## How to grow your business in unusual places

There's no shortage of capital for those who know where to find it and how to secure it. In this exclusive audio podcast, Benevolent Dictator Michael Feuer pulls the curtain back and reveals what savvy entrepreneurs know: about the unusual places you can find working capital to use to build – and grow – your company.

## How to put lightning back in the bottle again and again

Entrepreneurship often is a lifestyle rather than a job. And that means encore performances. Unlike sports stars trying to regain lost glory, company founders and CEOs have a better chance of pulling off a second hit by following a disciplined, straightforward process that requires mental acumen rather than physical prowess. In this exclusive podcast, Benevolent Dictator Michael Feuer shares his secret sauce for making second, third, or even fourth entrepreneurial ventures successful.
