## Contents

### Introduction
ix

### Chapter 1. Extreme Environment and Management Situations  
1

1.1. The extreme environment: what is it about? 1

1.2. Various management situations in the extreme environment 2

1.2.1. Routine activities, unexpected events and crises: a typology of management situations in the extreme environment 3

1.2.2. Routine, crisis and unexpected situations: a characterization 4

1.3. Coordination in the extreme environment: shifting from one management situation to another 12

### Chapter 2. Team Coordination: What the Theory of Organizations has to Say  
15

2.1. Classical theories of coordination 15

2.1.1. Predetermined coordination 16

2.1.2. The limited contribution of classical theories to the analysis of team coordination in the extreme environment 19

2.2. “Practice-based” coordination: putting back actors at the center of coordination 22

2.2.1. The “practice” turn in management science 22

2.2.2. What contribution does the practical perspective bring to the study of team coordination? 25

3.1. Communication practices
   3.1.1. Shared languages: code words, diagrams and body expressions
   3.1.2. Technological uses: improving communication through information sources and flow
   3.1.3. Communication practices: a synthesis

3.2. Reflexive practices
   3.2.1. Briefing–debriefing in the French Air Forces squadrons
   3.2.2. Reflexive practices in debriefing sessions
   3.2.3. Reflexive practices: a synthesis

3.3. Socialization practices
   3.3.1. The squadron bar: where common knowledge is built
   3.3.2. Cohesive activities that convey team values and build mutual trust
   3.3.3. Socialization practices: a synthesis

3.4. Coordination in the extreme environment: articulation of communication, reflexive and socialization practices

Chapter 4. Can Coordination in the Extreme Environment be Learned? A Managerial Approach

4.1. Necessary individual and collective skills for coordination in an extreme environment
   4.1.1. From theoretical to practical knowledge: practices, knowledge and skills
   4.1.2. Skills needed for coordination in extreme environments: the example of tactical airlifter crews

4.2. Setting up a process of “immediate” feedback: the case of the Air Force’s Aerobatic Team
   4.2.1. “Immediate” feedback processes within the Air Force’s Aerobatic Team
   4.2.2. “Immediate” feedback: a method of collective skills and intelligence acquisition

4.3. Deploying decision support systems: the example of LINK 16 in air forces
   4.3.1. Creativity and network-centric decision support system
