Introduction: The Improvement Guide, Second Edition 01

---

## **PART ONE: INTRODUCTION TO IMPROVEMENT 13**

Chapter One: Changes That Result in Improvement 15

Principles of Improvement 15

The Model for Improvement 23

Key Points from Chapter One 25

Chapter Two: Skills to Support Improvement 27

Supporting Change with Data 28

Developing a Change 35

Testing a Change 41

Implementing a Change	43
Spreading Improvements	44
The Human Side of Change	45
Key Points from Chapter Two	46
<b>Chapter Three: Improvement Case Studies</b>	<b>49</b>
Case Study 1: Improving the Morning Meeting	49
Case Study 2: Improving Service in a Dental Office	54
Case Study 3: Improving Methods for Teaching Biology	60
Case Study 4: Contamination in Shipping Drums	63
Case Study 5: Reducing Energy Use in School	66
Key Points from Chapter Three	71

---

## **PART TWO: METHODS FOR IMPROVEMENT 73**

<b>Chapter Four: The Science of Improvement</b>	<b>75</b>
Profound Knowledge	76
Milestones in the Development of Profound Knowledge	85
Key Points from Chapter Four	88
<b>Chapter Five: Using the Model for Improvement</b>	<b>89</b>
What Are We Trying to Accomplish?	89
How Will We Know That a Change Is an Improvement?	93
What Changes Can We Make That Will Result in Improvement?	96
The Plan-Do-Study-Act Cycle	97
Using the Cycle to Build Knowledge	100
Key Points from Chapter Five	106
<b>Chapter Six: Developing a Change</b>	<b>109</b>
Some Typical Problems in Developing Changes	110
Reactive Versus Fundamental Change	111
Theory for Change	116

Methods for Developing Fundamental Change	120
Key Points from Chapter Six	136
<b>Chapter Seven: Testing a Change</b>	<b>139</b>
Applying the Science of Improvement to Testing	140
Principles for Testing a Change	144
Designs for Testing a Change	153
Strategies for Testing	168
Key Points from Chapter Seven	170
<b>Chapter Eight: Implementing a Change</b>	<b>173</b>
Testing a Change	174
Implementing a Change	174
Implementation as a Series of Cycles	175
Implementing Changes to Achieve and Maintain Improvement	179
The Social Aspects of Implementing a Change	186
Key Points from Chapter Eight	193
<b>Chapter Nine: Spreading Improvements</b>	<b>195</b>
A Framework for Spread	196
Phase for Organizational Readiness for Spread	197
Phase for Developing an Initial Spread Plan	205
Phase for Executing and Refining the Spread Plan	210
Key Points from Chapter Nine	216
<b>Chapter Ten: Integrating Methods for the Improvement of Value</b>	<b>217</b>
Eliminating Quality Problems	218
Reducing Costs While Maintaining or Improving Quality	224
Expanding the Expectations of Customers to Increase Demand	230
Developing an Environment Conducive to the Improvement of Value	235
Key Points from Chapter Ten	236

Chapter Eleven: Improving Large or Complex Systems	237
Project Setup and Management	239
Understanding the System and Developing High-Impact Changes	243
Testing and Learning Systems	250
Key Points from Chapter Eleven	262
Chapter Twelve: Case Studies of Improvement Efforts	263
Case Study 1: Reducing the Occurrence of No-Fault-Found Components	264
Case Study 2: Improving the Drill Process	269
Case Study 3: Reducing Infection and Mortality Rates in a Pediatric Intensive Care Unit	276
Case Study 4: Improving Safety at a Manufacturing Plant	285
Case Study 5: Improving the Credentialing Process at CareOregon	291
Case Study 6: Improving Sales at a Specialty Chemical Company	292
Key Points from Chapter Twelve	305

---

**PART THREE: IMPROVING VALUE AS A BUSINESS STRATEGY 307**

Chapter Thirteen: Making the Improvement of Value a Business Strategy	309
Building the System of Improvement	312
Key Points from Chapter Thirteen	328
Chapter Fourteen: Developing Improvement Capability	331
Developing Improvement Capability in the Workforce	333
Organization to Support the Focus on Improvement	340
Development of Other Capabilities	343
Key Points from Chapter Fourteen	346
Sample Agendas for Getting Started, Sponsors, and Improvement Advisors	348
Development of Internal Improvement Advisors: Topical Agenda	352

---

**APPENDIXES 355**

Appendix A: A Resource Guide to Change Concepts	357
How to Use Change Concepts	358
The Change Concepts	363
Appendix B: Tools and Methods to Support Improvement	409
Methods and Tools for Viewing Systems and Processes	410
Methods and Tools for Gathering Information	417
Methods and Tools for Organizing Information	423
Methods and Tools for Understanding Variation	433
Methods and Tools for Understanding Relationships	440
Methods and Tools for Project Management	442
Standard Forms for Improvement Projects	445
Appendix C: The Model for Improvement and Other Roadmaps	453
Fundamental Questions for Improvement	454
Alternative Roadmaps for Improvement Projects	456
Summary	464
Notes	465
Index	479
