

Hence, I would highly recommend this book to all market practitioners, local and international companies which have interest in capital market and raising funds in Hong Kong. By reading this book, readers can obtain all the information required and will be able to make an informed decision more effectively and efficiently on a timely basis. More importantly, this book has provided a complete independent view on Hong Kong market and its development. Students and academic researchers will definitely find this book useful as well.

Ronald Wan

Chair Professor of Renmin University of China

Founding Vice Chairman

CUAA Finance Association

A huge amount of research has gone into this book. It is probably the most comprehensive book about Hong Kong listings current on the market. Highly recommended read for all the new corporate finance professionals including investment bankers, lawyers and accountants. More experienced practitioners will also want to refer to this book from time to time.
