Preface	xix
Chapter 1 Overview of Best Practices	1
Chapter 2 How to Use Best Practices	5
Types of Best Practices	5
The Most Fertile Ground for Best Practices	6
Planning for Best Practices	7
Timing of Best Practices	9
Implementing Best Practices	10
Best Practice Duplication	12
Why Best Practices Fail	13
The Impact of Best Practices on Employees	17
Summary	18
Chapter 3 Accounts Payable Best Practices	19
Implementation Issues for Accounts Payable	
Best Practices	20
3-1 Pay Based on Receiving Approval Only	20
3-2 Reduce Required Approvals	25
3-3 Use Negative Assurance for Invoice Approvals	26
3-4 Designate Approval Stamp Positioning	26
3-5 Base Approvals on Supplier Invoicing History	27
3-6 Use Procurement Cards	27
3-7 Use a Ghost Card	32
3-8 Negotiate Procurement Card Rebates	32
3-9 Route All Invoices Directly to Accounts Payable	33
3-10 Split Payables Processing Based on Discounts	33
3-11 Adopt a Standard Invoice Numbering Convention	34
3-12 Automate Three-Way Matching	35
3-13 Digitize Accounts Payable Documents	36
3-14 Directly Enter Receipts into Computer	38
3-15 Have Suppliers Include Their Supplier Number on Invoices	39
3-16 Request that Suppliers Enter Invoices through a Web Site	39
3-17 Audit Expense Reports	40

3-18	Automate Expense Reporting	42
3-19	Eliminate Cash Advances for Employee Travel	44
3-20	Link Corporate Travel Policies to an Automated Expense Reporting System	45
3-21	Match Travel Bookings to Expenses	46
3-22	Centralize the Accounts Payable Function	46
3-23	Store Late Fees in a Separate General Ledger Account	48
3-24	Issue Standard Account Code List	48
3-25	Link Supplier Requests to the Accounts Payable Database	49
3-26	Shrink the Supplier Base	50
3-27	Withhold First Payment until W-9 Form Is Received	51
3-28	Automate Payments for Repetitive Invoicing	52
3-29	Install a Payment Factory	52
3-30	Eliminate Manual Checks	53
3-31	Eliminate Wire Transfers	54
3-32	Increase the Frequency of Check Runs	55
3-33	Settle Foreign Intercompany Payables	55
3-34	Have Regularly Scheduled Check-Signing Meetings	56
3-35	Implement Positive Pay	56
3-36	Incorporate Copy Protection Features into Checks	57
3-37	Avoid Acronym Payees on Checks	59
3-38	Revise Payment Terms for Electronic Payments	59
3-39	Install Advanced ACH Debit Blocking	60
3-40	Use a Signature Stamp	60
3-41	Notify Purchasing of Lower Invoiced Prices or Terms	61
3-42	Create Direct Purchase Interfaces to Suppliers	62
3-43	Install a Low-Cost Spend Management System	63
3-44	Use Blanket Purchase Orders	64
3-45	Issue a Welcome Packet to New Suppliers	65
3-46	Clean Up the Supplier Master File	66
3-47	Adopt a Supplier Naming Procedure	67
3-48	Assign Payables Staff to Specific Suppliers	68
3-49	Create Different Supplier Accounts for Different Terms	68
3-50	Review Supplier Statements for Open Credits	69
3-51	Issue Standard Adjustment Letters to Suppliers	69
	Summary	69
Chapter 4	Billing Best Practices	71
	Implementation Issues for Billing Best Practices	71
4-1	Avoid Missed Billings	73
4-2	Remove Unnecessary Information from Invoices	74
4-3	Mark Envelopes with Address Correction Requested	75
4-4	Do Early Billing of Recurring Invoices	75

Contents

vii

4-5	Have the Sales Staff Review Contact Information for Recurring Invoices	76
4-6	Review Billed Hours Early	76
4-7	Issue Electronic Invoices	77
4-8	Issue Single, Summarized Invoices Each Period	78
4-9	Print Separate Invoices for Each Line Item	79
4-10	Enhance the Invoice Layout	80
4-11	Add Receipt Signature to Invoice	81
4-12	Automatically Check Errors during Invoice Data Entry	81
4-13	Proofread Invoices	82
4-14	Have Delivery Person Create the Invoice	83
4-15	Computerize the Shipping Log	85
4-16	Track Exceptions between the Shipping Log and the Invoice Register	86
4-17	Eliminate Month-End Statements	87
4-18	Reduce Number of Parts in Multipart Invoices	87
	Summary	88

Chapter 5 Budgeting Best Practices 91

	Implementation Issues for Budgeting Best Practices	91
5-1	Link the Budget to Key Business Drivers	93
5-2	Clearly Define All Assumptions	93
5-3	Clearly Define All Capacity Levels	94
5-4	Establish Project Ranking Criteria	95
5-5	Apply Throughput Analysis to Capital Budgeting	96
5-6	Establish the Upper Limit of Available Funding	97
5-7	Identify Step-Costing Change Points	98
5-8	Budget for Attrition	99
5-9	Budget by Groups of Staff Positions	99
5-10	Create a Summarized Budget Model for Use by Upper Management	100
5-11	Include a Working Capital Analysis	101
5-12	Use Activity-Based Budgeting	102
5-13	Incorporate Target Costing into the Budgeting Process	103
5-14	Link a Bonus Sliding Scale to the Budget	103
5-15	Use Flex Budgeting	104
5-16	Incorporate Risk Analysis into Budget Modeling	105
5-17	Automatically Link the Budget to Purchase Orders	105
5-18	Issue a Budget Procedure and Timetable	106
5-19	Preload Budget Line Items	108
5-20	Adopt Two-Stage Capital Budgeting	109
5-21	Purchase Budgeting and Planning Software	110

5-22	Reduce the Number of Accounts	111
5-23	Revise Budgets on a Quarterly Basis	111
5-24	Simplify the Budget Model	112
5-25	Use Online Budget Updating	113
5-26	Operate without a Budget	115
	Summary	116
Chapter 6	Cash Management Best Practices	117
	Implementation Issues for Cash Management	
	Best Practices	117
6-1	Access Bank Account Information on the Internet	118
6-2	Automatically Apply Cash	120
6-3	Avoid Delays in Check Posting	121
6-4	Require Mailings to Mailstop Number	122
6-5	Collect Receivables through Lockboxes	122
6-6	Install Remote Deposit Capture	124
6-7	Consolidate Bank Accounts	125
6-8	Implement Physical Cash Sweeping	126
6-9	Implement Notional Pooling	128
6-10	Charge Back Treasury Fees to Subsidiaries	129
6-11	Implement Controlled Disbursements	130
6-12	Negotiate Faster Deposited-Check Availability	131
6-13	Open Zero-Balance Accounts	131
	Summary	132
Chapter 7	Collections Best Practices	135
	Implementation Issues for Collections Best Practices	135
7-1	Accept Check Payments by Fax	137
7-2	Clearly Define Account Ownership	138
7-3	Optimize the Collections Staff	139
7-4	Designate a Skip Tracing Specialist	140
7-5	Utilize Collection Call Stratification	141
7-6	Structure the Workday Around Prime Calling Hours	142
7-7	Base Deduction Management on Transaction Volume	143
7-8	Set Up a Periodic Payment Schedule	144
7-9	Require Customer Billing of Marketing Deductions	144
7-10	Grant Percentage Discounts for Early Payment	145
7-11	Conduct Immediate Review of Unapplied Cash	146
7-12	Outsource Collections	147
7-13	Prepare a Customer Bankruptcy Action Plan	148
7-14	Sell Your Bankruptcy Creditor Claim	149
7-15	Simplify Pricing Structure	151

Contents**ix**

7-16	Write Off Small Balances with No Approval	152
7-17	Report on Bad Debts by Salesperson	152
7-18	Post Collection Results by Collector	153
7-19	Create an Accurate Bad-Debt Forecast	153
7-20	Use Automated Clearing House Debits	154
7-21	Lock Access to the Credit-Hold Flag	155
7-22	Maintain Customer Orders Database	156
7-23	Subscribe to Special Event Notifications	156
7-24	Set Up Automatic Fax of Overdue Invoices	157
7-25	Issue Dunning Letters Automatically	158
7-26	Automate E-Mail Delivery of Overdue Invoice Information	160
7-27	Use a Collection Call Database	160
7-28	Access Up-to-Date Collection Agency Information	162
7-29	Implement Customer Order Exception Tracking System	163
7-30	Install a Dispute Tracking System	164
7-31	Report on Ongoing Customer Complaints	165
7-32	Link to Comprehensive Collections Software Package	166
7-33	Use Real-Time Cash Application Techniques Summary	167 168

Chapter 8 Credit Best Practices 169

	Implementation Issues for Credit Best Practices	169
8-1	Create a Credit Policy	171
8-2	Modify the Credit Policy Based on Product Margins	172
8-3	Modify the Credit Policy Based on Changing Economic Conditions	173
8-4	Modify the Credit Policy Based on Potential Product Obsolescence	173
8-5	Centralize Credit Risk Analysis	174
8-6	Preapprove Customer Credit	174
8-7	Subscribe to a Credit Report Database	175
8-8	Create an Internal Credit Scoring System	176
8-9	Modify Credit Application Terms to Favor the Company	178
8-10	Create a Credit Application Guidebook	179
8-11	Create a Standardized Credit-Level Determination System	180
8-12	Incorporate Collections Information into Credit Decisions	181

8-13	Require a New Credit Application if Customers Have Not Ordered in Some Time	182
8-14	Review the Credit Levels of <i>All</i> Customers Who Stop Taking Cash Discounts	182
8-15	Call New Customers and Explain Credit Terms	183
8-16	Issue a Payment Procedure to Customers	183
8-17	Join an Industry Credit Group	184
8-18	Refer a Potential Customer to a Distributor	185
8-19	Require Intercorporate Guarantees	185
8-20	Obtain Check Verification and Guarantee Coverage	185
8-21	Obtain Credit Insurance	186
8-22	Obtain an Export Credit Guarantee	187
8-23	Shorten the Terms of Sale	188
8-24	Insist on Lien Rights	189
8-25	Offer a Financing Program	189
8-26	Combine COD Terms with a Surcharge	190
	Summary	190
Chapter 9	Commissions Best Practices	191
	Implementation Issues for Commissions Best Practices	191
9-1	Automatically Calculate Commissions in the Computer System	192
9-2	Calculate Final Commissions from Actual Data	193
9-3	Construct a Standard Commission Terms Table	194
9-4	Periodically Issue a Summary of Commission Rates	195
9-5	Simplify the Commission Structure	195
9-6	Include Commission Payments in Payroll Payments	196
9-7	Lengthen the Interval between Commission Payments	197
9-8	Pay Commissions Only from Cash Received	197
9-9	Increase Commissions for Cash in Advance Payments	198
9-10	Periodically Audit Commissions Paid	199
9-11	Install Incentive Compensation Management Software	199
9-12	Post Commission Payments on the Company Intranet	200
9-13	Show Potential Commissions on Cash Register	201
	Summary	202
Chapter 10	Costing Best Practices	203
	Implementation Issues for Costing Best Practices	203
10-1	Audit Bills of Material	205
10-2	Audit Labor Routings	206

Contents**xi**

10-3	Eliminate High-Leverage Overhead Allocation Bases	207
10-4	Simplify Overhead Allocations	208
10-5	Assign Overhead Personnel to Specific Subplants	208
10-6	Use Perfect Standards for Material Variance Reporting	209
10-7	Eliminate Labor Variance Reporting	209
10-8	Follow a Schedule of Inventory Obsolescence Reviews	211
10-9	Eliminate the Tracking of Work-in-Process Inventory	212
10-10	Implement Activity-Based Costing	213
10-11	Implement Throughput Accounting	214
10-12	Implement Target Costing	215
10-13	Track Excess Capacity	216
10-14	Limit Access to Unit of Measure Changes	216
10-15	Report on Landed Cost Instead of Supplier Price	217
10-16	Report on Total Customer Price	218
10-17	Review Cost Trends	218
10-18	Review Material Scrap Levels	220
10-19	Revise Traditional Cost Accounting Reports	221
	Summary	223

Chapter 11 Filing Best Practices**225**

	Implementation Issues for Filing Best Practices	225
11-1	Improve the Mailroom Interface	226
11-2	Reduce Keystroke Errors	227
11-3	Use Multiple OCR Engines for Data Capture	228
11-4	Add Digital Signatures to Electronic Documents	228
11-5	Archive Computer Files	230
11-6	Implement Document Imaging	230
11-7	Eliminate Stored Paper Documents if Already in Computer	232
11-8	Extend Time Period before Computer Records Are Purged	233
11-9	Extend Use of Existing Computer Database	234
11-10	Improve Computer System Reliability	236
11-11	Adopt a Document-Destruction Policy	238
11-12	Eliminate Attaching Back-up Materials to Checks for Signing	241
11-13	Eliminate Reports	241
11-14	Move Records Off-Site	243
11-15	Reduce Number of Form Copies to File	244
11-16	Use Carts for Portable File Storage	244
	Summary	245

Chapter 12 Finance Best Practices	247
Implementation Issues for Finance Best Practices	247
12-1 Use an Investment Strategy for Short-Term Investments	249
12-2 Use Invoice Discounting	251
12-3 Sell Securities under the Regulation A Exemption	251
12-4 Sell Securities under the Regulation D Exemption	253
12-5 Set Up Supply Chain Financing	254
12-6 Obtain Cash through Crowdfunding	255
12-7 Join a Barter Network	256
12-8 Automate Option Tracking	256
12-9 Automate 401(k) Plan Enrollment	257
12-10 Grant Employees Immediate 401(k) Eligibility	258
12-11 Consolidate Insurance Policies	258
12-12 Obtain Advance Rating Assessments	259
12-13 Rent a Captive Insurance Company	259
12-14 Use Netting to Reduce Foreign Exchange Settlements	260
12-15 Install a Treasury Workstation	261
12-16 Connect to the SWIFT Network	263
12-17 Optimize the Organization of Treasury Operations	264
12-18 Hedge Foreign Exchange with Forward Exchange Contracts	265
12-19 Hedge Foreign Exchange with Currency Futures	266
12-20 Lock in Interest Rates with an Interest Rate Swap	267
Summary	269
Chapter 13 Financial Statements Best Practices	271
Implementation Issues for Financial Statements Best Practices	272
13-1 Move Operating Data to Other Reports	272
13-2 Restrict the Level of Reporting	274
13-3 Write Financial Statement Footnotes in Advance	275
13-4 Create a Disclosure Committee	275
13-5 Automate Recurring Journal Entries	276
13-6 Automate the Cutoff	277
13-7 Avoid the Bank Reconciliation	278
13-8 Defer Routine Work	279
13-9 Eliminate Multiple Approvals	279
13-10 Eliminate Small Accruals	281
13-11 Reduce Investigation Levels	282
13-12 Assign Closing Responsibilities	282
13-13 Compress Billing Activities	283
13-14 Conduct Transaction Training	284
13-15 Continually Review Wait Times	285

Contents**xiii**

13–16 Convert Serial Activities to Parallel Ones	286
13–17 Create a Closing Schedule	287
13–18 Document the Process	289
13–19 Restrict the Use of Journal Entries	290
13–20 Train the Staff in Closing Procedures	291
13–21 Use Cycle Counting to Avoid Month-End Counts	292
13–22 Compress Public Company Closing Activities	293
13–23 Use Standard Journal Entry Forms	294
13–24 Complete Allocation Bases in Advance	295
13–25 Reconcile Intercompany Transactions in Advance	296
13–26 Conduct Daily Review of the Financial Statements	297
Summary	297

Chapter 14 General Best Practices 299

Implementation Issues for General Best Practices	299
14–1 Apply Run Charts to Accounting Processes	301
14–2 Apply Check Sheets to Accounting Processes	303
14–3 Apply Value Stream Mapping to Accounting Processes	304
14–4 Apply the Production Cell Layout to Accounting	305
14–5 Create a Best Practices Support Center	306
14–6 Consolidate All Accounting Functions	307
14–7 Continually Review Key Process Cycles	308
14–8 Create a Policies and Procedures Manual	310
14–9 Eliminate All Transaction Backlogs	314
14–10 Implement Process-Centering	314
14–11 Remove Clutter from the Accounting Workspace	315
14–12 Issue Activity Calendars to All Accounting Positions	316
14–13 Switch to Online Reporting	317
14–14 Track Function Measurements	318
14–15 Discuss Major Accounting Decisions with Auditors	319
14–16 Create a Contract Terms Database	319
14–17 Install a Knowledge Management System	323
14–18 Monitor Fixed Assets with Wireless Sensors	323
14–19 Create an Online Tax Policy Listing	324
14–20 Designate a Tax Liaison for Each Government Jurisdiction	325
14–21 Assign Tax Staff to Business Units	325
14–22 Outsource Tax Form Preparation	326
14–23 Submit Electronic Tax Returns to the IRS	326
14–24 Pay Federal Taxes Online	327
14–25 Create Accounting Training Teams	328

14-26 Create an Ongoing Training Program for All Accounting Personnel	329
14-27 Implement Cross-Training for Mission-Critical Activities	332
Summary	333
Chapter 15 General Ledger Best Practices	335
Implementation Issues for General Ledger Best Practices	335
15-1 Eliminate Small-Balance Accounts	337
15-2 Modify Account Code Structure for Storage of ABC Information	337
15-3 Create Alphanumeric Department/Subsidiary Codes	338
15-4 Reduce the Chart of Accounts	339
15-5 Use Identical Chart of Accounts for Subsidiaries	340
15-6 Require Senior Approval to Add Accounts	343
15-7 Use Data Warehouse for Report Distribution	343
15-8 Use Forms/Rates Data Warehouse for Automated Tax Filings	344
15-9 Use the General Ledger as a Data Warehouse	345
15-10 Restrict Use of Journal Entries	346
15-11 Avoid General Ledger Posting Bottlenecks	347
15-12 Have Subsidiaries Update Their Own Data in the Central General Ledger	348
15-13 Prescreen Construction-in-Progress Entries	349
Summary	349
Chapter 16 Internal Auditing Best Practices	351
Implementation Issues for Internal Auditing Best Practices	351
16-1 Annually Update an Internal Control Assessment of Each Business Unit	353
16-2 Issue Self-Audit Guides to Business Units	354
16-3 Recommend Business Process Improvements to Business Units	354
16-4 Track Audit Results through Business Unit Surveys	355
16-5 Train Business Unit Staff on Control Issues	356
16-6 Train New Business Unit Managers on Control Issues	356
16-7 Avoid Overauditing of Internal Audits	357
16-8 Complete All Internal Audit Work Papers in the Field	358
16-9 Create a Control Standards Manual	358
16-10 Create an Online Internal Audit Library	359

Contents

xv

16-11 Create and Disseminate Information from a Best Practices Database	359
16-12 Outsource the Internal Audit Function	360
16-13 Schedule Some Internal Audits on a Just-in-Time Basis	361
16-14 Schedule Internal Audits Based on Risk	361
16-15 Use Workflow Software for Internal Audits	362
16-16 Implement Continuous Controls Monitoring	363
16-17 Fill Internal Audit Positions from Operations on a Rotating Basis	364
16-18 Add Specialists to Audit Teams	364
16-19 Assign an Auditor to Be a Relationship Manager with Each Business Unit	365
16-20 Assign Internal Auditors to System Development Teams	366
16-21 Create an Auditor Skills Matrix	366
16-22 Use Excel for Continuous Auditing	367
16-23 Support the Outside Auditors	368
Summary	368

Chapter 17 Inventory Best Practices 369

Implementation Issues for Inventory Best Practices	369
17-1 Audit Bills of Material	372
17-2 Conduct a Configuration Audit	373
17-3 Modify the Bills of Material Based on Actual Scrap Levels	374
17-4 Review Inventory Returned to the Warehouse	374
17-5 Modify the Bills of Material for Temporary Substitutions	375
17-6 Use Bills of Material to Find Inventory Made Obsolete by Product Withdrawals	376
17-7 Compare Open Purchase Orders to Current Requirements	377
17-8 Reject Unplanned Receipts	377
17-9 Obtain Advance Shipping Notices for Inbound Deliveries	378
17-10 Eliminate the Receiving Function	379
17-11 Use Standard Containers to Move, Store, and Count Inventory	380
17-12 Use Different Storage Systems Based on Cubic Transactional Volume	381
17-13 Organize the Warehouse by Storage Zones	381
17-14 Optimize Inventory Storage through Periodic Location Changes	382

17-15 Maximize Vertical Storage Space	382
17-16 Use Narrow Aisles in Manual Putaway and Picking Zones	383
17-17 Eliminate the Warehouse	384
17-18 Audit All Inventory Transactions	385
17-19 Compare Recorded Inventory Activity to On-Hand Inventories	386
17-20 Eliminate the Physical Count Process	387
17-21 Cycle-Count Based on Usage Frequency	389
17-22 Lock Down the Warehouse Area	389
17-23 Move Inventory to Floor Stock	390
17-24 Segregate Customer-Owned Inventory	391
17-25 Streamline the Physical Count Process	392
17-26 Track Inventory Accuracy	394
17-27 Train the Warehouse and Accounting Staffs in Inventory Procedures	395
17-28 Initiate Warehouse Staff Self-Auditing	396
17-29 Verify That All Receipts Are Entered in the Computer at Once	396
17-30 Record Inventory Transactions with Bar Codes	397
17-31 Record Inventory Transactions with Radio Frequency Communications	398
17-32 Track Inventory with Radio Frequency Identification (RFID)	399
17-33 Eliminate All Paper from Inventory Transactions	400
17-34 Install a Kanban System	401
17-35 Eliminate All Transaction Backlogs	402
17-36 Immediately Review All Negative Inventory Balances	403
17-37 Reduce the Number of Products	403
17-38 Reduce the Number of Product Options	404
17-39 Design Products with Lower Tolerances	404
17-40 Obtain Direct Links into Customer Inventory Planning Systems	405
17-41 Adopt Just-in-Time Purchasing	406
17-42 Shift Raw Materials Ownership to Suppliers	407
17-43 Drop Ship Inventory	408
17-44 Reduce Safety Stocks by Accelerating the Flow of Internal Information	408
17-45 Reduce Safety Stock by Shrinking Supplier Lead Times	409
17-46 Reduce Safety Stock with Risk Pooling	410
17-47 Use Variable Safety Stocks for Fluctuating Demand	410

Contents	xvii
17-48 Cross-Dock Inventory	411
17-49 Use Overnight Delivery from a Single Location for Selected Items	412
17-50 Focus Inventory Reduction Efforts on High-Usage Items	412
17-51 Eliminate Redundant Part Numbers	413
17-52 Standardize Parts	414
17-53 Identify Inactive Inventory in the Product Master File	415
Summary	415
Chapter 18 Payroll Best Practices	417
Implementation Issues for Payroll Best Practices	418
18-1 Disallow Prepayments	420
18-2 Create Employee Self-Service for Payroll Changes	421
18-3 Minimize Payroll Deductions	422
18-4 Prohibit Deductions for Employee Purchases	423
18-5 Post Forms on an Intranet Site	423
18-6 Avoid Job Costing through the Payroll System	424
18-7 Use Computerized Time Clocks	425
18-8 Use Exception Time Reporting	426
18-9 Install Automated Timesheet Reminders	427
18-10 Reduce the Number of Pay Codes	427
18-11 Use Biometric Time Clocks	428
18-12 Track Time with Mobile Phones	428
18-13 Install Additional Time Clocks	429
18-14 Issue Electronic W-2 Forms to Employees	429
18-15 Transfer Payroll to Debit Cards	430
18-16 Use Direct Deposit	432
18-17 Automate Vacation Accruals	434
18-18 Consolidate Payroll Systems	434
18-19 Create a Payroll Call Center for Employees	435
18-20 Eliminate Personal Leave Days	437
18-21 Link Payroll Changes to Employee Events	437
18-22 Install Manager Self-Service	438
18-23 Link the 401(k) Plan to the Payroll System	440
18-24 Link the Payroll and Human Resources Databases	440
18-25 Minimize Payroll Cycles	441
18-26 Minimize Off-Cycle Payrolls	442
18-27 Create a Year-End Payroll Processing Checklist	443
18-28 Electronically Verify Employee I-9 Information	444
18-29 Reduce Taxes with the Common Paymaster Rule	445

xviii	Contents
18–30 Outsource the Payroll Function	445
18–31 Post FAQ Answers and Issue a Payroll Orientation Brochure	447
Summary	448
Appendix: Summary of Best Practices	449
About the Author	465
Index	467
