## Future back

- |   |    |
|---|----|
| <b>1 Leonardo da Vinci</b>  | 3  |
| Inspired by his relentless curiosity and perspective, what are the creative talents that enable you to think differently, better and deeper, to create a better future? |    |
| <b>2 Time and space</b>   | 35 |
| Exploring the future world, through time travel and whitespaces to find the best opportunities ... with the spaceships and stardust of <b>Virgin Galactic</b>           |    |
| <b>3 Creative minds</b>   | 44 |
| New thinking for work and life, where ideas are the new currency of success ... as demonstrated by Nintendo's ultimate game designer, <b>Shigeru Miyamoto</b>           |    |
| <b>4 World changing</b>   | 50 |
| Seismic shifts that are transforming your markets, invisible but with immense implications ... like the new vision for India of <b>Aravind Eye Care</b>                 |    |
| <b>5 Whitespaces</b>  | 59 |
| Women and the elderly, genetics and water, networks and 50 billion devices ... the big opportunities that demand the creative animation of <b>Pixar</b>                 |    |

<b>6 Future back</b>	73
Start with the impossible, then work out how to make it possible with more dramatic results ... like Nobel prize-winning entrepreneur <b>Muhammad Yunus</b>	
<b>7 Creativity</b>	81
The extraordinary power of ideas, inspired by jesters and sages to make new connections and possibilities ... with the elegance of <b>Donna Karan</b>	
<b>8 Design</b>	87
The fusion of function and form to give new ideas structure and style ... learning from the 'tae kuk' of the new technology star <b>Samsung</b>	
<b>9 Innovation</b>	91
Making the best ideas happen successfully, and ultimately make life better for people ... with sand dune-running, cyclone-powered <b>James Dyson</b>	
<b>10 Creative genius</b>	102
Welcome to 'the Genius Lab', where inspiration meets perspiration, and how this book can help ... plus the reality distortion field of <b>Steve Jobs</b>	
<b>The ideas factory</b>	
<b>11 Getting started</b>	113
The 'fuzzy front-end' of problems and opportunities, dreams and napkin diagrams ... and the 'grande fromage' of the creative world, <b>Philippe Starck</b>	
<b>12 Seeing things differently</b>	119
Ideas and imagination achieved through different worldviews, and by simply getting out there ... seeing the bigger picture like <b>Tim Berners-Lee</b>	

- 13 Patterns and paradox** 125  
Making sense of the uncertain futures, through pattern recognition and paradox resolution ... where the future is a little robot, the **Honda ASIMO**
- 14 Future scenarios** 133  
Building visions of alternative futures that stretch your vision and sharpen your decision-making ... with rocket scientist to the stars, **Burt Rutan**
- 15 Deep diving** 141  
Immersing yourself in the customer world, through intuition and deep diving to understand more ... like a day in Mumbai with **Ratan Tata**
- 16 Crowdsourcing** 148  
Harnessing the power of people, because many are smarter than few ... creating the wonderful user-generated T-shirts of **Threadless**
- 17 Extremes and parallels** 152  
Finding the deviants and border-crossers, in the margins not the mainstream, and even the Masai Mara ... with the distinctive twist of **Paul Smith**
- 18 Rule-breakers** 157  
Seizing discontinuity and disruption, breaking rules and conventions to do things differently ... oh, and the sheep, sharks and skull of **Damian Hirst**
- 19 Ideation** 163  
Igniting the power of ideas and hypotheses to stretch, challenge and imagine better solutions ... with the enlightened teamwork of **IDEO**
- 20 The ideas toolkit** 170  
Five essential tools to generate better ideas – to stretch thinking from the future back, and bring together ideas from different perspectives

## The design studio

- 21 Design thinking** 179  
Design as a mindset for the creative business, one that creates, shapes and communicates ideas ... like the real man of Apple, **Jonathan Ive**
- 22 Context reframing** 184  
Finding your bigger idea by changing the frame of reference by which ideas are perceived ... like when graffiti becomes artwork with **Banksy**
- 23 Co-creation** 188  
Creativity that unlocks the power of customer 'ubuntu' to develop more relevant solutions ... with the push to pull of **Procter & Gamble**
- 24 Creative partners** 195  
Collaboration that exploits open innovation and ideas exchanges with the spirit of 'Koinonia' ... and the enduring magic of **Disney**
- 25 Experimentation** 201  
Prototypes and simulations, accelerating time to market with 'test learn test' ... and the molecular gastronomy of the world's best restaurant, **El Bulli**
- 26 Concept fusions** 205  
Connecting ideas to create better solutions, and articulating the concepts that will make life better ... inspired by the huge sculptures of **Anish Kapoor**
- 27 Simplicity** 209  
Beauty, say the scientists, is in the simplicity of complexity. And so it is in the real world ... with the eight laws of digital artist **John Maeda**

- 28 Experience design** 213  
Experiences add theatre and passion to products and services, they do more for people ... as Frank Gehry did for the **Guggenheim Bilbao**
- 29 Evaluating concepts** 218  
Which are the winning designs? How to evaluate ideas that have no history and so numbers are not enough ... and the winning formula of **Alessi**
- 30 The design toolkit** 224  
Five essential tools to design better concepts – the practical steps to turn creative ideas into winning concepts

### The impact zone

- 31 Launch pads** 233  
Accelerating new ideas to market, using the diffusion of innovation, whilst ensuring you cross the chasm ... and taste the amazing chocolate pots of **Gü**
- 32 Creative scripts** 239  
Selling ideas through storytelling, learning from the hype and hysteria of Apple launches ... and the 'just do it' advertising of **Wieden & Kennedy**
- 33 Profit models** 243  
Making sure ideas make money through innovative business models and effective pricing strategies ... with the commercial flair of **Giorgio Armani**

- 34 Brand propositions** 249  
Making ideas relevant and distinctive through propositions that focus on the key benefits to customers ... like the sports cars that care, from **Tesla**
- 35 Contagious ideas** 254  
Capturing the memes and viruses that make ideas spread, whilst overcoming the 'hype curve' ... like rockstar with more ideas, **Dave Stewart**
- 36 Market shaping** 258  
Winning in the vortex of fast-changing markets through continuous in-market innovation ... with the relentless persistence of **Zaha Hadid**
- 37 Protecting ideas** 266  
Copyrights, trademarks and patents that become your most valuable assets in a creative world ... and the new entertainment world of **Live Nation**
- 38 Going further** 270  
Reaching out to adjacent markets through licensing and franchising to do more with your creative assets ... like Ed Hardy revolutionary **Christian Audigier**
- 39 Delivering results** 276  
Harnessing the value drivers and performance metrics to ensure that innovation delivers profitable growth ... with the creative rigour of **Whirlpool**
- 40 The impact toolkit** 283  
Five essential tools to ensure that the best ideas have the most impact in their markets ... and to sustain their success over time

## Now forward

- 41 Creative leaders** 291  
 Recreating the Medici effect, the ability to support and connect people and partners for extraordinary results ... and the oriental fashion of **Shanghai Tang**
- 42 Innovation strategy** 299  
 Ensuring that ideas drive profitable growth through alignment of business and innovation ... as demonstrated by 'design for business' at **Lego**
- 43 Creative culture** 306  
 Hotspots and happiness in the innovative organization that embraces change and imagination every day ... recreating 'the spirit of Enzo' at **Ferrari**
- 44 Innovative processes** 313  
 New product development that learns from the stage gates of NASA to become open and networked ... and reinventing innovation at **3M**
- 45 Creative people** 324  
 Visionaries, border crossers and game changers. How to ignite the power of creative people ... and create fireworks like **Cai Guo-Qiang**
- 46 Innovation ventures** 332  
 Ventures and incubators that make ideas happen faster inside and outside your business ... and Silicon Valley's most connected entrepreneur, **Reid Hoffman**
- 47 Creative networks** 338  
 The creativity of people and places and how creative companies come together to create better ideas ... like the InnovationJams of **IBM**

<b>48 Managing innovation</b>	345
Managing the people, projects and portfolios that make the best innovations happen time after time ... and life in the Googleplex with <b>Google</b>	
<b>49 Game changing</b>	353
Creative revolutions and the 'X Prizes' that deliver breakthroughs that normal processes can't ... and the relentless innovator, <b>Niklas Zennström</b>	
<b>50 Now forward</b>	359
So what will you do today? How to make your own ideas happen and find your edge in the changing world ... here's to the crazy ones	
Appendix 1 Creative resources	365
Appendix 2 About the book	369
Index	375
