<i>Contributors' Biographies</i>	ix
<i>Table of Cases</i>	xv
<i>Table of Legislation</i>	xvii

Introduction	1
<i>Ian Havercroft, Richard Macrory and Richard Stewart</i>	

Part One: The Scientific and Technical Context

1. Geological Factors in Framing Legislation to Enable and Regulate Storage of Carbon Dioxide Deep in the Ground	7
<i>Stuart Haszeldine</i>	
2. Carbon Capture and Storage—An Equipment Manufacturer's Perspective.....	25
<i>Norman Shilling</i>	

Part Two: Regulating the Capture of CO₂

3. The Legal Framework for Carbon Capture and Storage in Canada.....	39
<i>Henry J Krupa</i>	
4. Legal and Regulatory Challenges of Geological Carbon Capture and Sequestration: US Hurdles to Reducing CO ₂ Emissions.....	67
<i>Les LoBaugh</i>	
5. Treatment of CCS under GHG Regulatory Programmes.....	81
<i>Robert R Nordhaus</i>	
6. The CCS Directive, its Implementation and the Co-financing of CCS and RES Demonstration Projects under the Emissions Trading System (NER 300 Process).....	93
<i>Martina Doppelhammer</i>	

Part Three: Transportation of CO₂—Legal Considerations

7. CO ₂ Transportation in the European Union: Can the Regulation of CO ₂ Pipelines benefit from the Experiences of the Energy Sector?	107
<i>Martha M Roggenkamp and Avelien Haan-Kamminga</i>	

8. Transboundary Chains for Carbon Capture and Storage: Allocation under the Climate Regime between the States Parties of Emissions due to Leakage..... 123
Hans Christian Bugge
9. CO₂ Transportation and Regulation, CCS, and EOR in the United States 135
Lawrence J Wolfe

Part Four: Long-term Storage of CO₂ and the Law

10. Legal Developments for Carbon Capture and Storage under International and Regional Marine Legislation 145
Chiara Armeni
11. The Regulation of Geological Storage of Greenhouse Gases in Australia 159
Meredith Gibbs
12. Long-term Liability for CCS: Some Thoughts about Specific Risks, Multiple Regimes and the EU Directive 179
Chris Clarke
13. Obstacles to Regulation of Carbon Capture and Sequestration by US States: Can They be Overcome?..... 199
J Jared Snyder

Part Five: CCS and Emerging Economies

14. India and Climate Change: Contextualising India's Approach to CCS Technology 211
Lavanya Rajamani
15. China's Emerging Regulatory Framework for Safe and Effective CCS, 2011–15 223
Qiuyan Zhao
16. Accessing Carbon Finance for CCS Projects in Emerging and Developing Economies 233
Paul Zakkour

Part Six: Public Perception and Participation

17. Enabling the Social Shaping of CCS Technology 251
Peta Ashworth and Craig Cormick
18. Regulatory Requirements for Public Engagement around Carbon Dioxide Capture and Storage Demonstrations 265
Sarah M Forbes, Francisco Almendra, Micah S Ziegler and Ruth Greenspan Bell

19. Public Participation in UK CCS Planning and
Consent Procedures277
Meyric Lewis and Ned Westaway

Pulling the Threads Together297
Ian Havercroft and Richard Macrory

Appendix: EU Carbon Capture and Storage Directive 305
