

CONTENTS

Foreword	xi	
Introduction	xv	
CHAPTER 1	Building Industry Challenges and Opportunities	1
	Global Trends in Supply and Demand	2
	Benchmarking Construction Productivity	3
	Construction Productivity Metrics	6
	Benchmarking Building Performance	8
	Converting Inefficiency and Waste into Profit	10
	Benchmarking Waste	11
	Identifying Business Opportunities	12
	Emerging Business Strategies	15
	Choosing the Right Tools, Deploying the Right Tool Suites	16
	The BIM Value Proposition	19
	Process Engineering	20
	Thinking Like an Owner	22
	Building Performance Metrics	23
	New Metrics for Real Property Valuation	23
CHAPTER 2	BIM Implementation Strategies	27
	Leaving the CAD Era Behind	28
	A Systems Approach to BIM Implementation	29
	Avoiding Ideological Pitfalls	30
	Aligning a BIM Implementation Strategy with Technology Trends	32
	Assessing Fundamental Risks	33
	Fostering a Culture of Information Stewardship	33
	Managing Culture Change	35
	Using Technology to Build Trust and Mitigate Risk	36
	Maintaining Data Exchange Capabilities	37
	Assessing Team Capabilities	41
	Managing Expectations	42
	Measuring Progress toward Strategic Goals	44
	Toward a New Business Paradigm	54

CHAPTER 3	Business Process Reform	57
	Managing Innovation Risk	58
	The Imperative of Change	59
	Innovation Management Strategies	60
	The "I" in BIM	62
	Business Reform Strategies	63
	Industry-wide Reform Efforts	64
	Industry Standards and Innovation	66
	The Industry Standards Landscape	68
	Aligning Business Strategies with Industry Standards	70
	Integrating Information Gathering into the Business Process	72
	Leadership and Vision	75
	Engaging Business Partners	77
	Business Process Modeling	78
	Business Process Modeling Case Study	82
	Managing Change	83
	Populating the Building Information Model	87
CHAPTER 4	BIM-Based Enterprise Workflow	89
	BIM Implementation Fundamentals	90
	Sidebar: Integrating Data Collection with Business Processes	94
	Business Operations and BIM	98
	Marketing/Business Development	99
	Human Resources	101
	Finance	102
	Information Technology	104
	Operations	105
	Workflow Visualization	108
CHAPTER 5	The Building Life Cycle	111
	Life Cycle Views of Building Information	111
	The Feasibility, Planning, and Development View	115
	The Design and Construction View	116
	The Operations and Maintenance View	118
	The Ownership and Asset Management View	123
CHAPTER 6	Building Information Exchange Challenges	129
	Sidebar: Data, Information, Knowledge, and Wisdom	130
	Information Management	131
	Sidebar: Case Study: Information Management	134

Information Provenance	135
Information Maturity	137
Sidebar: The Wayback Machine: Archiving the Web	138
Information Content Decay	140
Information Electronic Degradation	140
Information Integrity and Continuity	141
Information Transparency, Accessibility, and Security	143
Information Flow	144
The Life Cycle of Information	146
Stakeholder Views	146
Interoperability	146
CHAPTER 7 Building Information Exchange Requirements	153
The Big Picture	154
Information Delivery Manuals	154
Defining “Best Case” Business Processes	159
agcXML: Organizing Transactional Information	161
SMARTcodes: Automating the Regulatory Process	162
The Construction Operations Building Information Exchange	163
Specifiers Property Information Exchange (SPIE)	166
Coordination View Information Exchange (CVIE)	168
CHAPTER 8 The Way Forward	171
Workflow: From Sequential to Parallel Processing	173
Business and Contractual Relationships	176
Evolving Roles and Responsibilities	177
Bibliography	179
Index	183
