Preface ix

Acknowledgments x

Chapter 1

Introduction to Building Information Modeling 1

- The History of BIM 3
- Future Trends 6
- Facility Management Systems 10
- Building Owner Objectives 17
- User Experience 20
- Communication 23
- Procurement 24
- Design Guidelines 26
- Construction Process and Costs 28
- Sustainability 31
- Preventive Maintenance 35
- Chapter Summary Key Points 37

Chapter 2

BIM with a Purpose 41

- Architect's BIM 43
- Contractor's BIM 48
- Building Product Manufacturer's BIM 50
- Owner's BIM 65
- Data Standards 75
- The Owner's BIM Requirements Document 79
- Chapter Summary Key Points 114

Chapter 3

BIM—The Paradigm Shift 117

- Historical Paradigm Shifts 124
- Responding to a Paradigm Shift 126
- Organizational Impact of a Paradigm Shift 130
- Cultural Assessment 131
- The Velocity of Technology Adoption 133

Chapter 4

Strategic Planning 139

- Development of a SWOT Analysis for an Owner 140
- The Three Ps 147
- Plan of Action 151
- Chapter Summary Key Points 151

Chapter 5

Tactics 153

- Gap Analysis 153
- The Playbook 159
- Educational Leadership 170
- BIM Content and Specification Library 173
- Chapter Summary Key Points 176

Chapter 6

Execution 177

- “Boiling the Ocean” Approach 178
- Enterprise Approach 179
- Point Solution Approach 179
- Compliance Approach 180
- Chapter Summary Key Points 182

Chapter 7

BIM Analytics for the Enterprise **183**

- Measurement: The Return-on-Investment Model 189
- Establishing Key Performance Indicators 193
- BIM Owner Research 196
- The BIM Champion 201
- Research Methods 202
- Summary of Information 207
- Findings and Conclusions 213
- Chapter Summary Key Points 214

Chapter 8

Summary **217**

- Notes** 221
- Biographies** 223
- Index** 227
