List of Figures	xiii
List of Tables	xvii
Acknowledgments	xix
Introduction	xxi
I.1 Treasury, Funding, and the Reasons behind This Book	xxi
I.2 Funding Issues as Credit and Pricing Issues	xxiii
I.3 Treasury Finance and Development Banking	xxv
I.4 The Structure of the Book	xxvi
CHAPTER 1	
An Introductory View to Banking, Development Banking, and Treasury	1
1.1 A Representation of the Capital Flow in a Financial Institution	2
1.2 Lending	3
1.3 Borrowing	7
1.4 Investing and ALM	10
1.5 The Basic Structure of a Traditional Financial Institution	12
1.5.1 Private and Public Sides	12
1.5.2 Sales and Trading Desks	13
1.5.3 The Treasury Desk	14
1.6 Development Banking	17
1.6.1 The Different Types of Development Institutions	17
1.6.2 The Structure of a Development Bank	19
CHAPTER 2	
Curve Construction	21
2.1 What Do We Mean by Curve Construction?	22
2.2 The Instruments Available for Curve Construction	24
2.2.1 Discount Bonds and Cash Deposits	24
2.2.2 Interest Rate Futures and Forward Rate Agreements	26
2.2.3 FX Forwards	28

2.2.4	Interest Rate Swaps	30
2.2.5	Basis Swaps	34
2.2.5.1	Tenor Basis Swaps	34
2.2.5.2	Cross Currency Basis Swaps	35
2.3	Using Multiple Instruments to Build a Curve	37
2.4	Collateralized Curve Construction	42
2.4.1	The Evolution of the Perception of Counterparty Credit Risk	42
2.4.1.1	Overnight Index Swaps	43
2.4.2	Discounting in the Presence of Collateral	46
2.4.2.1	Collateral in a Foreign Currency	47
2.4.3	Clearing, the Evolution of a Price, and the Impact of Discounting	48
2.4.4	The Special Case of AAA-Rated Institutions	52
2.5	Numerical Example: Bootstrapping an Interest Rate Curve	55
2.5.1	The Short End of the Curve: Deposits and FRAs	56
2.5.2	The Long End of the Curve: Interest Rate Swaps	58
2.5.3	Interpolation and Extrapolation	62
CHAPTER 3		
	Credit and the Fair Valuing of Loans	67
3.1	Credit as an Asset Class	67
3.1.1	The Underlyings	69
3.1.2	Credit Default Swaps	71
3.2	A Brief Overview of Credit Modeling	75
3.2.1	Hazard Rates and a Spread-Based Modeling of Credit	78
3.2.2	The Bootstrapping of a Hazard Rate Curve	81
3.2.3	Different Quotations and Different Currencies	84
3.3	Fair Value of Loans and the Special Case of Development Institutions	88
3.3.1	The Argument around the Fair Valuing of Loans	88
3.3.2	Prepayment Option and the Case of Development Institutions	91
3.4	Numerical Example: Calculating the Fair Value of a Loan	95
CHAPTER 4		
	Emerging Markets and Liquidity	101
4.1	The Definition of Emerging Markets	101
4.2	The Main Issues with Emerging Markets	103
4.2.1	Liquidity	103
4.2.2	Maturity	108

*Contents***ix**

4.2.3	Credit	110
4.2.4	Capital Control	112
4.3	Emerging Markets and Development Banking	116
4.3.1	Borrowing	116
4.3.2	Lending	118
4.4	Case Studies of Development Projects	122
4.4.1	Rural Development in X	122
4.4.2	Development of Textile Exports in Y	124
CHAPTER 5		
	Bond Pricing	127
5.1	What Is a Bond?	127
5.2	A Few Fundamental Concepts of the Bond World	129
5.2.1	Par	129
5.2.2	Yield	130
5.2.3	Duration	134
5.3	Expressing Credit Explicitly When Pricing a Bond	138
5.3.1	Benchmarks and Z-Spreads	138
5.3.2	Asset Swaps	142
5.3.3	Constructing a CDS-Implied Credit Framework for Bond Pricing	146
5.4	Illiquid Bonds	150
5.4.1	Pricing at Recovery	151
5.4.2	Case Study: The Default of Greece	155
5.4.3	Building Proxies	161
5.4.3.1	The Case of Missing Maturities	162
5.4.3.2	The Case of Quasi Government Entities	162
5.4.3.3	Similar Countries	162
5.4.3.4	Similar Companies	163
5.5	Numerical Example: Estimating the Coupon of an Emerging Market Debt Instrument	164
CHAPTER 6		
	Treasury Revisited	171
6.1	Funding as an Asset Swap Structure	171
6.1.1	Asset Swaps Revisited	171
6.1.2	The Impact of Discounting on Asset Swap Levels	177
6.2	Funding Level Targets	179
6.2.1	The Objective of Ever-Smaller Funding Levels	179
6.2.2	Different Funding Levels for Different Types of Debt	182
6.3	The Fundamental Differences between Investment Banking and Development Banking	187

6.4	Benchmarks for Borrowing and Investing	189
6.4.1	Borrowing	190
6.4.2	Investing	195
6.4.3	Case Study: A Note on the LIBOR Scandal	203
CHAPTER 7		
	Risk and Asset Liability Management	207
7.1	The Issue of Leverage	208
7.2	Hedging	210
7.2.1	Risk Neutrality and the Meaning of Hedging	210
7.2.2	Static and Dynamic Hedging	214
7.2.3	Valuation in the Absence of Dynamic Hedging	219
7.3	Managing Risk Related to Financial Observables	224
7.3.1	Interest Rate and FX Risk	225
7.3.1.1	Hedging a Fixed or Structured Bond	225
7.3.1.2	The Unhedgeable Nature of the Discount Spread Φ	226
7.3.1.3	Hedging a Fixed-Rate Loan	228
7.3.1.4	Hedging a Foreign Currency Bond or Loan	230
7.3.1.5	Hedging a Credit-Linked Instrument Such as an Asset-Backed Security	234
7.3.1.6	Hedging an Equity Position	236
7.3.1.7	Locking an Interest Rate Position	237
7.3.2	Credit Risk	238
7.4	Funding Risk	242
7.4.1	Funding Gap Risk	242
7.4.2	Refinancing Risk	246
7.4.2.1	The Case of Constant Funding Level	250
7.4.2.2	The Case of Funding Level Lower Than Expected	250
7.4.2.3	The Case of Funding Level Higher Than Expected	251
7.4.3	Numerical Example: Estimating Refinancing Risk	251
7.4.4	Reset Risk	255
7.4.5	Numerical Example: Estimating Reset Risk	257
CHAPTER 8		
	Conclusion	261
8.1	Credit Is Everywhere	261
8.2	The Fundamental Steps to Borrowing, Lending, and Investing: A Summary	263

<i>Contents</i>	xi
APPENDIX A	
Implying Zero Rates from FX Forward Quotes	269
APPENDIX B	
CDS Spreads and Default Probabilities	271
APPENDIX C	
Modeling the Credit-Driven Prepayment Option of a Loan	273
APPENDIX D	
The Relation between Macaulay and Modified Durations	275
APPENDIX E	
The Impact of Discounting on an Asset Swap Spread	277
APPENDIX F	
Replication Leading to Risk-Neutral Probabilities	279
References	283
About the Web Site	289
