

This book benefitted greatly from the comments and criticisms of Professor Cui Wei of the China University of Political Science and Law, and of Sherman Deng and Jiang Bian of White & Case. Marteen Roos provided several contracts used in the book. Our students, Adam Colegrove, Cindy Bi, Jerry Huang, Ryan Syndenham, Hillary Musselman, Li Dai, and numerous others provided able research assistance in completing this manuscript. Matt Cooper, Moritz Research Librarian, was able to find the most obscure documents and sources. Special thanks to Dean Donald Polden of Santa Clara for his generous grants to hire research fellows for the writing of this book.

We would like to make this book as effective a teaching tool as possible and welcome your comments, criticisms, and suggestions for future editions.
