Simulation	209
<i>Andreas Tolk</i>	
13. Modeling and Simulation Development and Preparation Processes	243
<i>Andreas Tolk</i>	
14. Verification and Validation	263
<i>Andreas Tolk</i>	
15. Integration of M&S Solutions into the Operational Environment	295
<i>Andreas Tolk</i>	
Part IV Advanced Topics	
16. History of Combat Modeling and Distributed Simulation	331
<i>Margaret L. Loper and Charles Turnitsa</i>	

17. Serious Games, Virtual Worlds, and Interactive Digital Worlds	357
<i>Roger D. Smith</i>	
18. Mathematical Applications for Combat Modeling	385
<i>Patrick T. Hester and Andrew Collins</i>	
19. Combat Modeling with the High Level Architecture and Base Object Models	413
<i>Mikel D. Petty and Paul Gustavson</i>	
20. The Test and Training Enabling Architecture (TENA)	449
<i>Edward T. Powell and J. Russell Noseworthy</i>	
21. Combat Modeling using the DEVS Formalism	479
<i>Tag Gon Kim and Il-Chul Moon</i>	
22. GIS Data for Combat Modeling	511
<i>David Lashlee, Joe Bricio, Robert Holcomb, and William T. Richards</i>	
23. Modeling Tactical Data Links	537
<i>Joe Sorroche</i>	
24. Standards-Based Combat Simulation Initialization using the Military Scenario Definition Language (MSDL)	579
<i>Robert L. Wittman Jr</i>	
25. Multi-Resolution Combat Modeling	607
<i>Mikel D. Petty, Robert W. Franceschini, and James Panagos</i>	
26. New Challenges: Human, Social, Cultural, and Behavioral Modeling	641
<i>S. K. Numrich and P. M. Picucci</i>	
27. Agent Directed Simulation for Combat Modeling and Distributed Simulation	669
<i>Gnana K. Bharathy, Levent Yilmaz, and Andreas Tolk</i>	

28. Uncertainty Representation and Reasoning for Combat Models 715

*Paulo C. G. Costa, Heber Herencia-Zapana, and
Kathryn Laskey*

29. Model-Based Data Engineering for Distributed Simulations 747

Saikou Y. Diallo

30. Federated Simulation for System of Systems Engineering 765

Robert H. Kewley and Marc Wood

**31. The Role of Architecture Frameworks in Simulation Models:
The Human View Approach 811**

Holly A. H. Handley

32. Multinational Computer Assisted Exercises 825

Erdal Cayirci

Annex 1: M&S Organizations/Associations 841

Salim Chemlal and Tuncer Ören

Annex 2: Military Simulation Systems 851

José J. Padilla

Index 869
