

Contents at a Glance

Introduction	1
Part I: Understanding Agile.....	7
Chapter 1: Modernizing Project Management.....	9
Chapter 2: The Agile Manifesto and Principles.....	19
Chapter 3: Why Agile Works Better.....	43
Part II: Being Agile	61
Chapter 4: Agile Frameworks	63
Chapter 5: Putting Agile into Action: The Environment	77
Chapter 6: Putting Agile into Action: The Behaviors	87
Part III: Working in Agile.....	107
Chapter 7: Defining the Product Vision and Product Roadmap	109
Chapter 8: Planning Releases and Sprints	127
Chapter 9: Working Through the Day	151
Chapter 10: Showcasing Work and Incorporating Feedback	169
Chapter 11: Preparing for Release.....	179
Part IV: Managing in Agile.....	185
Chapter 12: Managing Scope and Procurement.....	187
Chapter 13: Managing Time and Cost	207
Chapter 14: Managing Team Dynamics and Communication	227
Chapter 15: Managing Quality and Risk.....	251
Part V: Ensuring Agile Success	275
Chapter 16: Building a Foundation	277
Chapter 17: Being a Change Agent.....	289
Part VI: The Part of Tens	307
Chapter 18: Ten Key Benefits of Agile Project Management	309
Chapter 19: Ten Key Metrics for Agile Project Management	317
Chapter 20: Ten Key Resources for Agile Project Management	327
Index	331

<i>Introduction</i>	1
About This Book	1
Foolish Assumptions	1
Conventions Used in This Book	2
How This Book Is Organized	3
Part I: Understanding Agile	3
Part II: Being Agile	3
Part III: Working in Agile	3
Part IV: Managing in Agile	3
Part V: Ensuring Agile Success	4
Part VI: The Part of Tens	4
Icons Used in This Book	4
Where to Go from Here	5
<i>Part 1: Understanding Agile</i>	7
Chapter 1: Modernizing Project Management	9
Project Management Needed Makeover	9
The origins of modern project management	10
The problem with the status quo	11
Introducing Agile Project Management	13
How agile projects work	15
Why agile projects work better	17
Chapter 2: The Agile Manifesto and Principles	19
Understanding the Agile Manifesto	19
Outlining the Four Values of the Agile Manifesto	21
Value 1: Individuals and interactions over processes and tools	21
Value 2: Working software over comprehensive documentation	23
Value 3: Customer collaboration over contract negotiation	25
Value 4: Responding to change over following a plan	26

Defining the 12 Agile Principles	27
Agile principles of customer satisfaction	28
Agile principles of quality	31
Agile principles of teamwork	32
Agile principles of project management	34
Adding the Platinum Principles	37
Resisting formality	37
Thinking and acting as a team	38
Visualizing rather than writing	38
Changes as a Result of Agile	39
The Agile Litmus Test	41
Chapter 3: Why Agile Works Better	43
Evaluating Agile Benefits	43
How Agile Approaches Beat Historical Approaches	47
Greater flexibility and stability	48
Reduced nonproductive tasks	51
Higher quality, delivered faster	53
Improved team performance	53
Tighter project control	55
Faster and less costly failure	55
Why People Like Agile	56
Executives	56
Product development and customers	57
Management	58
Development teams	59
Part 11: Being Agile	61
Chapter 4: Agile Frameworks	63
Diving Under the Umbrella of Agile Approaches	63
Reviewing the Big Three: Lean, Extreme Programming, and Scrum	67
An overview of lean	67
An overview of extreme programming	69
An overview of scrum	70
Putting It All Together	74
Chapter 5: Putting Agile into Action: The Environment	77
Creating the Physical Environment	78
Collocating the team	78
Setting up a dedicated area	79
Removing distractions	80
Going mobile	81

Low-Tech Communicating.....	82
High-Tech Communicating.....	84
Choosing Tools	85
The purpose of the tool	85
Organizational and compatibility constraints	86
Chapter 6: Putting Agile into Action: The Behaviors.....	87
Establishing Agile Roles.....	87
Development team.....	89
Product owner.....	90
Scrum master	92
Stakeholders.....	94
Agile mentor	95
Establishing New Values.....	95
Commitment	96
Focus	97
Openness	98
Respect.....	98
Courage	99
Changing Team Philosophy.....	100
Cross-functionality.....	100
Self-organization.....	102
Self-management.....	103
Size-limited teams.....	104
Mature behavior.....	105
Part III: Working in Agile	107
Chapter 7: Defining the Product Vision and Product Roadmap	109
Planning in Agile	110
Planning as necessary	112
Inspect and adapt	113
Defining the Product Vision	113
Step 1: Developing the product objective	114
Step 2: Creating a draft vision statement.....	115
Step 3: Validating and revising the vision statement	117
Step 4: Finalizing the vision statement.....	118
Creating a Product Roadmap.....	118
Step 1: Identifying product requirements.....	119
Step 2: Arranging product features	121
Step 3: Estimating and ordering the product's features	123
Step 4: Determining high-level time frames.....	126
Saving your work	126

Chapter 8: Planning Releases and Sprints	127
Refining Requirements and Estimates	127
What is a user story?	128
Steps to create a user story	129
Breaking down requirements	133
Estimation poker	134
Affinity estimating	137
Release Planning	138
Completing the product backlog	139
Creating the release plan	141
Sprint Planning	142
The sprint backlog	143
The sprint planning meeting	144
Chapter 9: Working Through the Day	151
Planning the Day: The Daily Scrum	151
Tracking Progress	154
The sprint backlog	154
The task board	158
Agile Roles Within the Sprint	159
Creating Shippable Functionality	161
Elaborating	162
Developing	162
Verifying	163
Identifying roadblocks	164
The End of the Day	167
Chapter 10: Showcasing Work and Incorporating Feedback	169
The Sprint Review	169
Preparing to demonstrate	170
The sprint review meeting	171
Collecting feedback in the sprint review meeting	173
The Sprint Retrospective	174
Planning for retrospectives	175
The retrospective meeting	175
Inspecting and adapting	177
Chapter 11: Preparing for Release	179
Preparing the Product for Deployment: The Release Sprint	179
Preparing the Organization for Product Deployment	182
Preparing the Marketplace for Product Deployment	183

***Part IV: Managing in Agile* 185**

Chapter 12: Managing Scope and Procurement.187

What's Different About Scope in Agile.....	187
How to Manage Scope in Agile.....	190
Understanding scope throughout the project	190
Introducing scope changes.....	192
Managing scope changes	193
Using agile artifacts for scope management	195
What's Different About Procurement in Agile	195
How to Manage Procurement in Agile	197
Determining need and selecting a vendor.....	198
Contracts and cost approaches for services	199
Organizational considerations for procurement.....	202
Working with a vendor.....	204
Closing a contract.....	205

Chapter 13: Managing Time and Cost.207

What's Different About Time in Agile.....	207
How to Manage Time in Agile.....	209
Introducing velocity	209
Monitoring and adjusting velocity.....	210
Managing scope changes from a time perspective	215
Managing time by using multiple teams	216
Using agile artifacts for time management	219
What's Different About Cost in Agile	220
How to Manage Cost in Agile	221
Creating an initial budget.....	222
Creating a self-funding project.....	223
Using velocity to determine long-range costs.....	224
Using agile artifacts for cost management	226

Chapter 14: Managing Team Dynamics and Communication227

What's Different About Team Dynamics in Agile.....	227
How to Manage Team Dynamics in Agile	228
Becoming self-managing and self-organizing.....	229
Supporting the team: The servant-leader	234
Working with a dedicated team	235
Working with a cross-functional team	237
Establishing an agile environment.....	238
Limiting development team size.....	240
Managing projects with dislocated teams.....	241
What's Different About Communication in Agile.....	243
How to Manage Communication in Agile.....	245
Understanding agile communication methods.....	245
Status and progress reporting	248

Chapter 15: Managing Quality and Risk	251
What's Different About Quality in Agile.....	251
How to Manage Quality in Agile.....	254
Quality and the sprint	254
Proactive quality.....	256
Quality through regular inspecting and adapting.....	261
Automated testing	262
What's Different About Risk in Agile.....	264
How to Manage Risk in Agile	266
Reducing risk inherently.....	266
Identifying, prioritizing, and responding to risks	271

Part V: Ensuring Agile Success **275**

Chapter 16: Building a Foundation **277**

Commitment of the Organization and of Individuals.....	277
Organizational commitment.....	278
Individual commitment.....	279
How to get commitment.....	279
Will it be possible to make the transition?.....	280
What is the best timing for moving to agile?.....	281
Choosing the Right Project Team Members	282
The development team	282
The scrum master.....	283
The product owner.....	283
The agile champion	284
The agile mentor	284
The project stakeholders.....	285
Creating an Environment That Works for Agile.....	286
Support Agile Initially and Over Time.....	288

Chapter 17: Being a Change Agent **289**

Making Agile Work in Your Organization	289
Step 1: Conduct an implementation strategy.....	289
Step 2: Establish a transformation team.....	290
Step 3: Build awareness and excitement	290
Step 4: Identify a pilot project.....	291
Step 5: Identify success metrics.....	293
Step 6: Train sufficiently	294
Step 7: Develop a product strategy	295
Step 8: Develop the product roadmap, the product backlog, and estimates.....	295
Step 9: Running your first sprint.....	295
Step 10: Make mistakes, gather feedback, and improve.....	297

Step 11: Mature	297
Step 12: Scale virally	299
Avoiding Pitfalls	299
Questions to Prevent Problems	303

Part VI: The Part of Tens 307

Chapter 18: Ten Key Benefits of Agile Project Management 309

Better Product Quality	309
Higher Customer Satisfaction	310
Higher Team Morale	310
Increased Collaboration and Ownership	311
Customized Team Structures	312
More Relevant Metrics	313
Improved Performance Visibility	314
Increased Project Control	314
Improved Project Predictability	315
Reduced Risk	315

Chapter 19: Ten Key Metrics for Agile Project Management 317

Sprint Goal Success Rates	317
Defects	318
Total Project Duration	319
Time to Market	319
Total Project Cost	320
Return on Investment	320
New Requests Within ROI Budgets	324
Capital Redeployment	324
Satisfaction Surveys	325
Team Member Turnover	326

Chapter 20: Ten Key Resources for Agile Project Management . . . 327

Agile Project Management For Dummies Online Cheat Sheet	327
The Agile Alliance	328
The Scrum Alliance	328
The Project Management Institute Agile Community	328
Agile Leadership Network	329
Scrum Development Yahoo! Group	329
InfoQ	329
Lean Essays	330
What Is Extreme Programming?	330
Platinum Edge	330
