- Tolerable rate of deviation 3.53–54

ALPHA RISK. *See* incorrect rejection, risk of

ANALYTICAL PROCEDURES

- Classical variables sampling 7.34
- Defined 1.08
- Exclusion from audit sampling 1.08
- Monetary unit sampling 6.49–50
- Nonstatistical sampling case study 5.07–08, 5.10
- Substantive tests of details 4.40–42, 4.56, Table 4-2 at 4.40

"AS OF" DATE, TESTS OF CONTROLS ... 3.13

ASSERTIONS

- Nonstatistical sampling case study 5.07
- Sample design for 4.59

ASSURANCES. *See also* confidence level

- Audit reliability and confidence level 1.27
- Nonstatistical sampling case study 5.08, 5.12
- Sample design for assertions 4.59
- Sampling risk in tests of controls 3.79
- Substantive tests of details 4.72–74
- Tests of controls 3.44–45

ATTEST ENGAGEMENTS, TESTS OF CONTROLS EFFECTIVE DATE 3.10

ATTRIBUTES SAMPLING

- Applications 2.41
- Definition and purpose 2.35–37
- Monetary unit sampling and 4.16, 6.02, 6.09, 6.30
- Statistical sampling tables Appendix A
- Tests of controls 3.65

AUDIT EVIDENCE

- Audit testing as portion of total 2.06
- Classical variables sampling 7.35–39
- Monetary unit sampling 6.49–51
- Multiple sources 1.02
- Projected and factual misstatements 4.79
- Small populations and infrequently operating controls 3.62
- Substantive tests of details 4.03, 4.36
- Sufficient to support projection or proposed adjustment 4.90
- Tests of controls 3.04–05
- Unused/inapplicable documents 3.68
- Walk through, role in garnering preliminary 3.25

AUDIT RISK. *See also* risk of material misstatement

- Classical variables sampling 7.45
- Defined 2.16
- Detection risk 2.16, 4.34–35
- Substantive tests of details 4.39–42, Table 4-2 at 4.40

AUDIT SAMPLING

CHARACTERISTICS 1.01–29

- Audit evidence consideration 1.02
- Best practices 1.03
- Defined 1.04–05
- Excluded procedures 1.06–20
- Generally 1.01–03
- Nonsampling procedures distinguished from 1.21–25
- Precision, defined 1.29
- Reliability or confidence level, defined ... 1.27
- Representative sampling, defined 1.05
- Sampling risk, defined 1.28
- Terminology used in guide 1.26–29

AUDIT SAMPLING PROCESS 2.01–255

- Case studies 5.01–16, 6.53–63, 7.40–48, Appendix F
- Continuing professional education ... 2.45–48
- Differences from sampling in other professions 2.03–06
- Documentation 4.105–108
- Efficiency and appropriateness ... 2.34, 4.43, 5.10
- Establishing guidelines 2.49
- Evaluation standards for statistical and nonstatistical 2.07

AUDIT SAMPLING PROCESS—continued

- Implementation of procedures 2.44–55
- Non-audit sampling compared with 2.03–06
- Nonstatistical sampling. See also nonstatistical audit sampling 2.22–29
- Planning of procedures 2.30–34
- Purpose and nature of 2.02
- Risk, generally. See also nonsampling risk; sampling risk 2.15–21
- Sample selection methods 3.29–36
- Specialists, use of 2.50–51
- Statistical sampling. See also statistical audit sampling 2.22–29
- Substantive tests of details. See substantive tests of details
- Supervision and review 2.52–54
- Types of audit tests. See also tests of controls 2.08–14
- Walk-through role in 3.25–28

AUDIT STRATEGY

- Nonstatistical sampling case study 5.10
- Tests of controls 3.12

AUDIT TESTS

- Account balances and income states 2.42
- Classical variables sampling 7.05, 7.34
- Of controls. See tests of controls
- Dual-purpose tests 2.12–14, 6.10
- Generally 2.08–14
- Nonstatistical sampling case study 5.10
- Sampling risk at level of 4.93–100
- Substantive tests of details. See substantive tests of details
- Variables sampling 2.38–40

AUDITORS

- Professional judgment 1.11, 4.80
- Specialists, use of 2.50–51
- Supervision and review considerations 2.52–54

AUTOMATED CONTROLS

- Tests of controls 1.14
- Tests of IT systems 1.19, 3.27
- Walk-through procedures 3.27

B**BALANCE SHEETS**

- Audit sampling procedures 2.42–43
- Materiality measures 4.57
- Projected misstatement to population 4.81
- Substantive tests of details 4.07

BASIC PRECISION, MONETARY UNIT

SAMPLING 6.39, 6.44, 6.47

BEST PRACTICES

- Audit sampling procedures and planning 2.31
- Haphazard sampling 3.34
- Overreliance risk, multiple controls 3.47

BEST PRACTICES—continued

- Population definition 4.06
- Tests of controls 3.21

BETA RISK. See incorrect acceptance, risk of**BLOCK SAMPLING, TESTS OF**

CONTROLS 3.35–36

C**CHARACTERISTIC OF INTEREST, IN****SUBSTANTIVE TESTS OF**

DETAILS 4.05

CLASS OF TRANSACTIONS

- Audit sampling 1.11
- Defining population 3.07
- Gross margins in sample planning 4.58
- Monetary unit sampling 6.08
- Planning of audit sampling procedures 2.30–32
- Projected misstatement to population 4.81
- Substantive tests of details 4.06–07

CLASSICAL VARIABLES

SAMPLING 7.01–48

- Advantages 7.04
- Allowance for sampling risk Appendix D
- Audit sampling technique 4.16
- Case studies 7.40–48, Appendix F
- Design considerations 7.04, 7.12, 7.14
- Difference approach 7.05, 7.09, 7.13–15, 7.43
- Disadvantages 7.05–06
- Evaluating sample results 7.25–39, Exhibit 7-2 at 7.48
- Generally 7.01–03
- Information requirements 7.14–15
- Mean-per-unit estimation 4.62, 7.08, 7.12–15, 7.43
- Monetary unit sampling distinguished from 6.03–08, 7.04–06, 7.24, 7.27
- Population size estimation 4.62
- Projected misstatement to population 4.84
- Ratio approach 7.10, 7.13–15
- Required information 7.14–15
- Sample results evaluation 7.25–39, 7.48, Exhibit 7-2 at 7.48
- Sample size determination 7.05, 7.16–24, 7.34–35, Exhibit 7-1 at 7.48, Appendix D
- Sampling approach selection 7.11–15
- Statistical approach, choosing 7.03–06
- Stratified sampling 7.12, 7.14
- Types of techniques 7.07–10
- Variation in population consideration 4.30, 7.17–24

COMBINED ATTRIBUTES/VARIABLES

SAMPLING 6.02

 4.102

REVENUE RECOGNITION, NONSTATISTICAL
SAMPLING CASE STUDY 5.03–04**REVIEW, AUDIT SAMPLING**

PROCESS 2.52–54

RISK

- Generally 2.15–21
- Of incorrect acceptance. See incorrect
 acceptance, risk of
 4.43–47
- Nonsampling risk 2.20–21
- Sampling risk. See sampling risk

RISK OF MATERIAL MISSTATEMENT (RMM)

- Audit risk model 4.39–42,
 Table 4-2 at 4.40
- Auditor's objective through understanding of
 entity and its environment, including internal
 control 2.17
- Classical variables sampling 7.20, 7.45
- Control risk 2.35, 3.17, 3.71, 5.05,
 6.54, 7.45
- Incorrect acceptance risk 4.33–38,
 Table 4-2 at 4.40
- Inherent risk 5.05
- Less than 100 percent sampling
 consideration 1.11
- Monetary unit sampling 6.53–54, 6.63
- Nonstatistical sampling case
 study 5.04–05, 5.08, 5.14
- Substantive tests of details ... 4.02–03, 4.75,
 4.88, 4.100
- Tests of controls 3.95
- Tolerable rate of deviation
 determination 3.50
- Untested balances 1.18

S**SAMPLE PLAN PERFORMANCE 3.66–95**

- Documentation 3.96–98
- Evaluating results 3.73–95, 5.12–16
- Gross margins in 4.58
- Inability to examine selected items 3.72
- Population sequence estimation
 errors 3.69–70
- Sequential sampling tables Appendix B
- Stopping test before completion 3.71
- Substantive tests of details ... 4.58, 4.63–76,
 Table 4-4 at 4.63, Table 4-5 at 4.68,
 Table 4-6 at 4.72
- Unused or inapplicable documents 3.68
- Voided documents 3.67

SAMPLE RESULTS EVALUATION

- Classical variables sampling ... 7.25–39, 7.48
- Monetary unit sampling ... 6.32–52, 6.59–63
- Sample planning 5.12–16
- Substantive tests of details ... 4.77–89, 4.92
- Tests of controls 3.73–95

SAMPLE SELECTION METHODS

- Monetary unit sampling ... 6.11–19, 6.56–58
- Projected misstatement to population ... 4.82
- Substantive tests of details 4.17–22
- Tests of controls 3.29–36

SAMPLE SIZE DETERMINATION

- Amount of misstatement in 4.60–61
- Audit risk model and 4.39–40, Table 4-2 at 4.40
- Classical variables sampling 7.05, 7.13, 7.16–24, 7.34–35, 7.44–48, Exhibit 7-1 at 7.48, Appendix D
- Developing guidelines 3.65
- Deviations and extension of 3.82–84
- Effectiveness of controls, testing ... 3.38–47, Table 3-1 at 3.41
- Expected population deviation rate 3.55–58, Table 3-3 at 3.56
- Extended sample size ... 3.82–84, 6.49–51, 6.55, 7.34–35, 7.37
- Fixed sample size approach 3.64, 3.83
- Incorrect rejection issue 4.43–47
- Infrequently operating controls and small populations 3.62–63, Table 3-5 at 3.62
- Limited effect of population size ... 3.60–61, Table 3-4 at 3.60
- Monetary unit sampling 4.68, 6.05, 6.20–31, Table 4-5 at 4.68, Appendix C
- Nonstatistical sampling case study 2.28, 5.08–11
- Overreliance and 3.38–44, 3.46–47, Table 3-1 at 3.41, Table 3-2 at 3.52
- Relating factors for 4.63–74, Table 4-4 at 4.63, Table 4-5 at 4.68, Table 4-6 at 4.72
- Sampling risk 3.38–47, Table 3-1 at 3.41
- Sequential sample size approach 3.64, Appendix B
- Substantive tests of details 4.23–74, Table 4-4 at 4.63, Table 4-5 at 4.68, Table 4-6 at 4.72
- Tests of controls 3.37–65
- Tolerable rate of deviation in 3.48–54, Table 3-1 at 3.41, Table 3-2 at 3.52
- Variation within population and 4.27–32

SAMPLING ERROR See allowance for sampling risk**SAMPLING RISK**

- Acceptable risk levels 4.33–38
- Actual rate of deviation 3.53–57
- Classical variables sampling 7.10, 7.13, 7.23, 7.25–34, 7.41–48, Appendix D
- Defined 1.28, 3.38
- Evaluation in tests of controls 3.75–79
- Generally 2.19, 2.23
- Incorrect acceptance 1.28, 4.33–38
- Incorrect rejection 4.43–47
- Monetary unit sampling 6.32–34, 6.39, 6.44–48, Table 6-4 at 6.46
- Multiple independent controls 3.47
- Nonstatistical compared to statistical sampling 2.28–29
- Overreliance risk 1.28, 3.38–47
- Projected misstatement to population 4.77–89

SAMPLING RISK—continued

- Test level risk 4.93–100
- Tests of controls 3.38–45, 3.75–79
- Tolerable rate of deviation 3.53
- Underreliance 1.28

SAMPLING UNITS

- Classical variables sampling 7.09, 7.34
- Completeness of population 3.18, 4.08
- Defining in substantive tests of details 4.13–14
- Inability to examine 3.72
- Monetary unit sampling ... 6.09–10, 6.49–51
- Tests of controls 3.22–24

SCHEDULE OF CHANGES MADE TO TEXT

FROM PREVIOUS EDITION Appendix I

SELECTION BIAS, AUDIT SAMPLING

CHARACTERISTICS 1.05

SEQUENTIAL SAMPLING 3.64, 3.83–84,

..... Appendix B

SIMPLE RANDOM SAMPLING, TESTS OF

CONTROLS 3.29–30, 3.66

SMALL POPULATIONS

- Classical variables sampling 7.05, 7.15
- Monetary unit sampling 6.07, 6.15, 6.49
- Tests of controls 3.62–63, Table 3-5 at 3.62

SOFTWARE REQUIREMENTS

- Classical variables sampling 7.22, 7.33, 7.42, 7.46–47
- Statistical audit sampling 2.25–26

SPECIALISTS, USE OF 2.50–51**STANDARD DEVIATION**

- Classical variables sampling 7.05, 7.33, 7.48
- Defined 4.27

STATISTICAL AUDIT SAMPLING

- Account balance or class of transactions 2.32
- Attributes sampling 2.35–37, 2.41, Appendix A
- Balance sheet and income statement sampling relationship 2.42–43
- Classical variables sampling 7.03–06
- Continuing professional education ... 2.45–48
- Evaluation standards 2.07
- Inventory count 2.27
- Monetary unit sampling 6.04–08, 6.36–41, Appendix C
- Multilocation sampling issues Appendix E
- Outside consultants 2.51
- Planning of procedures 2.22–29
- Sample selection methods 3.29–36
- Sampling risk 2.28
- Substantive tests of details. See substantive tests of details
- Tests of controls. See tests of controls
- Training and expertise requirements 2.25

STATISTICAL AUDIT SAMPLING—continued

- Types of sampling plans 2.35–43
- Variables sampling 2.38–41

STOP-OR-GO SAMPLING, TESTS OF CONTROLS. See also sequential sampling

..... 3.64

STRATIFIED SAMPLING

- Classical variables sampling 7.12–19, 7.44, 7.48
- Monetary unit sampling 6.05
- Pilot sample procedure 4.30
- Substantive tests of details 4.18–22, 4.28–30, 4.71, Table 4-1 at 4.19

STRATUM SUBDIVISIONS IN POPULATION

- Defined 4.28
- Nonstatistical sampling case study 5.06

SUBSTANTIVE PROCEDURES

- Analytical procedures. See analytical procedures
- Attribute sampling in 2.37
- Classical variables sampling 7.30–31, 7.34–35, 7.45
- Defined 2.11
- Monetary unit sampling 6.04–08, 6.49
- Nonstatistical sampling case study 5.07–11
- Overreliance and underreliance 3.39

SUBSTANTIVE TESTS OF**DETAILS 4.01–108**

- Classical variables sampling 7.11–15
- Determining test objectives 4.04–05
- Documentation of sample procedure 4.105–108
- Evaluating sample results 4.77–104
- Expected amount of misstatement 4.60–61
- Generally 4.01–03
- Individually significant items, identifying 4.11–12
- Interim sample results 4.92
- Misstatements not projected 4.101–104
- Negative confirmations 4.91
- Nonstatistical sampling case study 5.08–11
- Performance materiality 4.50–59, Table 4-3 at 4.53
- Performing the sampling plan 4.75–76
- Population characteristics 4.06–12
- Population completeness consideration 4.08–10
- Population size effects 4.62
- Projecting misstatement to population 4.77–89
- Sample results evaluation 4.77–104
- Sample selection criteria 4.17–22, Table 4-1 at 4.19
- Sample size determination 4.23–74, Table 4-4 at 4.63, Table 4-5 at 4.68, Table 4-6 at 4.72

SUBSTANTIVE TESTS OF DETAILS—continued

- Sampling risk consideration 4.33–47, 4.93–100, Table 4-2 at 4.40
- Sampling technique, choosing 4.15–16
- Sampling unit defined 4.13–14
- Sufficiency of sampling evidence for proposing adjustments 4.90
- Tolerable misstatement consideration ... 4.48–59, Table 4-3 at 4.53
- Variation within population 4.27–32

SUPERVISION, AUDIT SAMPLING

PROCESS 2.52–54

SYSTEMATIC SAMPLING METHODS

- Monetary unit sampling 6.13, 6.57
- Tests of controls 3.31–32

T**TAINTING, MONETARY UNIT SAMPLING**

- Disadvantages 6.07
- Projected misstatements 6.43–48
- Results evaluation 6.35–48, Table 6-3 at 6.43
- Sample size 6.21, Table 4-5 at 4.68

TEST LEVEL SAMPLING RISK 4.93–100**TEST OF DETAILS (TD). See substantive tests of details****TESTS OF CONTROLS 3.01–98**

- Attributes sampling 2.35–36, Appendix A
- Audit sampling exclusions 1.13–14
- Automated IT system controls 1.19, 3.27
- Block sampling method 3.35–36
- Classical variables sampling 7.41
- Control deficiency, assessing potential magnitude 3.85–94
- Determining test objectives 3.02–05
- Deviation conditions, defining 3.06
- Deviation rate consideration. See deviation rate
- Documenting sampling procedure 3.04, 3.67, 3.96–98
- Dual-purpose tests 2.12–14, 6.10
- Effectiveness. See effectiveness of controls, testing
- Evaluating sample results 3.73–95
- Extending the sample 3.82–84
- Extrapolation not intended 1.15
- Fixed sample size approach 3.64
- Generally 1.14, 2.09–10
- Haphazard sampling method 3.33–34
- Inability to examine selected items 3.72
- Infrequently operating controls 3.62–63
- Initial testing, timing of 3.14
- Magnitude of control deficiency, assessing 3.85–94
- Monetary unit sampling 6.10, 6.30
- Nonstatistical sampling case study 5.05
- Operating effectiveness. See effectiveness of controls, testing
- Overall conclusion 3.95

TESTS OF CONTROLS—continued

- Overreliance risk, assessing 3.38–47
- Performing the sampling plan 3.66–72
- Period covered by test, defining 3.11–21
- Population characteristics 3.07–10, 3.14–21
- Population completeness consideration 3.18–21
- Population sequence estimation errors ... 3.69
- Population size consideration 3.15, 3.59–61, Table 3-4 at 3.60
- Precision 3.77–78
- Qualitative analysis of deviations ... 3.80–81
- Sample results evaluation 3.73–95
- Sample selection method, choosing 3.29–36
- Sample size determination 3.37–65
- Sampling risk consideration 1.28, 3.38–45, 3.65, 3.75–79, Table 3-1 at 3.41
- Sampling unit characteristics 3.22–24
- Sequential sample size approach 3.64, Appendix B
- Simple random sampling method 3.29–30
- Small populations 3.62–63, Table 3-5 at 3.62
- Stopping test before completion 3.71
- Systematic sampling method 3.31–32
- Tolerable rate of deviation. See tolerable rate of deviation
- Underreliance risk, assessing 3.38–53, 4.47
- Unused or inapplicable documents 3.68
- Upper-limit approach 3.52–54, 3.77, 3.87–89, 3.92–94
- Voiced documents 3.67
- Walk-throughs 3.25–28

THOSE CHARGED WITH GOVERNANCE

- Auditor responsibilities for tests of controls 3.98
- Communication with 3.17

TOLERABLE MISSTATEMENT

- Allowance for sampling risk Appendix D
- Assertions in sample design 4.59
- Classical variables sampling 7.16, 7.20–21, 7.27–31, 7.38, 7.41, Appendix D
- Defined 4.48
- Expected amounts in 4.60–61
- Gross margins in sample planing 4.58
- Monetary unit sampling 6.24, 6.30, 6.32, 6.49, 6.53, 6.56–57
- Nonstatistical sampling case study 5.05, 5.08–09, 5.14
- Performance materiality 4.50–59, Table 4-3 at 4.53
- Projected misstatement to population 4.79
- Reclassifications 4.57

TOLERABLE MISSTATEMENT—continued

- Substantive tests of details ... 4.11, 4.48–59, 4.72, Table 4-3 at 4.53
- Test level sampling risk 4.93–100

TOLERABLE RATE OF DEVIATION

- Defined 3.48
- Determination of 3.42–43, 3.45, 3.48–54, Table 3-2 at 3.52
- Expected population deviation rate 3.56–57, Table 3-3 at 3.56
- Overreliance risk 3.46
- Population size 3.60, Table 3-4 at 3.60
