<i>Introduction</i>	1
About This Book	1
Foolish Assumptions	2
How This Book Is Organised	3
Part I: How ITIL Can Help You	3
Part II: Getting to Grips with the Service Lifecycle and the Processes	3
Part III: Getting Practical	3
Part IV: The Part of Tens	4
Part V: Appendixes	4
Icons Used in This Book	4
Where to Go from Here	5
<i>Part 1: How ITIL Can Help You</i>	7
Chapter 1: Managing IT Services: Welcome to the World of ITIL	9
Defining Some Basic Terms	10
Equating Service Management with Customer Service	11
Seeing why IT service users complain	11
Understanding the IT provider's point of view	12
Why can't customers and IT just talk to each other?	12
Improving IT services	13
Understanding ITIL: Best Practice Guidance	13
Piecing Together the Jigsaw: The Content of ITIL	15
Debunking Some Common Misconceptions about ITIL	16
Treating ITIL as training only	16
Misinterpreting ITIL	16
Thinking ITIL is for the service desk and support staff only	17
Believing that processes introduce unnecessary bureaucracy	17
Assuming that ITIL uses a lot of time, staff and money	17
Taking the ITIL Qualifications	18
Chapter 2: Using the Building Blocks of ITIL	19
Defining Services	19
Understanding IT Service Management	21
Understanding Who Provides the IT Services	22

- Knowing the IT Service Management Stakeholders 23
 - The user 23
 - The customer 24
 - The supplier 24
- Creating Value..... 25
 - Considering utility 25
 - Weighing up warranty 26
- Having the Right Assets 27
 - Resources 27
 - Capabilities 28
 - Using your assets..... 29
- Exploring Processes, Functions and Roles..... 30
 - Understanding processes 30
 - Understanding functions 31
 - Understanding roles 32
 - Using processes, functions and roles in service management 32
- Who Does What? Looking at Some Important Roles..... 32
 - The service owner 33
 - The process owner 34
 - The process manager 34
 - The process practitioner 35
- Understanding Governance..... 35

Chapter 3: Outlining the Structure of ITIL 37

- Getting to Know the Service Lifecycle 37
 - Introducing service strategy 39
 - Considering service design..... 41
 - Looking at service transition..... 42
 - Moving on to service operation 43
 - Maintaining success with continual service improvement 44
 - Applying the service lifecycle to IT projects..... 45
- So Who Actually Carries Out ITIL Activities? 46
 - Understanding the Functions 46
- Dealing with the Users: The Service Desk 49
 - Knowing what the service desk does 50
 - Choosing a service desk structure 51
 - Getting the right service desk staff..... 53
- Managing the Day-to-day Stuff: IT Operations Management..... 54
 - Considering teams and skills..... 55
 - Looking at typical activities..... 55
- Managing the Technology 56
 - Considering teams and skills..... 56
 - Looking at typical activities..... 57
- Managing the Applications 58
 - Considering teams and skills..... 59
 - Looking at typical activities..... 59

Part II: Getting to Grips with the Service Lifecycle and the Processes..... 61

Chapter 4: Thinking It Through: Service Strategy 63

Understanding Strategy	64
Understanding the Purpose of the Service Strategy Stage.....	65
Understanding Some Basic Principles	66
The value proposition	66
Understanding what the customer wants.....	67
Service providers.....	67
Overview of the Service Strategy Processes.....	68
Knowing Your Services: Service Portfolio Management	69
Defining some service portfolio management terms	69
Looking at the activities of service portfolio management	75
Managing Your Finances: Financial Management for IT Services	78
Creating a cost model.....	79
Creating a business case.....	81
Looking at the activities of financial management for IT services	82
Identifying the Demand: Demand Management.....	83
Defining some demand management terms	84
Looking at the activities of demand management.....	86
Getting Friendly with Your Customers:	
Business Relationship Management.....	88
Explaining the terminology.....	89
The activities of business relationship management.....	90
Using Technology for Service Strategy.....	92
Technology to support the service strategy activities	92
Automation	93

**Chapter 5: Are We All Agreed? Service Design Part 1:
The Relationship Management Processes 95**

Understanding the Purpose of the Service Design Lifecycle Stage.....	96
Understanding Some Basic Principles	96
Keeping in mind the four Ps of service design.....	96
Knowing the five aspects of service design.....	97
Creating a service design package.....	97
Managing Service Levels: Service Level Management	98
Defining some service level management terms.....	98
Looking at the activities of service level management	103
Keeping Information about the Live Services:	
Service Catalogue Management	107
Defining the service catalogue	107
Looking at the activities of service catalogue management	110

Getting Friendly with Third-party Suppliers: Supplier Management	110
Defining some supplier management terms	112
Looking at the activities of supplier management	113
Design Coordination.....	115
Identifying Service Design Roles.....	116

Chapter 6: Designing Services to Be Fit for Use:

Service Design Part 2: The Warranty Processes 117

Making Sure the Service Is Available: Availability Management	118
Seeing the process in action.....	119
Defining some availability management terms	120
Improving availability.....	121
Looking at the activities of availability management.....	121
Have We Got Enough? Capacity Management	123
Defining some capacity management terms	125
Understanding capacity management sub-processes	126
Looking at the activities of capacity management	127
Being Prepared for Anything: IT Service Continuity Management	128
Defining some IT service continuity management terms	129
Looking at the activities of IT service continuity management...	130
Ensuring Security: Information Security Management	131
Defining some information security management terms.....	133
Looking at the activities of information security management ...	136
Identifying Service Design Roles.....	137

Chapter 7: Getting Physical: Service Transition 139

Understanding the Purpose of the Service Transition Lifecycle Phase ...	139
Looking at an Overview of the Service Transition Processes.....	140
Controlling Change: Change Management	141
Defining some change management terms	142
Deciding the scope of your change management process	144
Looking at the activities of change management	144
Knowing What You've Got: Service Asset and Configuration Management	148
Understanding the asset and configuration aspects.....	148
Defining some service asset and configuration management terms	149
Looking at the activities of SACM.....	151
Getting the Release Out There: Release and Deployment Management	154
Defining some release and deployment management terms	155
Looking at the activities of release and deployment management.....	158
Making Better Decisions: Knowledge Management	160
Defining some knowledge management terms.....	161
Looking at the activities.....	162
Transition Planning and Support	163
Identifying Service Transition Roles	164

Chapter 8: Making Services Work Every Day: Service Operation . .167

Understanding the Purpose of the Service Operation	
Lifecycle Stage.....	168
Understanding Some Basic Principles	169
Getting the balance right	169
Communicating well.....	170
Listening to the Technology: Event Management	170
Defining some event management terminology.....	171
Looking at the activities of event management	172
Stuff Happens: Incident Management	174
Balancing incident management and problem management	174
Defining some incident management terms	175
Looking at the activities of incident management.....	176
Dealing with Those Strange Things the User Asks for:	
Request Fulfilment	179
Defining some request fulfilment terms	181
Looking at the activities of request fulfilment	182
Allowing the Right People to Use Your Services: Access Management ..	183
Defining some access management terms.....	183
Looking at the activities of access management	185
Getting to the Bottom of an Issue: Problem Management	186
Defining some problem management terms.....	186
Looking at the problem management activities	189
Identifying Service Operation Roles.....	191
Service desk roles	192
Incident management, request fulfilment and access management roles.....	192
Problem management roles.....	193
Event management roles.....	193

Chapter 9: Striving to Do Better: Continual Service Improvement . .195

Understanding the Purpose of the CSI Lifecycle Stage.....	196
Understanding Some Basic Principles	197
Looking at the activities.....	197
Creating a business case for improvement	199
Identifying baselines.....	200
Keeping a register of improvements	201
Knowing Where to Start.....	201
The Deming Cycle	201
The CSI approach.....	202
Measuring, Measuring, Measuring	204
Identifying what to measure.....	204
Deciding what to measure and how	205
Working out how to use measurements	206
Understanding the seven-step improvement process	207
Linking Governance and CSI.....	210
Getting to Grips with Risk.....	210
Identifying CSI Roles.....	212

***Part III: Getting Practical*..... 215**

Chapter 10: Implementing ITIL217

Planning to Implement ITIL	218
Seeing how projects fit with implementing ITIL	218
Using the service lifecycle to implement the ITIL processes.....	219
Creating a Plan for Your Implementation Project	220
Using the CSI approach.....	221
Grouping ITIL processes for implementation	222
Implementing the service lifecycle.....	224
Assessing the maturity of processes.....	225
Deciding which processes and in what order	226
Designing Your Processes	227
Knowing what to adopt and what to adapt	227
Allocating roles and responsibilities and using the RACI matrix	228
Following an Example Implementation Project	232
The scenario	232
The planning phase	233
The design phase	234
Dealing with the People Stuff: Organisational Change.....	241
Planning to involve people	242
Identifying stakeholders	243
Communicating effectively	243

Chapter 11: Getting Carried Away: Using Service Management as a Strategic Asset 245

Defining a Strategic Asset	246
Creating a Strategy for Your Services: Strategy Management for IT Services.....	246
Carrying out a strategic assessment	247
Generating strategy	248
Executing strategy	249
Defining Services	251
Step 1: Defining the market and identifying customers	251
Step 2: Understanding the customer	252
Step 3: Quantifying the outcomes.....	252
Step 4: Classifying and visualising the service.....	253
Step 5: Understanding the opportunities (market spaces)	254
Step 6: Defining services based on outcomes	254
Step 7: Defining service models	254
Step 8: Defining service units and packages.....	255
Working through Examples	255
Internal provider example	255
External provider example	257
Using Service Portfolio Management to Implement Your Strategy.....	259
Have you already got a suitable service?	259
Using the activities of service portfolio management.....	260
Getting to Grips with Demand Management.....	260

Chapter 12: Going Back to the Drawing Board: Design Projects . . .265

Seeing What Happens in a Service Design Project	265
Gathering and analysing requirements	266
Designing solutions	267
Bringing Together ITIL and Service Design Projects	270
Following the design process	270
Coordinating the design processes	272
ITIL and requirements	273
ITIL and design	274
Looking at an Example of a Service Design Project	277

Chapter 13: Organising the Troops: Transition Projects281

Introducing Service Transition Projects	281
Seeing What Happens in a Service Transition Project	283
Getting started	283
Building services	283
Testing the service	285
Implementing the service	287
Bringing Together ITIL and Service Transition Projects	288
Service validation and testing	288
Change evaluation	290
Linking the service transition processes	291
ITIL and build, test and implement	292
Finishing off the projects: business acceptance and sign-off	295
Looking at an Example of a Service Transition Project	296

Part IV: The Part of Tens **301****Chapter 14: Ten Ways to Help ITIL Work for You303**

Detailing Your Vision for ITIL	303
Having a Plan	304
Doing Your Homework: Building a Good Business Case	304
Involving People	305
Getting the Right People Involved	305
Communicating	306
Documenting	306
Training	307
Being Pragmatic	308
Persevering When Something Doesn't Go as Planned	308

Chapter 15: Ten Key Bits of ITIL: Some Possible Quick Wins309

Implementing Basic Service Level Management	309
Introducing a Service Level Agreement	310
Creating an Operational Level Agreement	311
Setting Up a Service Desk	312
Cataloguing Services	312

Establishing Some Basic Change Control.....	313
Knowing the Difference between Incidents and Problems	313
Measuring Your Achievements.....	314
Gathering Tools	314
Getting Your Staff ITIL Trained.....	315
Chapter 16: Ten Places to Go for Help	317
Your Colleagues.....	317
The Internet.....	318
Cabinet Office.....	319
APM Group	319
Examination Institutes	320
ITIL Live	320
IT Service Management Forum (ITSMF)	321
ISO/IEC 20000	321
Complementary Approaches	321
SFIA.....	322
Part V: Appendixes	323
Appendix A: Getting Qualified in ITIL	325
Looking at the ITIL Qualification Structure.....	325
Foundation.....	326
Intermediate	327
Expert	329
Master.....	330
Examining the Exams	330
Knowing Where to Attend Courses and Sit Exams.....	331
Appendix B: Glossary	333
Appendix C: Cross Referencing Processes.....	349
Index.....	355
