PREFACE / ix

ACKNOWLEDGEMENTS / xiii

SPONSORS / xv

CHAPTER ABSTRACTS / xvii

CHAPTER 1

Introduction / 1

Paul Teicholz

Management Summary / 1

Problems with Current FM Practice / 2

How BIM FM Integration Can Address Current Problems / 5

Needs for Graphics and Data Varies over the Life Cycle / 6

Need for Interoperability between Systems / 8

Owner Benefits of BIM FM Integration / 10

 Streamlines Handover and More Effective Use of Data / 10

 Benefits during the Life of the Building / 11

 Integrated System Can Be Used to Plan Enhancements to Building / 13

 Calculating ROI in BIM FM Integration / 13

CHAPTER 2

BIM Technology for FM / 17

Louise Sabol

Building Information Modeling (BIM) / 17

BIM for Facility Management (FM) / 20

Standards and Data Exchange / 27
Challenges of BIM for FM / 29
FM BIM in Practice: Healthcare BIM Consortium's Initiatives / 32
Emerging Technologies and BIM / 36
 Cloud Computing / 36
 Mobile Computing for FM / 37
 Mobile and RFID Technologies / 39
 Mobile and Cloud Technologies / 39
Augmented Reality / 40
Sensor Data / 41
BIM Component Data / 42
Standards / 43
References / 45

CHAPTER 3

Owner BIM for FM Guidelines / 47

Paul Teicholz

Introduction / 47
GSA Guidelines / 49
 BIM and FM—Overall Vision and Objectives for
 Using BIM for Facility Management / 50
 Tier 1 / 51
 Tier 2 / 52
 Tier 3 / 52
 Implementation Guidance to GSA Associates and Consultants / 53
 Modeling Requirements—a Record BIM / 56
High-Level Modeling Requirements / 57
 BIM Authoring Applications / 57
 BIM Model Structure / 57
 Asset Identification Number / 58
Design, Construction, and Record BIMs / 58
 Required BIM Objects and Properties / 59
 National Equipment Standard / 59
 Organization of Record BIMs / 60
 Modeling Precision / 60
 Consistent Units and Origin / 60
 Prior to Submittal of Record BIMs / 60
 Maintaining and Updating As-Built BIMs / 61

COBie Submittals / 61	
Minimum COBie Requirements / 62	
Creating COBie Deliverables / 62	
Technology Requirements / 63	
Central Repository of Facility Information / 63	
Infrastructure / 63	
Security / 63	
Functionality / 63	
The Vision: Technology Overview / 64	
Technology Challenges / 64	
Multi-User Update / 64	
Management of Updates / 65	
Multi-User Access and Viewing / 65	
Vendor-Neutral Options / 66	
Multiple Paths for Data Transfers / 66	
Emerging Technology: Model Servers / 66	
Pilot Projects for BIM and FM Using GSA Guidelines / 68	
Peter W. Rodino Federal Building Modernization / 69	
Bishop Henry Whipple Federal Building / 73	
Camden Annex Lifecycle and NASA Projects / 77	
Other BIM Guidelines / 81	
BIM Planning Guide for Facility Owners / 81	
National BIM Standard—United States™ Version 2 / 81	
Wisconsin BIM Guidelines and Standards for Architects and Engineers, v2 / 82	
LACCD BIM Standards, v3 / 83	

CHAPTER 4

Legal Issues When Considering BIM for Facilities Management / 85

Kymerli A. Aguilar and Howard W. Ashcraft

Introduction / 85	
How Will the Model(s) Be Used? / 87	
Ask and You Shall Receive / 87	
What Is the Model's Contractual Status? / 89	
Ownership of the Model / 91	
Owner Owns Modeling Information / 91	
Designer Owns Modeling Information / 92	
All Parties Own Whatever They Create / 92	

Who Owns the Intellectual Property? / 92
 Who Owns the Design? / 92
 Who Owns the Copyright? / 93
Standards and Interoperability / 94
Will Using BIM Increase Liability to Other Parties? / 96
 Will Designers Have an Increased Risk? / 96
 Will Contractors Have Increased Liability for Defects
 in the Plans and Specifications? / 97
How Does an Integrated Project Delivery (IPD) Environment Affect Liabilities
Related to Reliance on BIM? / 99
Does Insurance Cover BIM-Related Work? / 101
Conclusion / 102
Sample BIM Specification / 102
References / 106

CHAPTER 5
Using COBie / 107

Bill East

Executive Summary / 107
Why COBie? / 107
How Was COBie Designed? / 109
 Managed Asset Inventory / 110
 Operations and Maintenance Requirements / 111
 Technological Constraints / 112
 Contracting Constraints / 113
 Process Constraints / 114
What Is Included in COBie? / 115
In What Formats Is COBie Delivered? / 120
How Is the Spreadsheet Format Organized? / 121
 Common Worksheet Conventions / 122
 COBie Worksheet Descriptions / 125
How Is COBie Delivered? / 131
 As-Planned / 131
 As-Designed / 132
 As-Constructed / 133
 As-Occupied / 134
 As-Built / 135
 As-Maintained / 135
Software Supporting COBie / 136

Internal Software Testing / 137
Legal Implications of COBie / 137
How to Implement COBie / 138
Conclusions / 140
Future Developments / 141
References / 142

CHAPTER 6

Case Studies / 145

Introduction / 145
Case Study 1: MathWorks / 147
Case Study 2: Texas A&M Health Science Center—A Case Study of
BIM and COBie for Facility Management / 164
Case Study 3: USC School of Cinematic Arts / 185
Case Study 4: Implementation of BIM and FM at Xavier University / 233
Case Study 5: State of Wisconsin Bureau of Facilities Management,
Division of State Facilities, Department of Administration / 250
Case Study 6: University of Chicago Administration Building Renovation / 294

APPENDIX A LIST OF ACRONYMS / 315

APPENDIX B SOFTWARE CROSS REFERENCES / 321

INDEX / 325

IFMA FOUNDATION / 331
